PREFACE

**DCF 251
LICENSING RULES FOR GROUP CHILD CARE CENTERS
Effective January 1, 2009**

Section 48.65, Wisconsin Statutes, requires that persons operating child care centers, that provide care and supervision for 4 or more children under 7 years of age for less than 24 hours a day, be licensed. The statute also requires the Department of Children and Families to establish rules which must be met in order to qualify for a license and which protect and promote the health, safety and welfare of the children in a child care center.

Chapter DCF 251 is the administrative code governing Group Child Care Centers that provide care and supervision for 9 or more children for less than 24 hours a day.

The purpose of the DCF 251 Group Child Care Rule with Commentary is to help users of DCF 251 understand the intent and application of the rule. An attempt has been made to offer commentary for those rules where experience indicates clarification would be helpful. However, a commentary cannot be written to cover every situation encountered.

The portion of this publication that is numbered and in regular print is the administrative code DCF 251. The portion of the publication that is within boxes and in *italicized print* is commentary that was prepared by staff of the Bureau of Early Care Regulation.

There is a header on each page that contains the rule cite for the portion of the rule beginning on that page. A table of contents and an index are also included as are appendices that contain key statutes related to child care rules, a copy of DHS 12 (administrative rules governing caregiver background checks) and other appendices referenced in the rule.

The DCF 251 Group Child Care Rule with Commentary was prepared primarily as a tool for licensing specialists. However, it may also be a useful resource for family child care providers. Providers who require additional information should contact their regional licensing specialist.

This publication may be duplicated. It is also available from the Department's website:

DCF 251.01 Authority and purpose. This chapter is promulgated under the authority of s. 48.67, Stats., to establish licensing requirements under s. 48.65, Stats., for group child care centers for children. The purpose of this chapter is to protect the health, safety and welfare of children being cared for in group child care centers.

DCF 251.02 Applicability.

(1) INCLUDED AND EXCLUDED CARE ARRANGEMENTS. This chapter applies to all group child care centers, whether the facility in which the child care and supervision are provided is known as a day care center, nursery school or preschool, head start or school-age child care program, or by any other designation, but it does not apply to the following:

(a) Care and supervision of children in a program, including religious education classes, which operates no more than 4 hours a week.

(b) Group lessons to develop a talent or skill, such as dance or music lessons, social group meetings and activities and group athletic activities.

(c) Care and supervision while the child's parent is on the premises and is engaged in shopping, recreation or other non-work activities.

Non-working parents on premises means a care situation in which a parent of every child in care is on the premises. Centers serving industry, college, university or employer-based child care where parents may be employed or attending classes on the same premises must be licensed.

ADMINISTRATIVE EXEMPTION TO LICENSING: An organization may use the premises of a licensed child care center for occasional exempt care for conferences or other activities when the center is not in operation. An example of this usage would be occasional weekends or evenings.

Centers offering after-hours care/activities for children on the premises of a licensed center (such as parent date nights, shopping, etc.) may do so provided that the parents are informed that the center is not licensed during that time period. If the center wishes to operate during this time as a licensed facility, an exception must be requested. Note: Centers should also check with their insurance company to ensure coverage during this time.

(d) Care and supervision provided at the site to the child of a recipient of temporary assistance to needy families or Wisconsin works who is involved in orientation, enrollment or initial assessment prior to the development of an employability plan or the child care is provided where parents are provided training or counseling.

This program is also known as W-2.

(e) Seasonal programs of 10 days or less duration in any 3-month period, including day camps, vacation bible schools and holiday child care programs.

(f) Care and supervision in emergency situations.

(g) Care and supervision while the child's parent is employed on the premises if the child receives care and supervision for no more than 3 hours a day.

Note: Section 48.65, Stats., exempts parents, guardians and certain other relatives; public and parochial (private) schools; persons who come to the home of the child's parent to provide care for less than 24 hours per day; and counties, cities, towns, school districts and libraries that provide programs for children primarily intended for social or recreational purposes from the requirement of a license. As specified under s. 49.155(4), Stats., or s. DCF 201.04(1), programs, other than those operated by public schools, are required to be licensed by the department or certified by a county agency in order to be eligible to receive a child care subsidy. To be eligible for child care subsidy payments under s. 49.155(4), Stats., or DCF 201.04(1), programs, other than those operated by public schools, may be required to be licensed by the department or certified by a county agency.

251.02(2)

(2) EXCEPTION TO A REQUIREMENT. The department may grant an exception to a requirement of this chapter when it is demonstrated to the satisfaction of the department that granting the exception will not jeopardize the health, safety or welfare of any child served by the center. A request for an exception shall be in writing, shall be sent to the department and shall include justification for the requested action and a description of any alternative provision planned to meet the intent of the requirement.

The department's Request for Exception form is the preferred format for the request. A request in the form of correspondence will be accepted as an alternative. The exception request must include the rule number for which the exception is being requested; the signature of the licensee or the person previously designated in writing by the licensee to have the authority to sign official documents or correspondence; and the alternative protection(s) being provided in lieu of meeting the rule.

Action on implementation of the exception request may not be taken by the licensee until an affirmative response is received from the department.

Failure to comply with the conditions of the exception could result in withdrawal of the exception and / or initiation of other enforcement actions such as forfeiture or revocation of the license.

Note: A request for an exception to a requirement of this chapter should be sent to the licensing representative at the appropriate field office of the Department's Division of Early Care and Education. See Appendix A for addresses of the regional offices.

(1) An institution is a private school if its education program meets all of the following criteria:

(a) The primary purpose of the program is to provide private or religious-based education.

(b) The program is privately controlled.

(c) The program provides at least 875 hours of instruction each school year.

(d) The program provides a sequentially progressive curriculum of fundamental instruction in reading, language arts, mathematics, social studies, science and health. The subsection does not require the program to include in its curriculum any concept, topic or practice in conflict with the program’s religious doctrines or to exclude from its curriculum any concept, topic or practice consistent with the program’s religious doctrines.

(e) The program is not operated or instituted for the purpose of avoiding or circumventing the compulsory school attendance requirement under s. 188.15(1)(a), Wis. Stats.

(f) The pupils in the institution’s educational program, in the ordinary course of events, return annually to the homes of their parents or guardians for not less than 2 months of summer vacation, or the institution is licensed as a child welfare agency under s. 48.60(1), Wis. Stats.

(2) An institution may request the state superintendent to approve the institution’s educational program as a private school. The state superintendent shall base its approval solely on the criteria under sub. (1).

s. 118.167, Wis. Stats., Private school determination by state superintendent. If an association that regulates or accredits private education institutions in this state submits an affidavit to the state superintendent attesting that the institution meets or exceeds all of the criteria under s. 118.165 and the state superintendent finds that the institution does meet or exceeds all of the criteria under s. 118.165, the state superintendent shall determine that the institution is a private school. If at any time the state superintendent finds that an institution determined to be a private school under this section no longer meets the criteria under s. 118.165, the state superintendent may withdraw the determination.

(22g) “Part day center” means a center where a defined group of children attend for a specified period of time that is less than 5 consecutive hours in length.

(22r) “Physical Restraint” means the use of physical force to restrict the free movement of all or part of a child’s body.

(23) “Physician” has the meaning prescribed in s. 448.01(5), Stats.

(28) “Self-contained room or area” means a room separated by permanent walls or an area separated by permanent or portable partitions or dividers acting as a visual barrier for children which is reserved for a group of children and contains the indoor equipment and furnishings required for that group.

Following are some of the ways a self-contained room or area may be used.

- 1. All the equipment and furnishings (both in variety and quantity) required for a group of children are available in the room or area. Note: Some considerations to this expectation might apply. For example, a room or area might not contain large muscle equipment if a furnished gym were available on a regular basis to the group.*
- 2. The room or area is set up with a number of interest centers and the quantity of equipment required for the group is met. Moreover, additional rooms or areas are available to the group on a daily basis to meet the variety requirement. Groups may rotate between two or more self-contained rooms or areas. Maximum group size and staff-to-child ratios must be maintained.*

251.03(28m)

(33) “Universal precautions” means measures taken to prevent transmission of infection from contact with blood or other potentially infectious material, as recommended by the U.S. public health services centers for disease control and adopted by the U.S. occupational safety and health administration (OSHA) as 29 CFR 1910.1030.

Note: “Standard precautions” for infection control measures incorporate universal precautions. Information on the OSHA requirements related to standard or universal precautions is available on the OSHA web site at <http://www.osha.gov>. Information is also available from the Child Care Information Center, 1-800-362-7353.

(34) “Volunteer” means a person who is not paid, but agrees to give time, with or without reimbursement for expenses, to transport children attending a group child care center or to work in a group child care center.

DCF 251.04 Operational requirements.**(1) TERMS OF A LICENSE.**

For additional information on how and when collaborative programs must be licensed, see the department's publication Collaborative Child Care Program – Technical Assistance Tool. Instructions for obtaining that document can be found on Appendix J Resource List.

(a) The number of children at a group child care center at any one time may not exceed the number for which the center is licensed.

Licensed capacity may not be exceeded at any time. If a center over-enrolls on the basis of an absentee rate or has an occasional drop in or "visitor," the center must be sure that over-enrollment will not result in the center being over capacity.

If care is provided to children 7 years of age and older in the same space with children less than 7 years of age, a license reflecting the actual age range and capacity to be served is issued.

(b) The age of children served by a center may not be younger or older than the age range specified in the license.

PROGRAMS THAT PROVIDE CARE TO SCHOOL-AGE CHILDREN: Section 48.65, Wis. Stats., requires centers that provide care to 4 or more children under age 7 to be licensed. Centers who serve a mix of children both under and over age 7 must decide whether to license the entire program or only the portion of the program that serves children under age 7. If the center chooses to license the entire program, the entire program is subject to the licensing rules. If the center chooses to license only the portion of the program that serves children under age 7, the groups of children under age 7 and the groups of children age 7 and over may not be mingled because the care of the older children impacts health safety, and welfare of children in licensed care. Therefore both portions of the program must have separate spaces and staff.

If children 7 years of age and older are served in the same space with children less than 7 years of age, a license for the actual age range to be served within the licensed capacity is issued. Developmentally appropriate equipment and supplies must be available. See Section DCF 251.095 Exceptions and Additional Requirements for Care of School-Age Children.

A license may be granted for the care of children through age 17. If a provider wishes to care for a child above or below the specified age on the license, an exception should be requested. For example, a provider who is licensed up to age 12 and wishes to care for one child age 14. The exception must be granted prior to caring for a child above or below the ages specified on the license

(c) The hours, days and months of a center's operation may not exceed those specified in the license.

(2) ADMINISTRATION. A group child care center licensee shall do all of the following:

(a) Comply with all laws governing the facility and its operation.

Note: Under the state public accommodation law, s. 106.52(3), Stats., as well as federal statutes and regulations related to use of federal funding, and some local anti-discrimination ordinances, denying admission on the basis of race, handicap, religion or certain other characteristics may be illegal.

(b) Comply with all requirements of this chapter.

(c) Ensure that all information provided to the department is current and accurate.

(d) If residing in another state, designate in writing, as part of the application under s. DCF 251.12(2), a Wisconsin resident who is responsible on behalf of the licensee for ensuring compliance with all requirements of this chapter.

In circumstances where Migrant Councils operate licensed programs in Wisconsin on a seasonal basis, the person representing the Migrant Council may be considered to be a WI resident during the period of time that program operates in WI. The Wisconsin residence address must be provided. See 251.11(2) Initial Application for a Probationary License

251.04(2)(e)

(e) Meet, upon request of the department, with a licensing representative on matters pertaining to the license.

(f) Prior to receiving or continuing a license, complete all application forms and pay all fees and forfeitures due to the department.

(g) Submit to the department a certificate of insurance reflecting

An insurance binder has the same intent as a certificate of insurance but may be issued by the insurance company prior to initial licensing and be accepted until the certificate is issued.

It is recommended that the department be listed as a certificate holder so automatic notice will be sent to the department if coverage is canceled by the insurance firm or subsequent coverage is not obtained through failure of the licensee to pay the premiums.

Group child care centers operated by the University of Wisconsin system and technical colleges are not required to submit certificates of insurance to the Department since coverage is provided by statute for programs, employees and agents.

1. Current dates of coverage for all of the following:

a. General liability insurance which provides coverage with limits of not less than \$25,000 for each person and total limits of \$75,000 for each occurrence.

Vehicles that are owned by the licensee and used to transport children must be covered by vehicle liability insurance.

b. Vehicle liability insurance, when transportation is provided by the center, with minimums no less than those specified in s. 121.53, Stats.

c. Non-owned vehicle liability insurance when transportation is provided in vehicles not owned by the center, excluding public transportation vehicles and chartered vehicles, with minimums no less than those specified in s. 121.53, Stats.

Examples of transportation provided in vehicles not owned by the center include:

- *Children transported in personal vehicle of employee for field trip, portal-to-portal or for emergency situations.*
- *Children transported in personal vehicles of parents or other persons for field trips. If parents transport only their own children for a field trip, non-owned insurance coverage is not required.*
- *Children transported in vehicles donated by other agencies, but not owned by the center, such as churches, community groups, or the Red Cross.*

The Commissioner of Insurance has recommended that centers carry a non-owned vehicle liability policy / rider even when the center only uses public transportation for field trips or portal-to-portal transportation.

Non-owned insurance coverage may be obtained as a rider to vehicle insurance coverage, or may be obtained as an extension to general liability coverage without vehicle insurance coverage, but must specifically appear on the certificate as such. A common practice of insurance carriers is to issue a multi-peril policy covering general liability, property and non-owned vehicle coverage.

If transportation is chartered, it is recommended that the licensee ensure that there is adequate liability coverage. It is recommended that the center have coverage as well as the chartered company.

2. An indication that pets are included in the liability coverage if cats or dogs are permitted in areas of the center accessible to children during the hours of operation.

The certificate of insurance must indicate that coverage includes cats and dogs.

(h) Develop, submit to the department for review and implement written policies on the following subjects:

1. Fee payments and refunds.

Dollar amounts (fees) do not need to be included in a fee policy. Whether or not refunds are given, and under what circumstances, must be included. It is recommended that center requirements for payment of fees be included, but the department does not approve or disapprove what is contained in the fee payment policy.

2. Personnel, including job descriptions, hours of work, lunch and break times, holidays, vacations, sick leaves, leaves of absence, probationary periods, performance evaluations, grievance procedures and the disciplinary process. The personnel policy shall contain a procedure that requires staff to notify the licensee and the licensee to notify the department as soon as possible but no later than the next business day when any of the following occurs:
- a. The employee has been convicted of a crime.
 - b. The employee has been or is being investigated by any governmental agency for any other act, offense, or omission, including an investigation related to the abuse or neglect or threat of abuse or neglect, to a child or other client, or an investigation related to misappropriation of a client's property.
 - c. The employee has a substantiated governmental finding against them for abuse or neglect of a child or adult or for misappropriation of a client's property.
 - d. When a professional license held by an employee has been denied, revoked, restricted or otherwise limited.
3. Discharge of enrolled children.

Americans with Disabilities Act discrimination issues should be referred to: Office on the ADA Civil Rights Division, US Dept Of Justice, PO Box 66738, Washington DC 20035-9998, (202) 514-0301

Enrollment discrimination should be referred to the Department of Workforce Development (DWD) Equal Rights Division at (608) 266-6860.

If the child care fees are paid by public funds, discrimination issues can be directed to the funding agency.

- (i) Develop, submit to the department for approval and implement as approved written policies and plans, consistent with the requirements of this chapter, on the following subjects:
1. Admission.
 2. Health care. If the center is licensed to care for children under one year of age, Sudden Infant Death Syndrome risk reduction procedures shall be included.

See DCF 251.09(2)(b) INFANT & TODDLER – INDIVIDUAL SLEEP PATTERNS; 251.09(1)(k) INFANT & TODDLER – BEDDING and 251.09(1)(L) INFANT & TODDLER – SOFT MATERIALS IN CRIBS.

3. Education.
4. Nutrition.
5. Child guidance including appropriate ways to manage crying, fussing or distraught children.

See Appendix J Resource List for instructions on how to obtain information on ways to manage crying, fussing or distraught children.

6. Contingency plans to be followed in the event of a fire, tornado, missing child or other emergency.

- *Child Care Information Center <http://www.dpi.state.wi.us/ccic/> or toll free at 1-800-362-7353.*

7. Continuing education of staff.
8. Orientation of new staff and volunteers.
9. Transportation, if the center will transport children either on field trips or on a regular schedule. The policy shall include a procedure to ensure that no child is left unattended in a vehicle.

251.04(2)(j)

(j) Ensure that all published statements such as brochures and publicity releases are accurate.

(k) Post the child care license near the entrance or in some other conspicuous area of the center that is visible to the public.

(L) Post next to the child care center license the results of the most recent licensing inspection, including any rule violations cited by the department and any notice of enforcement action including, license revocation or denial and any stipulations, conditions, exceptions, or exemptions that affect the license.

The Non-compliance Statement & Correction Plan form must remain posted until the next Non-Compliance Statement or Compliance Statement is issued.

(m) Ensure that any action, by commission or omission, or any condition or occurrence relating to the operation or maintenance of the child care center does not adversely affect the health, safety or welfare of any child under the care of the licensee.

(o) Submit to the department by the department's next business day a completed Background Information Disclosure form for each current household member who turns age 10.

Note: For more information about caregiver background checks refer to the administrative rule under ch. DHS 12. Information on how to obtain a copy of the Background Information Disclosure form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

(p) Submit a current delegation of administrative authority signed by the licensee that outlines the organizational structure and designates, in a chain of command form, those persons on the premises in charge of the center for all hours of operation.

(3) REPORTS. The licensee shall report to the department all of the following. If the report is made by telephone, the licensee shall submit a written report to the appropriate regional licensing office within 5 business days of the incident. Fax, e-mail, and letter are acceptable ways of filing a written report:

The licensing rules spell out what must be reported to the department and the time frames for making those reports. The licensing specialist will review any report made and may conduct a follow-up investigation to determine whether licensing violations occurred or a situation exists that has the potential to cause harm to a child. The follow-up investigation may involve a site visit, review of additional documentation submitted by the licensee, review of police reports or county investigations or interviews with staff members or parents.

(a) Any death of a child in the care of the center or any incident or accident that occurs while the child is in the care of the center that results in an injury that requires professional medical treatment within 48 hours of the licensee becoming aware of the medical treatment.

"Professional medical treatment" means being seen for evaluation and/or treatment by a health care professional such a physician, physician assistant, dentist, nurse, etc.

It is recommended that a center include information on the details of what happened to cause the injury when making the written report. Examples of details that should be included in this report are: date and time, detailed description of what caused the injury, any witnesses, what action was taken by the provider at the time of the incident or accident.

Note: The licensee may use either the department's form, Accident Report — Child Care Centers, or the licensee's own form to report incidents, accidents or deaths. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

(b) Any damage to the premises which may affect compliance with this chapter, within 24 hours after the occurrence.

Damage to the premises which might require a report includes fires that require the services of the fire department and other disasters such as boiler explosion, car driving through and into buildings, flooding, tornadoes, roof collapse, etc.

(c) A change in the administrator or center director of a child care center, within 30 days after the change.

(d) A change of any program service, at least 5 days prior to the change.

Examples of a change of program services include closing the center on a temporary, seasonal or permanent basis; or starting / implementing or terminating transportation.

(e) Statistical data required by the department on forms provided by the department.

(f) If requested by the department, a plan of correction for cited violations of this chapter or ch. 48, Stats., in a format specified by the department. The department shall receive the plan of correction by the date the department specifies and be approved by the department licensing representative.

Note: The licensing representative will notify the licensee if a plan of correction is required and provide the plan of correction format with the notification.

(g) Any known convictions, pending charges or other offenses of the licensee, child care center employees or other person subject to a caregiver background check which could potentially relate to the care of children at the center or activities of the center by the Department's next business day.

See the department's publication Requirements for Caregiver Background Checks for Child Care Centers for more information. For information on how to obtain this document, see Appendix J Resource List.

Note: See s. DCF 251.04(8) on reporting suspected child abuse, s. DCF 251.04(6)(c) on maintaining a center medical log book and s. DCF 251.07(6)(a) 2. on logging injuries in a center medical log.

DCF 251.04(8)(a) or any inappropriate discipline of a child by an employee or volunteer including any incident that results in a child being forcefully shaken or thrown against a surface, hard or soft, during the child's hours of attendance within 24 hours after the occurrence.

(k) Any incident involving law enforcement within 24 hours after the occurrence that:

1. Involves a licensee, a household resident or an employee of the center in an incident that causes, or threatens to cause, physical or serious emotional harm to an individual, including a child in the care of the center.

2. Involves any traffic-related incident where a person responsible for the violation transports children in the care of the center.

(L) Any construction or remodeling on the premises that has the potential to affect an area accessible to children or a condition of the license. Notification shall be provided in writing before the construction or remodeling begins.

Note: See s. DCF 251.11(5)(a) for items that affect a condition of the license.

Note: It is recommended that the licensee check with the local municipality to determine whether a building permit is required before beginning any construction or remodeling.

(m) Any confirmed case of a communicable disease reportable under ch. DHS 145 in a child enrolled at the child care center or a person in contact with children at the center within 48 hours.

Communicable disease information about any named child is confidential and shall not be available to other parents.

251.04(3)(m) continued

The Division of Public Health communicable disease chart lists communicable diseases that are transmitted through normal contact and must be reported to the local public health department. The department and parents of children exposed to any communicable diseases appearing on this chart must be notified of the exposure. For information on how to obtain a copy of the communicable disease chart, see Appendix J Resource List.

Examples of diseases not transmitted through normal contact are HIV Aids, Hepatitis B and C and sexually transmitted diseases.

Contact your local health department for further information.

(b) The center shall permit parents to visit and observe at any time during the center's hours of operation, unless access is prohibited or restricted by court order.

The provider may lock the door for security.

When access is prohibited or restricted by court order, permission to call for the child is also affected. To prohibit or restrict access, it is recommended that the center have a copy of the court order on file at the center. It is recommended that the center policies include notification to the parents that they are permitted to visit and observe during hours of operation. Further information about parental rights to children's records may be obtained from www.legalexplorer.com.

(c) The center shall make opportunities available at least twice each year for parent and staff communication regarding the child's adjustment to the program, and the child's growth and development.

Note: When a child care worker or a parent has concerns about a child's growth or development, a referral to a Birth-to-Three agency or the local public school should be considered to determine if the child is eligible for special services. Wisconsin has an information and referral service for persons with questions or concerns about a child's development called First Step that is available to the public 24 hours a day, 7 days a week. When a call is placed to First Step at 1-800-642-7837, the caller will learn about early intervention services as well as other related services in the area.

Files for staff must be available on the employee's first day of work. At the time of initial licensure, staff files including documentation of educational requirements are required for the person who is identified as the center administrator and the person who is identified as the center.

Background Check information required under subdivisions 2. and 3. below, continuing education documentation required under subdivision 5. below, and documentation of the days and hours a person is included in the staff to child ratios required under 8. below is not required to be kept in the individual's personnel file; however, these records must be readily available for review by the licensing specialist. If staff records are kept at a central office location not on the premises of the center, the center must request an exception. Records may be reviewed at the central office if approved as part of the exception.

1. The employee's name, address, date of birth, education, position, previous work experience in child care including reason for leaving previous positions, and the name, address and telephone numbers of persons to be notified in an emergency.

Note: The licensee may use the department's form, Staff Record — Child Care Centers, or the licensee's own form for recording staff information. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

It is not illegal to ask for age or date of birth on an employment form. It is illegal to refuse to hire someone on the basis of age if that person is 40 years or older (Wis. Fair Employment Act 111.31 – 111.395).

Employers are prohibited from using age as a basis for discharging or failing or refusing to hire an individual and are prohibited from discriminating in compensation, terms, conditions or privileges of employment because of age (Wis. Fair Employment Act). See www.dwd.wisconsin.gov for more information.

2. A background information disclosure form, completed prior to the employee's first day of employment and every 4 years thereafter, that does not reveal any information which may preclude the person's employment under s. 48.685, Stats., or ch. DHS 12.

251.04(5)(a)2.Note:

Note: The department's form, Background Information Disclosure, is used for reporting background information. Information on how to obtain the form is available on the department's website, <http://def.wisconsin.gov>, or from any regional licensing office in Appendix A.

3. A complete caregiver background check as specified in s. 48.685, Stats., and ch. DHS 12 including the results of any subsequent investigation related to information obtained as part of the background check within 60 days of employment and every 4 years thereafter.

A complete caregiver background check (CBC) consists of:

- *Background Information Disclosure (BID) form.*
- *Report from the Department of Justice (DOJ).*
- *A report on letterhead from the Department of Health Services (IBIS letter) that contains information collected from various databases on offenses (other than criminal offenses) that might affect a person's eligibility to operate or to be employed by a licensed child care center including nurse aide directory; caregiver findings of abuse or neglect of an adult client or misappropriation of a client's property; denials or revocations of operating licenses for child programs; rehabilitation review findings; Department of Regulation and Licensing (DRL) status of professional credentials, licenses or certificates.*
- *Any subsequent investigation such as police reports, court reports, final disposition.*
- *Employment decision in writing if crimes are involved.*

It is recommended to check circuit court access at www.wcca.wicourts.gov, it may contain additional information.

*If the BID reveals no barred offenses, the person may begin working **with** supervision immediately. However, caregivers **cannot** work without supervision until the CBC is completed. It is recommended that the licensee complete the CBC as soon as possible after hiring a new employee to ensure that any necessary investigation can be completed within the 60-day time frame.*

If a center has an employee who has resided outside of Wisconsin within the past three years the center will need to make a good faith effort to obtain a CBC from that state. Information on how to obtain an out-of-state check is available on the Department of Justice website:

www.doj.wisconsin.gov

A release of confidentiality form or other consent form is not required to request criminal records from the Criminal Investigation Bureau of the WI Department of Justice.

If a center employee is less than 18 years of age, a complete BID shall be submitted to the regional licensing office with the appropriate fee.

For additional information see Appendix H, Chapter DHS 12 Caregiver Background Checks and the department's publication Requirements for Caregiver Background Checks for Child Care Centers.

For information on how to obtain this document, see Appendix J Resource List.

See DCF 251.05(1)(L)1. STAFF HEALTH EXAMINATION – REQUIREMENTS.

5. A certificate from The Registry documenting that the person has met the educational qualifications for the position if the person has worked as a teacher, director or administrator at the center for at least 3 months. A copy of an educator's license issued by the department of public instruction as a teacher may substitute for a certificate from The Registry. For persons not required to have a Registry certificate including assistant teachers and a teacher, center director or administrator who has not worked for the center for more than 3 months, documentation of the person's educational qualifications shall be on file.

Persons working as a center administrator, center director or teacher as of January 1, 2009, and who were not previously required to have a Registry certificate, have until April 1, 2009, to obtain the certificate.

Teacher licenses issued by other states are acceptable.

6. Documentation of orientation and continuing education received under s. DCF 251.05(2).

Note: The licensee may use either the Department's form, Staff Continuing Education Record — Child Care Centers, or the licensee's own form to document the completion of continuing education. The licensee may use either the Department's form, Staff Orientation Checklist — Group Child Care Centers, or the licensee's own form to document completion of staff orientation. Information on how to obtain Department's forms is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

7. Documentation of training in shaken baby syndrome prevention taken before beginning work if the person will provide care and supervision to children under age 5.

8. Documentation of days and hours worked when the person was included in the staff-to-child ratio.

It is recommended that documentation include the classroom where the staff person worked. Documentation could include time sheets, classroom or center attendance records.

(b) Adults who work at the center and who are compensated from sources other than the center, and student teachers, shall meet the staff record requirements specified in par. (a)1., 2. and 3.

Teachers provided by a school district to a program operated in collaboration with a licensed child care center are not required to maintain staff records with the center. However, at a minimum, it is recommended that emergency contact information for school district employees be kept at the center. See the department's publication Licensing Collaborative Child Care Programs for additional information. For instructions on how to obtain this document, see Appendix J Resource List.

(6) CHILDREN'S RECORDS.

(a) The licensee shall maintain a current written record obtained prior to the child's first day of attendance or subsequent re-enrollment at the center on each child enrolled and shall make the record available to the licensing representative on request. Each record shall include all of the following:

Each child must have a file at the facility that contains the items required in this subsection. See Appendix E for other required items and Appendix I for instructions for obtaining forms that are available for use by the center. In some instances the rule allows centers to develop and use their own forms; all center-developed forms. If a center chooses to develop their own forms, all the information specified in the rule is required to be collected.

Administrative rules do not relate to the office management or record-keeping techniques of a center. Required records must be maintained for the length of time the child is enrolled, be on the premises for children in care and be available to the licensing specialist for review.

It is recommended that the date of discharge be added to the child's record and that the center retain records for 3 years after a child is discharged.

1. Enrollment information consisting of:
 - a. The name and birthdate of the child.
 - b. The full names of the child's parents.

Enrollment information should include both parents if applicable. If parental access is denied, it is recommended that a current copy of the court order be on file at the center.

- c. The child's home address and telephone number.
- d. An address and telephone number where a parent can be reached while the child is in care.
- e. The name, address, telephone number and relationship to the child of a person to be notified in an emergency when a parent cannot be reached immediately.
- f. The name, address and telephone number of a physician or medical facility caring for the child.

251.04(6)(a)1.g.

g. The names, addresses and telephone numbers of persons other than a parent authorized to call for the child or to accept the child who is dropped off.

If no one other than a parent is authorized to call for a child, a notation or "mother/father only" should be on the form.

A current copy of the court order must be on file at the center if parental access is denied.

h. The child's first day of attendance at the center.

In nursery school and part-day preschool situations where children may be enrolled on a 9- or 10-month semester basis, the first day of attendance shall be the first time the child attends (initial enrollment) and is considered the first date of attendance regardless of subsequent re-enrollments.

If the center practice is to secure a new enrollment form each fall, the center should maintain the child's original enrollment form with the initial attendance date in the current file. The first day of attendance needs to be maintained in the child's file for as long as the child is enrolled in the program so that an accurate measurement of compliance with immunization and physical examination rules can be made by the licensing staff.

i. For an infant or toddler, a current statement from the parent about the infant or toddler's habits of eating, sleeping, toileting and communication, and specific techniques which appear to comfort the child.

Note: See DCF 251.09(1)(am) which specifies what written information must be obtained from the parent of an infant or toddler. The licensee may use either the department's form, Intake for Child under 2 Years — Child Care Centers, or the licensee's own form for recording information about each child under 2 years of age. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

See DCF 251.09(1)(b) INFANT & TODDLER – LOCATION & SHARING INTAKE INFORMATION.

2. Written consent from the parent for emergency medical care or treatment.

Note: The licensee may use either the department's form, Child Care Enrollment, or the licensee's own form to obtain consent of the child's parent for emergency medical treatment. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

In situations where the parent refuses to give consent for emergency medical care, the center should request that the parents sign an authorization granting permission to the center for immediate first aid measures which seem essential and which would temporarily alleviate the situation. This could include taking the child to a professional health site. Efforts should continue to be made to contact the parent or Christian Science Practitioner who may be listed as physician. Source: Christian Science Committee on Publications for Wisconsin, 414-276-2611.

3. Authorization from the parent to transport the child to and from the center, when transportation is provided.

Note: The licensee may use either the department's form, Transportation Permission — Child Care Centers, or the licensee's own form to obtain authorization to transport children to and from the Center. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

Emergency information as specified in DCF 251.08(2)(b)1., 2., and 3. should be carried for the children transported in each vehicle when more than one vehicle is used for field trips and should be carried for the children during walking trips off the premises.

4. Authorization from the parent for the child to participate in and be transported for field trips and other activities, if these are part of the center's program.

Note: The licensee may use either the department's form, Field Trip or Other Activity Notification / Permission, or the licensee's own form for securing parental information. The department's form, Child Care Enrollment, also contain authorization from a parent to participate in field trips if the center chooses to use that form. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

5. Authorization from the parent outlining the plan for a child to come to the center from school, home or other activities or to go from the center to school, home or other activities unless the child is accompanied by a parent or other authorized person or transported by the center.

The provider should plan for situations when a child fails to arrive as scheduled from school or another activity. A parent may authorize other persons to drop-off or pick-up a child through a note or on the Child Enrollment form. If a child is transported by a school bus, taxi or transportation company that may have various individuals providing the transportation, then the written agreement should specify the transportation agency as the authorized pick-up or drop-off "person."

Children attending a school-age program within a building do not need this authorization.

Note: The licensee may use either the department's form, Alternate Arrival/Release Agreement — Child Care Centers, or the licensee's own form for securing the parent's authorization. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

6. Documentation of each child's health history on a form provided by the department.

Note: The department's form, Health History and Emergency Care Plan is used for health history information. Information on how to obtain the form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

See DCF 251.07(6)(k)5 HEALTH HISTORY INFORMATION. The center's procedure for sharing a child's health history may include keeping the actual form with the child. In this case, the form is not required to be kept in the child's file.

6m. Documentation of each child's immunization history.

Note: The form, Day Care Immunization Record, may be used to record immunization information. An electronic printout from the Wisconsin Immunization Registry or other registry maintained by a health care provider may be used in place of the Day Care Immunization Record. Information on how to obtain the form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

Under s. 252.04, Stats., and ch. DHS 144, the immunization record for each child must be on file no later than 30 school days (6 calendar weeks) after the first day of a child's attendance.

7. Specific informed written consent from the parent for each incident of participation by a child in any research or testing project.

Note: The licensee may use either the department's form, Informed Consent for Observation or Testing by an Outside Agency — Child Care Centers, or the licensee's own form for securing the parent's written consent. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

8. The health examination report required under s. DCF 251.07(6)(k)3.

Evidence of a health exam may include a form (e.g., HealthCheck provider form or department form Child Health Report – Child Care Centers) or a printout from a child's medical record that includes the date of the exam, the child's name and the name of the health professional who conducted the exam. No exception is required for the use of a form or report that is not the department's form.

Doctors of Osteopathy may perform physical examinations. Chiropractors are prohibited by statute from performing physical examinations.

(b) The licensee shall maintain a current, accurate written record of the daily attendance and date of birth of each child for the length of time the child is enrolled in the program. The actual time of arrival and departure for each child shall be recorded if hours of arrival and departure vary among children.

251.04(6)(b) continued

The center is responsible for children (i.e., knowing their whereabouts) from the time the parent, guardian or responsible person brings the child to a center staff. Parents or legal guardians are responsible for the child until the child is safely in the classroom or received by center staff.

When transportation is provided by the center, a child is considered to be in the care of the center when the child is placed in the vehicle at the pick-up location and is released from care when the child is dropped off at his/her final location at the end of the child care day. Daily attendance records must include the actual time of pick-up and drop-off.

If the child is transported by means other than center-provided transportation, the transporter is responsible for the child until the child is received by center staff. If a child is not received directly by center or school staff, an authorization for this time when the child is not supervised must be signed by the parent/legal guardian.

Birthdates are not required to be on the daily attendance record, but must be readily accessible to the licensing specialist.

The daily attendance record could be a sign-in / sign-out book completed by either the parents or the center. However, the center is responsible for making sure that this record is accurate. Centers may have a central sign-in/sign-out book and another method to track attendance by room or provider.

See DCF 251.05(3)(f) CHILD TRACKING PROCEDURE..

Note: The form, Daily Attendance Record — Child Care, may be used to record a child’s daily attendance. Information on how to obtain the department’s form is available on the department’s website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

(c) The licensee shall maintain a log or logs for medication and injury and shall record daily any injuries received by a child or medication dispensed to a child, as follows:

Not every injury will be apparent immediately. A good rule of thumb is to record every accident / incident. For example, a child bumps his/her head and no mark or bump is readily apparent but there is the potential for a mark, bump or bruise to develop. This accident should be recorded. Any head injury is considered an “emergency,” and parents should be notified as soon as possible.

Entries regarding a specific child made in a medical log book must be available to that child’s parent in accordance with DCF 251.04(7)(b) ACCESS TO RECORDS & REPORTS – PARENTS. To protect a child’s confidentiality, centers are strongly encouraged to have separate entries for each child involved in an incident such as biting. When parents ask to review the medical log book, the center should have a procedure for ensuring that a parent reviewing the record for his/her own child does not see information about another child in care.

In addition to providing accountability to the parents and the department, bound books and recordings as specified may be admissible in court as evidence in case of civil suit.

The log should be kept as long as the center is in operation. For instructions on how to obtain information / directions on log completion, see Appendix J Resource List.

1. The log shall be in a book with stitched binding with pages that are lined and numbered. The pages may not be removed or lines skipped.

2. Entries shall be made in ink on the date of occurrence and shall be dated and signed or initialed by the person making the entry.

Note: See s. DCF 251.07(6)(f) and (j) for information on recording entries in the center medical log book.

(7) CONFIDENTIALITY. The licensee is responsible for the compliance of child care center employees and volunteers with s. 48.78, Stats., and this subsection. The licensee shall ensure that:

(a) Persons having access to children’s records do not discuss or disclose personal information regarding the children and facts learned about the children and their relatives. This does not apply to:

1. The parent or a person authorized in writing by the parent to receive the information.

2. Any agency assisting in planning for the child when informed written parental consent has been given.

3. Agencies authorized under s. 48.78, Stats.

A child care may give access to confidential information regarding an individual in care to a public school, social welfare or law enforcement agency or the Department of Children and Families. A social welfare agency is a county department of social or human services, an Indian tribal social service agency or agent or a licensed child welfare agency under contract with the county department. A law enforcement agency is a sheriff or police department.

(b) A parent, upon request, has access to all records and reports maintained on his or her child.

Every parent has a right to their child's school, medical, and dental records. The only exceptions to this rule are if a court specifically orders that a parent does not have access to the records. It is recommended that a copy of such an order be on file at the center.

(c) All records required by the department under this chapter for licensing purposes are available to the licensing representative.

(8) REPORTING CHILD ABUSE.

(a) A licensee, employee or volunteer at a child care center who knows or has reasonable cause to suspect that a child has been abused or neglected as defined in ss. 48.02(1) and 48.981(1), Stats., shall immediately contact the county department of social services or human services or a local law enforcement agency, as required by s. 48.981, Stats.

A review of the department's publication "It Shouldn't Hurt To Be a Child" will be sufficient to meet the requirement for training in child abuse or neglect identification and reporting procedures. For information on how to obtain this document, see Appendix J Resource List. Training may also involve local child protective services, local law enforcement agencies or other agencies that provide continuing education experiences. Training may be counted as continuing education. Documentation could be a certificate of attendance at a formal training, completing the continuing education form or having the employee initial and date the brochure upon review.

Unusual bruises...

Source: St. Louis Police Department

Any bruise or markings not in areas that could be determined as made by a child during normal child activities that could be injury causing

(b) The licensee, shall ensure that every employee and volunteer who comes in contact with the children at the child care center has received training every 2 years in all of the following:

1. Child abuse and neglect law.
2. How to identify children who have been abused or neglected.
3. The procedure for ensuring that known or suspected cases of child abuse or neglect are immediately reported to the proper authorities.

Licensees, employees and volunteers are mandated reporters under the law.

- *A mandated reporter who witnesses or who has reasonable knowledge to suspect that a child has been abused or neglected is required to contact the proper authority (county department of social or health and human services or law enforcement.) immediately.*
- *The witness or the person who has reasonable knowledge to suspect that a child has been abused or neglected should be the person to make the report.*

See Wisconsin Statute 48.981

Note: Failure of the licensee to report known or suspected child abuse or neglect does not lessen the legal duty of a child care employee to report known or suspected cases of child abuse or neglect. Information related to child abuse may be obtained from the Child Care Information Center, 2109 S. Stoughton Rd., Madison, WI 53716, 1-800-362-7353.

Note: See s. DCF 251.04(3)(j) on reporting suspected abuse of a child by a staff member to the Department.

DCF 251.05 Staffing.**(1) RESPONSIBILITIES AND QUALIFICATIONS OF STAFF.**

(a) *Competency.* A child care worker, including the center administrator, center director, child care teachers, assistant teachers, and volunteers counted in the staff to child ratio shall be physically, mentally and emotionally able to provide responsible care for all children including children with disabilities.

Exceptions will not be granted for staff who do not meet entry-level training qualifications.

(b) *Shaken baby syndrome prevention training.* Except for a volunteer who is not counted in staff-to-child ratios, each child care worker including the administrator, center director, teachers, assistant teachers, and substitutes who provide care and supervision to children under 5 years of age shall receive department-approved training in shaken baby syndrome and impacted babies and appropriate ways to manage crying, fussing or distraught children. The training shall be completed by one of the following methods:

1. Complete the department-approved, in-person training on shaken baby syndrome prevention and impacted babies before the date on which the child care worker begins to work with children under age 5 years.

2. View a department-approved video or complete a department-approved, web-based course on shaken baby syndrome prevention before the date on which the child care worker begins to work with children under age 5 years and complete a department-approved, in-person training within 6 months of beginning to work with children under age 5.

Note: Department-approved training in shaken baby syndrome prevention is included in the department-approved non-credit courses called *Introduction to the Child Care Profession* and *Fundamentals of Infant and Toddler*, if the course was taken after 7/1/05. Information on department-approved training in shaken baby syndrome is available from the Child Care Information Center at 800-362-7353.

(c) *Cardiopulmonary resuscitation training.* All employees in regular contact with children shall obtain and maintain a current certificate of completion for infant and child cardiopulmonary resuscitation and automated external defibrillator use from an agency approved by the department within 6 months after beginning to work with children. Volunteers included in determining staff-to-child ratios shall obtain a certificate of completion in infant and child cardiopulmonary resuscitation after volunteering for 240 hours. The time spent obtaining or renewing cardiopulmonary resuscitation training may be counted towards the required continuing education hours.

Substitutes and volunteers counted in staff-to-child ratios are not required to have CPR training until they have worked in a center for 240 hours.

All staff (employees) in regular contact with children in care are required to have CPR training. For example, if a cook, maintenance person or administrative assistant has regular contact with children, then that cook, maintenance person or administrative assistant would need CPR training. Regular contact means that the person comes into contact with children on a regular basis, even if that contact is in a classroom supervised by teaching staff. Student teachers and volunteers who are not counted in the staff-to-child ratios are not considered staff and do not need to have CPR training.

The Department of Health Services, Bureau of Emergency Medical Services (BEMS) approves agencies to offer the CPR with Automated External Defibrillator (AED) training as required by the statutes. A list of currently approved agencies is available on the BEMS website http://dhs.wisconsin.gov/ems/License_certification/CPR.htm. The training must result in a certificate of completion. If the certificate of completion does not have a date specifying the length of time for which it is valid, the CPR training must be renewed every year.

If the center does not serve infants, the CPR training can be child/adult CPR only.

(d) *Administrator.*

1. The licensee may act as administrator of a group child care center. If the licensee does not act as administrator, the licensee shall designate a person or persons to be the administrator or administrators of the center. The administrator shall be responsible for the center's management, including personnel, finance, physical plant and the day to day operation of the center.

251.05(1)(d)1. continued

One person could fill more than one position (such as administrator and center director) provided that person meets the qualifications for each position and all applicable rules.

If a center wishes to have two persons filling the position of administrator, each with training in only one component (business or Early Childhood), an exception may be considered based on their plan as to how they will make decisions. Job descriptions should reflect this situation.

The Child Care Information Center has resources available to assist in writing job descriptions <http://www.dpi.state.wi.us/ccic/> or toll free at (800) 362-7252.

2. An administrator shall:

- a. Be at least 21 years of age.
- b. Have completed high school or its equivalent as determined by the Wisconsin department of public instruction.

Equivalent to a high school diploma means General Education Diploma (GED) or High School Equivalency Diploma (HSED).

3. Before a person assumes the position of administrator, the person shall have both of the following:

- a. One year of experience as a manager or satisfactory completion of one credit or non-credit department-approved course in business or program administration.

A course from the Wisconsin Child Care Administrator Credential will meet this requirement.

- b. One year of experience as a center director or child care teacher in a licensed child care center or kindergarten or satisfactory completion of one non-credit department-approved course or one course for credit in early childhood education or its equivalent.

The non-credit, department-approved course called Introduction to the Child Care Profession will meet this requirement as will a broad-based course for credit such as child development or child psychology. The credit course must be broad-based, such as child development, child psychology.

4. If the board of a parent cooperative is responsible for management of a center, the requirements under subs. 2., and 3., do not apply.

5. Within one year of assuming the position, each administrator shall complete at least 10 hours of training in supervision or personnel management, if the administrator has not previously received that training. The training may be counted as part of the annual continuing education requirement.

The 10 hours may include the department-approved 10-hour Administrator's course or a combination of training opportunities such as conferences, workshops or correspondence courses.

(e) *Center director.*

1. The licensee may act as the center director. If the licensee does not act as center director, the licensee shall designate a person or persons to be the center director for each center location.

2. The center director shall be responsible for the supervision of the planning and implementation of the center's program for children, the supervision of staff at the center, staff meetings and orientation and continuing education for the staff.

3. A center director shall be employed on one of the following schedules:

Centers defined under DCF 251.03(22g) as offering a "part-day" program must have a person who meets the qualifications and fulfills the duties of a center director. All part-day programs remain part day even when operating full time during vacations. The center director in this case is not required to be on site for a set number of hours as indicated under a. and b. below.

 - d. Prior to beginning to work as a center director have completed at least one of the following training requirements:

The entry-level courses that meet the requirements for family child care providers and experience as a family child care provider may be counted when evaluating the entry-level education requirements for a director of a center serving 50 or less children.

“Full-time work experience” means working directly with children for 4 or more hours per day; “half-time work experience” means providing child care for at least 2 hours per day, but less than 4 hours.

- i. Two non-credit department-approved courses in early childhood education and within one year of assuming the position, one course in the Wisconsin Child Care Administrator Credential or its equivalent.

Introduction to the Child Care Profession and Skills and Strategies for the Child Care Teacher are the names of the two non-credit department-approved courses that may be used to meet this requirement.

Correspondence courses and on-line courses are available from technical colleges and private agencies approved to offer non-credit courses. See Appendix J Resource List for information on how to obtain a list of private agencies approved by the department to offer non-credit courses.

Any of the first 5 courses in the Wisconsin Child Care Administrator Credential may be used to meet the requirement for one additional course. See Appendix J Resource List for instructions on how to obtain information on the Wisconsin Child Care Administrator Credential. Child Care Administrator or Director Credentials that are credit based and issued by another state are considered equivalent to the Wisconsin credential. When one course is required, a course in program administration taken as part of an associate or bachelor degree in early childhood education may be taken in place of a course in the Wisconsin Child Care Administrator Credential. e. Complete at least 10 hours of training in supervision or personnel management within one year of assuming the position of center director, if the director has not previously received that training. The training may be counted as part of the annual continuing education requirement.

A person who holds a Department of Public Instruction (DPI) teaching license from Wisconsin or another state for Kindergarten and up or has a 4-year degree in education meets the early childhood education requirements as center director in a center licensed for 50 or fewer children.

Up to two courses in the Wisconsin Child Care Administrator may be used to meet the early childhood education requirement, if taken prior to beginning to work as a center director.

Introduction to the Child Care Profession and Skills and Strategies for the Child Care Teacher are the non-credit, department-approved courses that will meet the requirement for 2 of the 4 courses in this rule. Prior to January 1, 2009, there were 2 additional non-credit, department-approved courses called Center Administrator and Center Director that could be taken to meet the requirement for four non-credit, department-approved courses. The Center Director and Center Administrator courses, taken prior to January 1, 2009, may continue to be used to meet the requirement for four courses. However, after January 1, 2009, the non-credit Center Director and Center Administrator courses are no longer approved. In place of these courses, up to two courses in the Child Care Administrator Credential may be substituted.

Correspondence courses and on-line courses are available from technical colleges and private agencies approved to offer non-credit courses. See Appendix J Resource list for instructions on obtaining a list of private agencies approved by the department to offer non-credit courses and information on the Wisconsin Child Care Administrator Credential.

A person holding a teaching license from another state which indicates the person is qualified as a teacher for children from birth through age 8 is acceptable. No exception is necessary.

v. A certificate from The Registry indicating the person is on Registry Level 14 or above.

See Appendix J Resource List for instructions on how to obtain information on The Registry Levels.

Note: Information on how to obtain or renew a Wisconsin department of public instruction teacher license is available on the DPI website, <http://dpi.wi.gov/tepd/index.html>.

See Appendix J Resource List for instructions on how to obtain a list of private agencies approved by the department to offer non-credit courses.

The first course must be a broad-based course in early childhood education or child development. "Broad-based course" means an overview-type course such as the non-credit courses "Introduction to the Child Care Profession" or "Early Childhood I" or a credit course in child development, child psychology or covering early childhood education curriculum such as kindergarten or nursery school curriculum.

The second required course must be the non-credit "Skills and Strategies for the Child Care Teacher" or "Early Childhood II" or a course for credit. Courses for credit could include narrow-based early childhood such as "Health and Nutrition" or "Children's Literature."

251.05(1)(f)4.b.Note:

If program staff received training from a training organization approved by MACTE, this training would be acceptable.

A certificate of completion from the International Montessori Society for a correspondence course in Primary Level (2-6) will meet the education requirements for a child care teacher. The individual with such a certificate will still need to meet the experience component.

- i. A bachelor degree in education from an institution of higher education or a license from the Wisconsin department of public instruction to act as a teacher.

A person holding a paraprofessional or substitute teacher license issued by the department of public instruction does not automatically qualify the person as a teacher in a child care center. The person must be able to document that the entry level training requirements specified in this section are met.

A person holding a teaching license from another state which indicates the person is qualified as a teacher for children from birth through age 8 is acceptable. No exception is necessary.

Note: Information on how to obtain or renew a Wisconsin department of public instruction teacher license is available on the DPI website, <http://dpi.wi.gov/tepdll/index.html>.

It is recommended to check the T-Net website at <http://www.t-net.org/> for information related to scheduled entry-level training opportunities.

Evidence of completion or current enrollment in a child care course must be available within 6 months after assuming the position.

The 40 hour family child care course taken prior to September 1, 2003, may be accepted in place of the Introduction to the Child Care Profession course.

c. The person shall have satisfactorily completed an assistant child care teacher training program approved by the Wisconsin department of public instruction.

High school courses that meet the entry-level training requirements will result in a certificate issued by the Department of Public Instruction (DPI) – a grade report or high school transcript is not sufficient. A certificate will be issued when both grade and attendance meet the specifications designated by DPI. Licensing specialists will accept only the DPI certificate, not grade reports.

3. A parent serving as an assistant child care teacher in a center operated by a parent cooperative is exempt from the training requirements under subd. 2.

Parents serving as assistant child care teachers in centers other than parent co-op must meet the requirements under 251.05(1)(g).

(h) *Non-credit course criteria.* Non-credit courses offered to meet the non-credit course requirements specified in this subsection shall contain the components prescribed by the department and shall be approved by the department before being offered. The non-credit courses which have been approved by the department as meeting the entry-level training requirements include:

- *Introduction to the Child Care Profession (course for administrators, assistant teachers, substitutes, volunteer counted in staff-to-child ratios and the 1st broad-based course for teachers and center directors).*
- *Skills and Strategies for the Child Care Teacher (2nd course for teachers and directors in a center licensed for 50 or fewer children).*

- *Center Administrator (40 hours or more. Taken prior to January 1, 2009, may be used as one of the 4 courses required for a center director of a large child care center licensed to care for 51 or more children or as the one course in business required for a center administrator).*
- *10-hour Administrator course (meets the 10 hours of training in supervision or personnel management for administrators or center directors).*
- *Fundamentals of Infant and Toddler Care (persons working with children under age 2).*
- *10-hour School-age Assistant Child Care Worker (meets the requirements for an assistant teacher in a school-age only program).*

The 40-hour family child care course taken prior to Sept 1, 2003, may be accepted in lieu of the Introduction to the Child Care Profession course.

Non-credit, entry-level courses may be taken through private agencies approved by the department or through technical colleges. All non-credit, entry-level courses regardless of the sponsoring agency must have one of the above names in order to meet the requirements of the rule.

251.05(1)(h) continued

Beginning July 1, 2000, all persons completing a department-approved course offered by a private agency that is used to meet entry-level qualifications will be issued a certificate of completion from The Registry. This is the only documentation of successful course completion that will be accepted for department-approved courses offered by private agencies taken after July 1, 2000.

Successful completion of entry-level classes taken at technical schools will be documented on a transcript.

High school courses that meet the entry-level training requirements will result in a certificate issued by the Department of Public Instruction—a grade report or high school transcript is not sufficient. A person holding a DPI paraprofessional or teacher aide license will need to document that they have complete the appropriate entry level training.

See Appendix J Resource List for instructions on how to obtain a list of private agencies approved by the department to offer non-credit courses.

Note: Information on the components prescribed by the department may be obtained by contacting one of the regional licensing offices in Appendix A. A list of agencies approved to offer non-credit department-approved courses is available on the department’s website at <http://dcf.wisconsin.gov>.

(i) *Certificate.* Each administrator, center director and child care teacher shall obtain a certificate from The Registry (the Wisconsin early childhood professional recognition system) within 3 months after assuming the position. An administrator, a center director and teachers in a school-age only program shall obtain a certificate from The Registry within 6 months after assuming the position. Persons holding a teacher license issued by the department of public instruction are not required to obtain a Registry certificate.

Note: Information about how to obtain a certificate may be obtained from The Registry’s website, <http://www.the-registry.org/Application/Application.htm> or by calling 608-222-1123.

The certificate from the Registry does not need to be renewed in order to meet the licensing rule.

Prior to the receipt of the Registry Certificate, new employees must have evidence of qualifications on file. See DCF 251.04(5)(a)5. STAFF FILE – REGISTRY CERTIFICATE, EDUCATIONAL QUALIFICATIONS.

Students enrolled at a technical college, private college or university who work in a child care program operated by the college, private college or university have an additional 3 months to obtain a registry certificate.

(j) *Substitutes.*

1. When a regular required staff member is absent from a center, there shall be a substitute who is at least 18 years of age.

If someone is scheduled to work in a classroom on a regular basis, they must be qualified. If they are replacing a regularly-scheduled employee as a substitute, the center must be able to demonstrate who the regularly-scheduled person in that classroom is during those hours. If there is no regularly-scheduled person except the “substitute” then, by default, the “substitute” is the regularly-scheduled person and must meet the qualifications for that position.

Evidence that substitutes are available may be obtained by reviewing personnel records, including Background Information Disclosure forms, the caregiver background check reports, health examination forms, payroll or time cards or by observation.

2. A substitute who is employed by the same licensee for more than 240 hours shall obtain at least one non-credit, department approved course or be currently enrolled in training to meet this requirement before completing 240 hours of work as a substitute. A substitute who provides care and supervision to children under age 5 shall have completed department-approved training in shaken baby syndrome as specified under par. (b) before working with children.

3. The center director or designee shall maintain a record of the days and hours worked by each substitute child care worker.

(k) *Volunteers and student teachers.*

1. Volunteers and student teachers shall participate in the orientation required under sub. (2)(a).
2. A volunteer who is used to meet staff-to-child ratios shall obtain at least one non-credit, department-approved course or be currently enrolled in training to meet this requirement before completing 240 hours of work as a volunteer. A volunteer who provides care and supervision to children under age 5 shall have completed department-approved training in shaken baby syndrome as specified under par. (b) before working with children.

Note: *Introduction to the Child Care Profession* is the non-credit course approved by the department to meet this requirement.

3. A volunteer who is not used to meet staff to child ratios shall have training in child care programming and procedures before working with children. The training shall include the responsibilities of the volunteer, general child supervision techniques, a review of the daily schedule and general health and safety practices including meal or snack preparation, dishwashing, toileting, personal hygiene and emergency evacuation procedures. This includes volunteers working in a center operated by a parent cooperative.

The use of the Background Information Disclosure form is strongly recommended for volunteers who are not counted in staff-to-child ratios.

Volunteer Training Confirmation – Group Child Care Centers is not a required form; however, use of this form will help the licensee ensure compliance with this section. Documentation of training should be kept on file at the center.

4. The center director or designee shall coordinate the volunteer program and keep on file documentation of the hours worked by volunteers who are used to meet staff to child ratios.

5. Student teachers who are not employed by the child care center may not be used to meet the staff to child ratios during the time the person is working as a student teacher.

(L) *Health examination.*

1. Except as provided under subd. 2., persons who work directly with children, except volunteers, shall have a health examination within 12 months before beginning work at a specific child care center or within 30 days after beginning work at the center. The results of the examination shall be stated on a form provided by the department. The report shall be dated and signed by a licensed physician, physician assistant or HealthCheck provider. The report shall indicate all of the following:

HealthCheck Provider means:

1. *Physicians.*
2. *Outpatient hospital facilities.*
3. *Health maintenance organizations.*
4. *Visiting nurse associations.*
5. *Clinics operated under a physician's supervision.*
6. *Local public health agencies.*
7. *Home health agencies.*
8. *Rural health clinics.*
9. *Indian health agencies.*
10. *Neighborhood health centers.*
11. *Doctor of osteopathy, M.D., D.O., P.A.*

Chiropractors are not authorized to give physical examinations.

See DCF 251.07(6)(k)3. HEALTH EXAMINATION – DOCUMENTATION.

- a. That the person is free from illness detrimental to children, including tuberculosis.

Per Division of Health, there are 2 different types of TB testing that will meet this requirement—Mantoux Skin test and Quantiferon Gold Blood Assay test. If either test indicates previous exposure to tuberculosis, an evaluation by a physician should be done rather than a chest x-ray. This evaluation must conclude that the person does not have active TB in order for the person to continue employment.

251.05(1)(L)1.b.

b. That the person is physically able to work with young children.

Note: The department's form, Staff Health Report — Child Care Provider, is used for recording physical examination information. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

2. The health examination requirement under subd. 1. does not apply to a person who requests an exemption from the department in writing. The exemption is granted based on adherence to religious belief in exclusive use of prayer or spiritual means for healing in accordance with a bona fide religious sect or denomination.

According to the Christian Science Committee on Publications for Wisconsin, the Christian Science faith is the only religion that qualifies under this exemption. Evidence of exemption is presented through a Christian Science form entitled Application for Exemption from Physical Examinations and Immunization.

3. No licensee, employee, volunteer, visitor or parent with symptoms of serious illness or a communicable disease transmitted through normal contact reportable under ch. DHS 145 which presents a safety or health risk to children may be in contact with the children in care.

4.a. No licensee, employee, volunteer, visitor or parent whose behavior gives reasonable concern for the safety of children may be in contact with the children in care.

b. The department may require a licensee, employee or other person in contact with the children whose behavior gives reasonable concern for the safety of children to submit to an examination by a licensed mental health professional as a condition of licensure or employment.

Note: See also DCF 251.11(1)(f) which requires a written statement from a physician or licensed mental health professional when there is reason to believe that the physical or mental health of a person may endanger children in care.

5. No person with a health history of typhoid, paratyphoid, dysentery or other diarrheal disease may work in a center until it is determined by appropriate tests that the person is not a carrier of the disease.

(2) STAFF DEVELOPMENT.

(a) *Orientation.* Except as provided under subd. 12., each center shall develop and implement a written orientation program which all new employees, substitutes and regularly scheduled volunteers shall complete and document within their first week at the center. The orientation program shall cover all of the following:

See DCF 251.04(5)(a)6. STAFF FILE – ORIENTATION & CONTINUING EDUCATION. Completion must be documented through the use of an orientation form which is initialed and dated by the staff person and trainer. The department's form Staff Orientation Checklist – Group Child Care Centers is recommended, but is not required.

1. Review of this chapter.
2. Review of center policies required under s. DCF 251.04(2)(h) and (i).
3. Review of the center contingency plans required under s. DCF 251.04(2)(i), including fire and tornado evacuation plans and the operation of fire extinguishers.
4. First aid procedures.

Procedures that should be addressed include:

- *Emergency procedures followed in bringing a child to emergency medical care.*
- *Routine procedures for treatment of minor injuries.*
- *First aid measures for serious accidents.*
- *Planned source of emergency medical care (summary of several rules).*

Training in first aid procedures does not mean a formal first aid course is required. The First Aid Chart prepared by the Committee on Accident Prevention and the Subcommittee on Accidental Poisoning, American Academy of Pediatrics is recommended as an appropriate training tool. Contact the American Academy of Pediatrics at (888)227-1770 or www.aap.org/bookstore.

5. Job responsibilities in relation to the job description.
6. Training in the recognition of childhood illnesses and infectious disease control, including handwashing procedures and universal precautions for handling body fluids.

Note: A copy of the universal precautions may be obtained from the Child Care Information Center by calling 800-362-7353.

7. Schedule of activities of the center.
8. Review of child abuse and neglect laws and center reporting procedures.
9. The procedure for ensuring that all child care workers know the children assigned to their care and their whereabouts at all times including during center-provided transportation.

Procedure should include how center will ensure that all children have exited the vehicle into the physical care of a staff person or another responsible person (e.g., physical walk through of the vehicle, alarms at the rear of the vehicle that require a person to walk to the back to manually shut off alarm, check off list of children who are on the vehicle and who have left the vehicle and been delivered to a caregiver); and should be followed whenever children are being transported either in center-owned vehicles or center-contracted transportation.

10. Child management techniques.
11. Procedure for sharing information related to a child's special health care needs including any physical, emotional, social or cognitive disabilities with any child care worker who may be assigned to care for that child throughout the day.
12. Review of procedures to reduce the risk of sudden infant death syndrome prior to an employee's or volunteer's first day of work, if the center is licensed to care for children under one year of age.
13. The procedure to contact a parent if a child is absent from the center without prior notification from the parent.

The procedure to contact a parent when a child is absent without prior notification must include how and when parents will be notified; and should include how long after a child's normal or scheduled starting time the notification will be attempted (e.g., a child is scheduled to arrive at 7:30 a.m., center waits until 9 a.m. to notify parent if the child did not arrive). The procedure does not require that the center talk with or track down a parent to notify. Messages can be left on an answering machine or voice mail or with an emergency contact person. We recommend that the center document attempts to notify a parent.

If center provides transportation services from home to center, procedure should address how the center is to be notified that a child is not attending that day (e.g., sign in the window of the home that child is not attending, prior notification to the center that child not attending, a second adult on the vehicle walks to the door to pick up the child, told at the door that child is not attending, etc.).

14. Information on any special needs a child enrolled in the center may have and the plan for how those needs will be met.

Note: The licensee may use the department's form, Staff Orientation Checklist — Group Child Care Centers, for documenting staff orientation. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

(b) *Staff meetings.* To ensure that staff have the opportunity to receive pertinent information and clarification of problems and issues, each center shall conduct staff meetings at least 9 times in a calendar year or one time for each month of center operation and document that staff meetings have been held.

Centers that operate for 10-12 months shall conduct staff meetings a minimum of 9 times in a calendar year. Centers that operate for 9 months or less shall conduct a staff meeting for each month of operation.

Staff meeting dates shall be available to the licensing specialist.

Only that portion of a staff meeting related to training of child care staff may be counted as continuing education. Center business topics do not count towards continuing education hours.

251.05(2)(c)*(c) Continuing education.*

There is no formal approval process for continuing education. If the licensing specialist has a question about the appropriateness of a continuing education experience, the decision on whether to count that experience should be based on the individual's response to the question, "How does this continuing education experience/course apply to your position?" Continuing education that relates to another position with the center (such as a director's responsibilities) may be counted as continuing education even if it does not directly relate to the care of children. Continuing education experiences that help qualify a child care worker for another position in a center may be counted as part of the required continuing education until that person assumes the new position (e.g., a child care teacher could take the courses for center director and count those courses toward continuing education while remaining a teacher in the center). Once the person assumes a director position, those courses would count toward meeting the entry-level qualifications as a center director.

1. Each administrator, center director and child care worker who works more than 20 hours a week shall participate in at least 25 hours of continuing education each year.

Whether centers choose to use a continuing education year individual to each staff (e.g., 1 year from date of hire) or they choose to use a common continuing education year (e.g., the fiscal year or the calendar year), it is recommended that the same type of continuing education year be used consistently for all staff.

2. Each administrator, center director and child care worker who works 20 or fewer hours a week shall participate in at least 15 hours of continuing education each year.

In determining the number of hours an employee works, all paid hours should be used.

3. Continuing education hours may be used to meet the continuing education requirement during the year in which the hours are earned and for the 2 years following that year.

4. Continuing education courses taken for credit through an institution of higher education may be used to meet the continuing education requirement during the year the credits were earned and for the following 2 years.

See Appendix J Resource List for instructions on obtaining credit-to-hours conversion information.

5. Assistant child care teachers who are currently enrolled in their first entry level course are not required to earn continuing education hours for that calendar year.

7. Types of training acceptable to meet continuing education requirements shall be limited to:
- a. Formal courses resulting in credits or continuing education units.

See Appendix J Resource List for instructions on obtaining credit-to-hours conversion information.

- b. Workshops, conferences, seminars, lectures, correspondence courses and home study courses.
- c. Training offered by the child care center through the use of guest or staff trainers.
- d. Documented observation time in other early childhood programs.

8. Continuing education experiences may be in the areas of early childhood education, child development, child guidance, health, caring for children with special needs, first aid, nutrition as it pertains to child development, supervision of staff or the business or administrative aspects of the operation of a child care center or in communication skills.

9. Independent reading and watching of educational materials may be counted for up to 5 hours of continuing education per year for each person required under par. (c)1. to have 25 hours of continuing education, and up to 2.5 hours of continuing education per year for each person required under par. (c)2. to have 15 hours of continuing education.

Book reports, magazine article reviews and reviews of video tapes pertaining to child care issues independently completed by staff may be substituted for up to 5 hours of the 25-hour requirement for full-time staff and 2.5 hours for part-time staff.

A report on the video, book, etc., that includes at least the information requested on the form, Continuing Education Record – Independent Reading/Video Viewing, must be completed and placed in the employee file. While not required, this form may be used to document independent reading and watching of educational materials.

Time spent doing research in the Child Development Associate (CDA) process can be counted as a part of these allowed hours. Time spent putting together the portfolio in the CDA process does not count toward continuing education.

A staff trainer is one who has received training or who has developed expertise in a special area and who shares that expertise with other staff through a formal presentation. A staff trainer may not count the time spent providing a presentation towards the continuing education requirement, but the time spent gathering information for use during the presentation may be counted.

Note: The licensee may use either the department’s form, Staff Continuing Education Record — Child Care Centers, or the licensee’s own form to document the completion of continuing education. Information on how to obtain the department’s form is available on the department’s website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

(d) *Food service personnel orientation and training.* The center shall provide food service personnel with the orientation under par. (a) and shall document annual training of at least 4 hours in kitchen sanitation, food handling and nutrition.

Wisconsin Technical College System offers food handler courses although the rule does not require a formal course. The USDA, Child Adult Care Food Program offers frequent training to centers who are receiving USDA Child/Adult Care Food Program funding.

(3) SUPERVISION.

(a) At least one child care teacher shall supervise each group of children.

This rule must be used in relation to the definition of group. When only one child care worker is required for the number of children in care, that person must meet the qualifications of a child care teacher. When staff-to-child ratios require a second child care worker with a group, that person must meet at least the qualifications of an assistant child care teacher except in parent co-ops (see DCF 251.05(1)(g)3.).

An assistant child care teacher may remove part of the group for individualized activities while working under the supervision of the child care teacher.

(b) Assistant child care teachers who are at least 18 years of age and have completed the training required for the position may provide sole supervision to a group of children in full-day centers for opening and closing hours, not to exceed the first 2 hours and the last 2 hours of center operation.

(c) Each child shall be closely supervised by a child care worker who is within the sight and sound of the children to guide the children’s behavior and activities, prevent harm and assure safety.

See DCF 251.03(30) definition of “Supervision of children” and 251.05(4)(e)1. NAPTIME – STAFF-TO-CHILD RATIO SUPERVISION.

Video cameras may not be used in lieu of staff to supervise children.

(d) A child care worker may not provide care to children at the center more than 10 hours in any 24-hour period.

(e) A child may not be in care more than 12 hours in any 24-hour period.

An exception may be granted to a child care center for a child or children to be in care for more than 12 hours in a 24-hour period if a local business or corporation operates a 12-hour work shift for their employees or if the Department determines that granting an exception would support the circumstances and the family. The exception does not need to be individual to each child if the exception is granted in relation to employees of a specific business. A written parental request for care in excess of 12 hours must be on file at the center.

251.05(3)(f)

(f) The center shall implement a procedure to ensure that the number, names and whereabouts of children in care are known to assigned child care workers at all times.

At any time throughout the day (hours of operation), each classroom staff must have a written or documented system to determine how many children are present and the names of the children that are present.

See DCF 251.04(3)(i) REPORT – LOST OR MISSING CHILD.

(g) A child may not be released to any person who has not been previously authorized by the parent.

The center may accept email, fax or telephone call. The Department recommends documentation of the telephone call and that identification of the person picking up a child was checked.

(h) The center shall implement a procedure to contact a parent if a child is absent from the center without prior notification from the parent.

(i) No child shall be left in sole charge of a person under the age of 18.

(4) STAFFING AND GROUPING.

(a) The maximum number of children in a group may not exceed the number specified in Table 251.05-D.

(b) The ratio of child care workers to children may not be less than the minimum number of child care workers to children specified in Table 251.05-D.

**TABLE DCF 251.05-D
Maximum Group Size and Minimum Number of
Child Care Workers in Group Child Care Centers**

| Age of Children | Minimum Number of Child Care Workers to Children | Maximum Number of Children in a Group |
|------------------------|---|--|
| Birth to 2 Years | 1:4 | 8 |
| 2 years to 2½ Years | 1:6 | 12 |
| 2½ Years to 3 Years | 1:8 | 16 |
| 3 Years to 4 Years | 1:10 | 20 |
| 4 Years to 5 Years | 1:13 | 24 |
| 5 Years to 6 Years | 1:17 | 34 |
| 6 Years and Over | 1:18 | 36 |

(c) When 8 or fewer children are present in a center, there shall be a second adult available within 5 minutes for emergencies. The center shall maintain a signed and dated statement from that person, including address and telephone number, certifying that the person is available and agrees to serve if needed.

Current availability should be updated periodically to confirm the person's continuing availability. The address should be evaluated in terms of distance and length of time which would be required to reach center in an emergency. Staff members must be informed about and have access to current contact information for the emergency contact person. Telephone confirmation with the second adult may be utilized as a compliance check.

(d) Maximum group size does not apply to field trips, outdoor play areas and areas of the center reserved exclusively for eating, however staff-to-child ratios shall be maintained in those settings.

This rule applies to all age groups, including infants and toddlers.

An area of the center that is used for other purposes (i.e. a classroom or large motor room) throughout the day may be reserved exclusively for eating at designated times. Maximum group size does not apply when the room is used for eating.

(e) During naptime, an adjustment in group size and staff-to-child ratios in Table 251.05-D may be made as follows:

1. One child care worker shall be within sight or sound of each group of sleeping children. If at least one child is awake, sight and sound supervision of awake children is required.

Electronic listening devices may be allowed for supervising sleeping children under 2 years of age who sleep in cribs. Consideration should be given to the quality of the device, proximity/accessibility of staff and noise levels in other areas that may interfere with staff's ability to hear. Video cameras are not allowed in place of staff supervision.

2. Adult-to-child ratios shall be maintained in the center during naptime.

Support staff such as cooks, clerical staff, custodians or the center director may be counted in the adult-to-child ratios during naptime providing the staff person is aware that they may be called upon, has been oriented to his/her responsibilities and agrees to be available during that time. A support staff used to maintain ratios during naptime may be counted for one position at a time. Verification of a person's awareness that the center is using that person to count in the staff-to-child ratio during naptime may be made through interview or written documentation.

As children awaken from nap, child care workers must provide close supervision to the awake children and maximum group size and staff-to-child ratios must be met at all times. For example, when infants and toddlers are sleeping, 2 qualified staff persons must supervise the group of children as soon as the 5th child awakens.

See DCF 251.03(30) for the definition of "Supervision of children."

3. Maximum group size requirements do not apply to napping groups.

When a center has a separate nap room for infants and toddlers, maximum group size does not apply and one child care worker must be within sight or sound. See DCF 251.05(4)(e)1. NAPTIME – STAFF-TO-CHILD RATIO SUPERVISION.

(f) When there is a mixed-age group, the staff-to-child ratio shall be adjusted on a prorata basis, according to age.

Note: The licensee may use the department's form, Child Care Staff-To-Child Ratio Worksheet — Group Child Care Centers, to adjust the staff-to-child ratio. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

See Appendix H Child Care Staff-to-Child Ratio Worksheet.

When using the Child Care Staff-to-Child Ratio Worksheet (found in Appendix H or on the department's website <http://dcf.wisconsin.gov>), any total numerical weight below .05 is considered statistically insignificant and should be dropped. If the total numerical weight is 1.05 or above, two staff persons are required. If the total numerical weight is 1.04, drop the .04 and only 1 staff member is required.

(g) When infants and toddlers are part of a mixed-age group, the size of the group may not exceed 8.

Children turning age 2 may transition into an older age group as long as the new group size does not exceed 8 children and the child's second birthday is no more than 2 weeks prior to the transition date. Transition of a child to a new age group needs to be planned, and discussed with parents prior to the transition.

251.05(4)(h)

(h) When the group of children is a mixed age group of children 2 years and older, the group size shall be determined by the number of children that can be cared for by 2 child care workers as determined by the staff-to-child prorata requirement under par. (f).

Where nine or more children are present in a center, but a second worker is not required by the staff-to-child ratio, a second adult must be available in the building, such as secretary, minister, cook, etc. The second adult should be aware that they may be asked for assistance in the case of an emergency.

(i) In a center with 9 or more children present, there shall be at least 2 adults available in the center at all times. At least one of the adults shall be a child care worker directly involved in the supervision and care of the children.

(j) When 9 or more children are on a field trip there shall be at least 2 child care workers accompanying the children and the staff-to-child ratios in Table DCF 251.05-D shall be maintained. At least one of the child care workers shall be a child care teacher.

(k) Support staff, such as clerical, housekeeping and food service staff, may only be considered in determining the staff-to-child ratios:

1. During those hours when they give full attention to the care and supervision of children.
2. If they meet the qualifications for a child care worker.

(L) Child care workers shall be free of non-classroom duties when they are counted in meeting the staff-to-child ratios.

Classroom duties could include routine daily housekeeping in the classroom such as dusting, floor sweeping, table/chair washing, straightening the room, putting out bag lunches with milk, preparing snack in the room, etc., if these are part of the job responsibility prescribed by the center.

In centers where space used by children is used for other purposes after the hours of operation, prohibited non-classroom duties include moving furnishings and equipment into storage before children have departed.

If support staff are used as child care workers, the schedule of differing job responsibilities in relation to staff-to-child ratios must be determined. An example may be a child care worker who prepares a snack or meal which requires no more than 10 minutes time and who is immediately accessible in case of emergency is still considered to be a child care worker while performing these tasks. If food preparation takes more than 10 minutes and/or removes the child care worker from immediate availability, the child care worker is considered to be support staff for that time period and does not count in determining staff-to-child ratios.

(m) Children of staff who attend the center and who are on the premises for supervision and care shall be included in determining group size and staff-to-child ratios.

DCF 251.06 Physical plant and equipment.**(1) BUILDING.**

(a) The building in which a center is located shall comply with applicable state and local building codes. The licensee shall maintain a report of inspection of the building, which specifies that the building meets the applicable Wisconsin commercial building codes for use as a group child care center.

Note: Inspections can be obtained from a commercial building inspector certified by the Department of Commerce in accordance with ch. Comm 5, "Licenses, Certifications, and Registration," or a Wisconsin architect registered in accordance with chapter A-E 3, Architect Registration, or a Wisconsin engineer registered in accordance with chapter A-E 4, Professional Engineer Registration.

Note: Local authorities should be consulted to obtain any required zoning clearances or building permits.

BUILDING INSPECTIONS: A license may not be issued until the building is in compliance with all applicable commercial building codes as evidenced by a copy of the Building Inspection Report – Child Care Centers form or a letter from a registered architect or engineer or from a commercial building inspector certified by the Department of Commerce. The Building Inspection Report or letter must indicate that all applicable commercial building codes have been met. If any codes listed are designated "not met," all necessary modifications must be completed before the license is issued. The correct Occupancy category (usually Group E or Group I-4) must be identified on the inspection report. Arrangements for inspections and reports are the responsibility of the applicant/licensee.

The applicant should contact the Wisconsin Department of Commerce (DOC) to determine if plan submittal is necessary prior to requesting an inspection or engaging in any building renovations. Contact the DOC Plan Review office at www.commerce.state.wi.us/SB/SB-DivPlanReview.html or (608) 266-1018.

In order to have a building inspected to determine if any modifications are necessary to meet the applicable building codes (there may be a fee involved in obtaining an inspection), the applicant or licensee should contact one of the following:

- 1. Certified building inspectors from a city certified by the state to do commercial building inspections (contact your local city building inspection unit to see if the city inspector is certified to do inspections for commercial buildings).*
- 2. A Wisconsin registered architect or engineer (registered in accordance with Wisconsin Administrative rules A-E for Architects and A-E 4 for Engineers).*
- 3. A commercial building inspector certified by the Department of Commerce in accordance with Comm 5, Credentialing Code, to do commercial building inspections. Individuals falling into this category might be self-employed, employed by a municipality that is not on the list of certified cities or employed by a private independent inspection firm. See "Building Inspection Services" in most telephone directory yellow pages.*

The person requesting an inspection should ask for assistance in determining whether any modifications are necessary to ensure that the building meets the applicable commercial building codes. Group child care centers will typically need to meet the "I-4" building codes. Under certain circumstances, a building may meet the "E" codes.

A building inspection is not required for 4 year olds where served in a school that also has a 4 year old kindergarten

ISSUING A NEW LICENSE FOR A BUILDING THAT WAS PREVIOUSLY LICENSED AS A CHILD CARE CENTER: If a building was previously licensed as a child care center (and not renovated or used for another purpose in between occupancies by a licensed child care center) a copy of the most recent fire inspection report by the local fire Department is all that is required to show proof that the building is in compliance with the applicable building codes. Fire departments generally conduct fire prevention inspections at least once in each non-overlapping 6-month period per calendar year.

CHANGE OF USE: A change of use in a building may require that modifications be made depending on the type of change that will occur. The chapter of the Commercial Building Codes that may provide guidance on change of use situations can be found in the International Existing Building Code (IEBC) with the Department of Commerce.

251.06(1)(a)Note: continued

Some situations such as those listed below might require the building owner to consult with an architect or engineer to determine whether any modifications are necessary.

- 1. Program not previously licensed to care for children under age 2 ½ would like to modify their license to care for infants and toddlers.*
- 2. Program proposes to expand or move into a previously unused part of a building. The part of the building that will be newly designated for child care center use must be inspected for compliance with the current applicable Commercial Building Codes and this rule.*
- 3. Program intends to remodel existing child care space and the remodeling will affect structural strength, fire hazard, internal circulation or exits of existing building or structure, electrical systems or plumbing additions.*

If a building has a change of use (depending on the size of the building, building), plans may need to be submitted to the Department of Commerce Plan Approval section prior to the modifications being made. Only plans affecting those areas being altered must be submitted for a plan review.

The installation of a wood burning stove, carpeting or other materials into an existing child care center must be done in conformance with the building code requirements.

Amendments to the license may not be issued until compliance with the Commercial Building Codes is verified by documentation from a municipality (an occupancy permit) or an architect, engineer or Dept. of Commerce certified commercial building inspector.

FOR CONSTRUCTION OF NEW BUILDINGS TO BE USED AS CHILD CARE CENTERS, THE FOLLOWING PROCEDURES APPLY: A plans approval application (SB-1 & 8) with instructions for plans approval must be obtained from and submitted to a Department of Commerce plan reviewer with appropriate fees. Certified cities are authorized by COMM to do plans approval for buildings containing 50,000 cubic feet total volume and alterations to buildings containing less than 100,000 cubic feet total volume. See the Department of Commerce website for information about plan reviews <http://www.commerce.state.wi.us/SB/SB-DivPlanReview.html>.

The City of Milwaukee is certified for examination and approval of all buildings and structures regardless of size, with the exception of State-owned buildings.

In some communities an occupancy permit demonstrating compliance with building and zoning codes may be required.

(b) The department shall be given written notice of proposed construction, remodeling of existing space or change in rooms to be used by children prior to the initiation of the changes.

Note: Alterations, additions or changes of use to commercial buildings may require submittal of plans to and approval by the Department of Commerce or its agent before commencing construction. It is recommended that an architect or engineer be consulted prior to the beginning of any construction to determine whether plans must be submitted. When a center chooses to prepare meals on the premises after the initial building inspection has been completed, a new inspection may be necessary to ensure that the applicable commercial building codes related to kitchens have been met.

(c) Space designated for use by children may only be used by children and staff and may not be used for other purposes while the center is open.

SOLE-USE SPACE: The rule is intended to cover a wide variety of situations such as, but not limited to:

- 1. Space used by children may not be used as access for other places of business or other programs like organizations that may use the same building when the children are present.*
- 2. Parking lots used as outdoor play space may not be used as parking lots with moving vehicles while children are using the space.*
- 3. Space allocated as self-contained classrooms or areas may not be used for meetings or other purposes by outside groups during hours of operation.*
- 4. Bathrooms allocated for children's use during hours of operation may be used by children including school children and center personnel only.*

(d) The inside temperature may not be less than 67°F.

A minimum temperature of 67° Fahrenheit is determined by a thermostat reading. In rooms without thermostats, 67° Fahrenheit is determined as follows:

1. *Room without windows: Temperature taken in center of a room.*
2. *Room with windows: Temperature taken one foot away from windows and at the center of the room and then averaged.*
3. *Series of rooms with only one thermostat: The coldest room must comply with the 67° F minimum. Temperatures are to be measured at 24" above the floor level.*
4. *Infant and Toddler Rooms: Measure 6 inches above the floor.*

(e) If the inside temperature exceeds 80°F., the licensee shall provide for air circulation with fans or by other means.

Examples of "other means" are air conditioning, fans or other mechanical means.

(2) PROTECTIVE MEASURES.

(a) The indoor and outdoor premises shall be free of hazards including any recalled products.

POISONOUS PLANTS: See Appendix J Resource List for instructions on obtaining a brochure from the UW Hospital Poison Control Center that can be used to help determine which common plants are poisonous. The Poison Control Center's 24-hour emergency phone number is 1-800-222-1222.

RADON: Radon testing is not required.

Note: Lists of recalled products are available on the department of agriculture, trade and consumer protection website at <http://datcp.state.wi.us/core/consumerprotection/consumerprotection.jsp> or by contacting the United States consumer products safety commission (US CPSC) at 1-800-638-2772.

(b) Steam radiators, fireplaces, wood burning stoves, electric fans, electric outlets, electrical heating units and hot surfaces, such as pipes, shall be protected by screens or guards so that children cannot touch them.

(c) Firearms, ammunition and other potentially dangerous items may not be kept on the premises.

When group child care for 9 or more children occurs in a residence, an exception may be granted for the storage of guns / rifles and ammunition belonging to the home / residents when alternative protections are provided—e.g., locked storage or area totally inaccessible to children at all times.

(d) Materials harmful to children, including power tools, flammable or combustible materials, insecticides, matches, drugs and other articles hazardous or poisonous to children shall be in properly marked containers and stored in areas inaccessible to children.

(e) A motor vehicle shall be immediately available at the center at all times in case of an emergency if a public or private rescue or emergency vehicle cannot arrive at the center within 10 minutes of a phone call.

(f) The center shall have a working telephone or access to a working telephone on the premises during hours of operation, with a list of emergency telephone numbers, including telephone numbers for the local rescue squad, fire department, police department or other law enforcement agency, poison control center and emergency medical service posted near each telephone. In this paragraph, "telephone" does not include a pay telephone requiring payment to reach the operator or a telephone in a locked room.

If a center is located in a community with 911 services, the only phone numbers required to be posted are 911 and poison control. The street address for the center should be posted near the telephone, and it is recommended that the phone number for the local child protective services agency be listed near the phone as well. The statewide toll-free number for poison control is 1-800-222-1222.

A working telephone is defined as a phone that is capable of making and receiving phone calls. Cell phones and cordless phones may be used as the only phone in a center if the phone is charged and there are no dead spots in the center that would prohibit calls from being received or made.

251.06(2)(f) continued

If a cell phone or cordless phone is used as the only working phone in a center, the emergency numbers need to be conspicuously posted in an readily visible area and on the phone back. Cell phones must remain at the center when children are present at the center. When all the children are on a field trip, the cell phone may be taken on the field trip.

Centers are not required to answer phone calls received during child care hours, but they must specify the procedure for receiving information from parents if they use an answering machine or voice mail service.

(g) Stairs, walks, ramps and porches shall be maintained in a safe condition and free from the accumulation of water, ice or snow.

(h) Smoking is prohibited on the premises of the center when the children are present.

Note: See s. DCF 251.03(25) for the definition of premises.

If a child care center is located in a building with other occupants, the other occupants or other persons may not smoke in rooms or areas identified as the premises of the child care center.

If certain halls or passageways are used in common with other occupants of the building, smoking may not occur in these common use areas.

See DCF 251.08(2)(c) SMOKING IN VEHICLE.

(i) A licensee, employee, volunteer or other individual in contact with children may not consume alcoholic beverages or any non-prescribed controlled substance specified in ch. 961, Stats., on the premises of the center or be under the influence of any alcohol or non-prescribed controlled substance, during the hours of the center's operation.

CONTROLLED SUBSTANCES: 961.01(4), Wis. Stats., defines "controlled substance" as a drug, substance or immediate precursor in schedules I through V of Subchapter II. Broadly, this covers marijuana, narcotic drugs, opium and opiates, opium poppy and poppy straw. For definitions of terms and a list of pharmaceuticals which are specifically controlled, see Chapter 961, Wis. Stats.

(j) Children may not be allowed in an area where power tools are in use.

(k) A hot tub located in a room or area accessible to children shall have a visible, locked, rigid cover or be enclosed by a locked fence at least 4 feet tall. The lock shall be installed so that the lock is inaccessible to children.

(L) If a hot tub is located in a room or area not intended for use by children, access to the room or area shall be controlled through the use of a visibly locked door. The lock shall be installed so that the lock is inaccessible to children.

(3) EMERGENCIES. Each center shall have a written plan for responding to a fire, a tornado, a tornado warning, a missing child or other emergency. A center shall do all of the following:

The center emergency plan should address all the emergencies identified in DCF 251.03(10m) that might occur at the center (e.g., if the center is not located in an area that is subject to floods, the emergency plan does not need to address floods). The plan should include staff member duties and responsibilities; addresses exiting on all levels used by children in care; and identify items that are recommended to be with the staff—such as attendance list, emergency cards, flashlight, battery-operated radio or cell phone. The plan should also address providing for the evacuation of children with special needs who may require additional assistance during an evacuation and an off-site evacuation and relocation site including a plan for family notification and reunification of children with their parents. Information on developing emergency plans can be obtained from local fire Departments, local emergency management or the Child Care Information Center at <http://www.dpi.state.wi.us/ccic/> or 1-800-362-7353.

Use of a one-exit basement as an emergency shelter during tornadoes and similar emergencies is allowed. Use of a one-exit level is prohibited for any other purpose

Licensing staff may ask centers to conduct a fire or tornado drill during a site visit. Fire departments are required under section COMM 14.01(11)(b)3. to conduct inspections "at least once in each non-overlapping 6-month period per calendar year" unless a different frequency is established in a first class city, or by a local ordinance, or by a department special order.

(a) Post the fire evacuation and tornado plan and practice implementing the fire evacuation plan monthly. Tornado drills shall be conducted monthly from April through October.

The evacuation diagrams (fire and tornado) shall be posted in every room near the exit door.

Evacuation drills must be practiced using the appropriate warning device—i.e., local alarm or interconnected or battery-operated smoke detectors. If a building has a fire protection system (sprinklers) that does not have an audible signaling device, the use of a battery-operated smoke detector must be used. Other types of manual signaling devices may not be used since children must become accustomed to responding to the sound that would be triggered in a real emergency. The tornado evacuation area should be accessible and free of hazards during tornado season.

Children are not required to exit the building completely during a fire drill in inclement weather; however they should be directed to proceed to the nearest exit and staff should review with the children how an actual fire would affect the program.

Tornadoes can occur at any time of year, but peak months in Wisconsin are during the summer. The National Weather Service continuously broadcasts updated weather warnings and forecasts that can be received by NOAA Weather Radios. Television and radio are also excellent sources of warning information. Contact local fire department or emergency government to determine the safest place in the building. Source: Division of Emergency Management 1- 800-943-0003.

(b) Make sure that all staff members know what their duties are if there is a fire, tornado, tornado warning, missing child or other emergency.

Staff responsibilities during fire, tornado and other emergencies should be defined in the contingency plans required under DCF 251.04(2)(i)6. Licensing specialists may verify that staff know what their duties are in a fire, tornado or other emergency by reviewing the orientation checklist, interviews with staff or having the center conduct a drill while the licensing specialist is present.

(c) Keep a written record of dates and times of all fire and tornado drills practiced.

The written record must contain the time of day and length of the time the drill took to complete.

Note: The licensee may use the department's form, Fire, Safety and Emergency Response Documentation — Group Child Care Centers, to record dates and times of the monthly fire or tornado practice. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

RECOMMENDED EVACUATION PRACTICES: *Children shall not take the time to put on their coats before evacuating a building. During winter or inclement weather, evacuation drills may stop at the outside exit door of the building so that children are not exposed to inclement temperatures. The recommended goal for exiting time is less than 2 minutes.*

Both fire and tornado evacuations should be practiced on a varied schedule developed by the center. See DCF 251.10(4)(c) NIGHT CARE – FIRE EVACUATION DRILLS.

(4) FIRE PROTECTION.

Fire departments are required under section COMM 14.01(11)(b)3. to conduct inspections "at least once in each non-overlapping 6-month period per calendar year" unless a different frequency is established in a first class city, or by a local ordinance, or by a Department special order.

(a) Each fire extinguisher on the premises of a center shall be operable at all times, inspected once a year by a qualified person and bear a label indicating its present condition and date of the last inspection.

For questions regarding the type and numbers of fire extinguishers, the center may consult the local fire Department. It is the responsibility of the licensee to ensure that the extinguishers are inspected by a commercial fire safety company or fire department and appropriately tagged.

251.06(4)(b)

(b) All staff members shall be instructed in and knowledgeable about the use of the fire extinguishers.

Priority should be given to immediate evacuation of children. Get out and stay out.

(c) Each floor used by children shall have at least 2 exits.

(d) Exits and exit passageways shall have a minimum clear width of 3 feet and be unobstructed by furniture or other objects.

(e) An extension cord may not be used permanently with an appliance.

“Extension cord” means a cord set consisting of a length of flexible cord with an attachment plug at one end and a cord connector, which permits the connection of one or more attachment plugs, at the other end. Extension cords shall only be permitted for temporary use with portable appliances, hand tools or fixtures; shall be of a 3-wire grounding type when used in conjunction with devices equipped with 3-prong grounding-type attachment plugs; and shall serve only one portable appliance, hand tool or fixture.

“Re-locatable power taps” (e.g., surge protectors, circuit breaker bars) means a cord set consisting of an attachment plug and a length of flexible cord terminating in an enclosure in which are mounted one or more receptacles with supplementary over-current protection, switches, indicator lights, transient voltage surge suppressors, or electromagnetic interference filters. Re-locatable power taps may be used, but they are permitted only with portable electronic equipment such as audio-visual equipment, computers and peripheral equipment.

Extension cords and re-locatable power taps must be listed by UL or another approved nationally recognized testing agency; shall be protected from physical impact and environmental damage; may not be multiplied or plugged into one another; and may not be attached to structures or placed under doors or floor coverings.

(f) No more than 2 electrical appliances may be plugged into any one wall outlet.

See par. (e) above regarding circuit breaker bars and surge protector power strips.

(g) The door to the basement and furnace room shall be closed.

(h) Areas under stairs may not be used for storage.

Metal objects such as chairs and certain toys may be stored under stairs. Combustible materials such as paper, cardboard, wood, cloth, rubber and many plastics and hazardous equipment holding or conveying flammable liquids, gases or toxic gases are prohibited under stairs unless the fire inspector provides written authorization to permit storage under stairs.

(i) All exit lights shall be lit at all times.

(j) Fire alarms, alarm systems and smoke detectors shall be maintained in good working order. Fire alarms and smoke detectors shall be used to conduct monthly fire evacuation drills. Fire alarms and smoke detectors shall be tested weekly and a record kept of the test results.

Note: The licensee may use the department’s form, Fire, Safety, and Emergency Response Documentation — Group Child Care Centers, to document the results of the weekly testing of fire alarms and smoke detectors. Information on how to obtain the department’s form is available on the department’s website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

An alarm system may also be called a fire protection system or sprinkler system. When a building has sprinklers, there may or may not be pull stations or individual alarms in the building. Fire alarm (protection) systems or sprinkler systems must be monitored for operating order by a qualified monitoring agency. Evidence of operating condition could be a monitoring record obtained from the qualified monitoring agency.

If the building has smoke detectors or individual alarm stations, those smoke detectors or alarm stations must be tested weekly to determine operating condition and used during fire drills.

The fire evacuation drill can be considered one of the weekly tests of the smoke detection system provided the building system is used to sound the alert. The remaining weekly tests of the fire alarm system do not need to be conducted when children are on the premises.

ALARM TESTING: Individual alarm units in a multi-station interconnected fire alarm system should be tested on a rotating basis. The requirement for testing applies regardless of a hookup to a local fire station or other monitoring service.

If there is no audible alarm present in the building, a battery-operated smoke detector or similar device must be used to conduct fire drills so that children become familiar with the sound of a fire or smoke signaling device.

Requests for exceptions will be considered on a case by case basis when using a building fire alarm or smoke detection system would disrupt a larger organization such as a nursing home, school or community center.

(k) Unvented gas, oil or kerosene space heaters are prohibited.

Vented gas, oil or kerosene space heaters may be used if they are installed according to manufacturer recommendations. It is recommended that written documentation of proper installation be obtained from the installer, an insurance agent, the local fire department or a building inspector.

Pellet stoves or other stoves that use alternative fuels may be used if they are installed according the manufacturer's recommendation. An inspection is not required.

Electric space heaters should have an automatic shut off and should not be used near flammable materials.

See DCF 251.06(2)(b) ELECTRICAL OR HOT SURFACE PROTECTION.

(5) SANITATION.

(a) The premises shall be free from litter, clean and in good repair.

(b)1. There shall be no flaking or deteriorating paint on exterior or interior surfaces in areas accessible to children.

Prior to scraping paint from buildings or equipment built prior to 1980, the paint should be tested for lead after consulting your local health Department. Testing is the responsibility of the licensee.

The rule does not require that the whole room or total outside wall be refinished. The area of flaking or deteriorating paint should be refinished through removing old paint by scraping, sanding or heat and by repainting. Repair by a certified lead paint removal contractor is recommended.

2. No lead-based paint or other toxic finishing material may be used.

For more information on asbestos or lead regulations, training, certification, work practices, or inspections, please use the following contact information. Division of Public Health, Bureau of Environmental & Occupational Health, Asbestos and Lead Unit, P.O. Box 2659, Madison WI 53701, Phone: (608) 261-6876, Fax: (608) 266-9711, Email: plicasbestoslead@dhfs.state.wi.us

(c) Garbage containers in the building shall be rigid, covered, watertight and emptied daily or more often as needed. Compactors need not be emptied daily. Garbage and refuse stored out of doors shall be kept in leak-proof containers equipped with tight-fitting covers and shall be disposed of as necessary to prevent decomposition or overflow.

Garbage refers to food waste. Containers for non-food waste do not require covers.

Garbage containers should be rigid and impervious to vermin. Storage of garbage out of doors in plastic or paper bags only is not permitted.

Use of spray disinfectants on garbage containers in the building is not recommended due to the potential for irritation to mucous membranes in young children.

251.06(5)(d)

(d) Furnishings, toys, cots and other equipment shall be washed or cleaned when they become soiled. Eating surfaces shall be washed and sanitized before and after each use.

Eating surface includes tables and high chairs. "Washed and sanitized" involves a two-step process. Products such as Clorox cleanup used on tabletops must be used two times—the first to clean the surface and the second to sanitize the surface.

(e)1. Toilet rooms and fixtures shall be in a sanitary condition at all times.

2. Potty chair receptacles shall be emptied and rinsed and the potty chair and receptacle shall be disinfected immediately after each use with a chlorine bleach solution of one tablespoon to one quart of water, made fresh daily.

To obtain information about Infection Control Measures, see Appendix J Resource List.

(f) Windows and doors that are used for ventilation shall be screened.

If a window is locked, it is not used for ventilation and does not need a screen.

(g) The premises shall be maintained to prevent the entrance or harborage of vermin.

Vermin could be any of various insects such as flies, roaches or lice or any of various disease-carrying animals such as rats, birds, bats, mice or weasels. This list is illustrative.

The exterior of the building should be free of openings around cables and utilities, under doors or broken windows. The garbage storage area should be free of litter, rubbish piles, burrow holes and droppings and should be rodent proof. Metal containers are recommended.

Suspected infestations require the services of a commercial pest control service. Evidence of the provision of a pest control service may be provided by written contract or receipt.

An integrated pest management program is recommended to reduce exposure to pesticides. See <http://www.datcp.state.wi.us/core/insectspesticides/insectspesticides.jsp> for more information.

(6) WATER.

(a) A safe supply of drinking water shall be available to children at all times from a drinking fountain of the angle jet type or by use of disposable cups. Common use of drinking cups is prohibited.

The water supply shall be of sufficient volume and height so the person's mouth need not come in contact with the fountain's spout.

(b) If the center gets its water from a private well, the following shall apply:

The licensee is responsible for the annual water test and making the report available. Instructions for taking samples may be obtained from: Director, Wisconsin State Laboratory of Hygiene, 465 Henry Mall, Madison WI 53706, Phone: (608)262-1293.

1. Water samples from the well shall be tested annually for lead and bacteria by a laboratory certified under ch. DHS 165. The laboratory report shall be available to the department upon request.

2. A center serving children under 6 months of age shall have the water tested annually for nitrate levels.

Note: Section NR 890.09 sets the maximum allowable level of nitrate-nitrogen in public drinking water at 10 milligrams per liter (10 parts per million).

3. If water test results indicate the water contains high levels of lead or is bacteriologically unsafe, the water shall be appropriately treated and re-tested until it is determined to be safe. Bottled water shall be used until the water is determined to be safe. If the water tests above the maximum allowable level of nitrates, bottled water shall be used for infants under 6 months of age.

If the water is bacteriologically unsafe or has high lead levels, it must be treated and retested.

If water is bacteriologically unsafe, bottled water shall be used for hand washing and laundering. Use of bottled water is only a temporary allowance.

The local health department may determine alternative procedures to be followed.

Note: Centers using a private well that serves at least 25 of the same people over 6 months of the year are considered to have a non-transient non community water system (NTNC) and must be in compliance with Chapter NR 809, Safe Drinking Water Act Standards. Contact the nearest Department of Natural Resources from the list at: www.dnr.state.wi.us/org/caer/cs/ServiceCenter/SSbyRegion.html

(7) INDOOR SPACE.

(a) The space used by children shall be no less than 35 square feet of usable floor space for each child, exclusive of passageways, kitchens, bathrooms, coat storage areas, offices, storage areas, isolation quarters, staff room, furnace room, parts of rooms occupied by stationary equipment, and areas not at all times available to children, including areas used exclusively for large muscle activity, napping or eating.

USABLE SPACE: Self-contained rooms or areas are used to determine licensed maximum capacity. Other space in the center, as specified in rule, is not used to determine licensed capacity (see DCF 251.03(28) definition of "Self-contained room or area" and DCF 251.03(12) definition of "Group").

CALCULATIONS TO DETERMINE AVAILABLE INDOOR SPACE FOR CAPACITY: To determine the licensable capacity based on indoor square footage, measurements of the spaces used by the children must be taken. Measurements should be calculated using a length times width (L x W) formula. Inches will be converted to a decimal for ease of multiplication. If the space to be measured does not easily adapt to L x W formula, the space should be broken down into more easily defined squares and rectangles. Triangle-shaped spaces can be calculated using a 1/2L x W formula.

Each room will be measured with a maximum room capacity determined. If the calculations result in a number with a decimal of .5 or higher, the number of children to be accommodated in that space should be rounded up 1 additional child. To obtain the maximum allowable children in the center, based on indoor space only, the individual room capacities are added together. Actual capacity may be different from the maximum capacity taking into account numbers 1 – 6 below.

Documentation of licensable capacity for the facility file and the licensee should be in the form of a letter outlining the measurements taken, deductions made and calculations done or a diagram of the indoor space including measurements, deductions and calculations.

The licensable capacity of a center is based on a number of determinations. The actual licensed capacity of a center will take all determinations into account. Following are the items that must be considered when determining the maximum capacity of a center:

1. *Amount of square footage of self-contained rooms or areas used by the children*
2. *Number of toilets and washbasins available to children. [See DCF 251.06(10)(a)]*
3. *Staff-to-child ratio and maximum group size [See DCF 251.05(4)(a) & (b)]*
4. *Amount of equipment present [See DCF 251.07(3)(c)]*
5. *Amount of cots, mats or sleeping bags available, if applicable [See DCF 251.07(4)(c)]*
6. *Space occupied by all cribs including play pens, portable cribs or pack and plays regardless of whether the cribs are taken down to make additional room when not in use [See DCF 251.09(1)(h)]*
7. *Square footage of outdoor play space unless an exemption has been requested and approval given [See DCF 251.06(11)(b)]*
8. *Storage space for children's clothing and personal belongings so that each child in the licensed capacity has a storage space [See DCF 251.06(8)(e)]*
9. *The qualification of the directors [See DCF 251.05(1)(c)]*

Licensees are responsible for reporting changes in room usage and the removal and/or addition of equipment to rooms. A center's capacity may be reduced or increased based on a recalculation of available space.

251.06(7)(a) continued

Information on the available space should be reviewed by the licensing specialist periodically to ensure that the space available to children has not changed due to the addition or removal of deductible equipment/furnishings from a room or area. Any changes that would reduce a center's capacity based on a recalculation of available space should be discussed with the licensing chief.

In measuring the space, the area under the stairs of the room should not be counted.

LOFTS: Lofts that are connected or attached to the building may not be counted as additional play space for determination of licensed capacity unless the loft has been inspected and approved by a private or certified building inspector under COMM 21.19 Floor Design.

Railings are required when the differences in elevation exceed 18 inches. Differences in elevation can occur inside or outside.

If it is a commercially manufactured piece that meets ASTM (American Society for Testing Materials) standards as proven by documentation regarding height requirements, we would accept without an exception. If it does not meet the ASTM standards, then you must meet rule requirements.

Lofts that are free standing and not connected or attached to the building are considered to be play equipment and may not be counted as additional usable space when determining capacity of a center.

Centers where loft space was included in determining licensed capacity prior to August 1, 1997, will be allowed to remain at the current capacity, unless the center is sold to a new licensee. At the time the change in ownership occurs, a loft may be counted in available space only if the lot has been inspected and approved by a certified building inspector under COMM 21.19 Floor Design.

PASSAGEWAYS AND HALLS: In passageways and halls that exceed the minimum required width for a passageway or hall (3 feet or larger depending on number of occupants in building), the additional space may not be counted as space to increase the licensed capacity.

(b) There shall be additional storage space for cots, bedding, supplies and equipment not in use.

(8) FURNISHINGS.

(a) Furnishings shall be durable and safe, with no sharp, rough, loose or pointed edges.

(b) Tables and seating shall be scaled to the proper height and size for the children's comfort and reach.

It is recommended that the seat on the chair should be 10" below the table top.

When lunches are served in a separate room used expressly for serving meals, the size of chairs and tables is frequently not at the proper height and size for children's reach. An exception may be granted to the height of the chairs and table.

(c)1. Except as provided in subd. 2., in a center where meals are served, seating shall be at least equal to the licensed capacity of the center, excluding infants, so that the children can be served at the same time, and there shall be space at a table for each child.

Where only snacks are served, table and chair space for each child is not required if snacks are served in shifts or cafeteria style.

2. In a center where meals are served in a central lunchroom, seating and table space shall be at least equal to the number of children to be served in a shift.

(d) Shelves shall be provided for equipment and supplies in rooms used by children. Equipment and supplies shall be arranged in an orderly fashion so that children may select, use and replace items.

Stable shelving should be supplied in a quantity sufficient to accommodate the amount of play equipment needed to meet the rule for each self-contained classroom / area and group. It is recommended that centers do not use toy boxes with hinged covers because the cover may fall and trap or injure a child.

(e) There shall be sufficient storage space for clothing and personal belongings to accommodate the clothing and personal belongings of as many children as are in the licensed capacity of the center. For children 2 years of age and older, the space for outer garment storage shall be at child level.

A wide variety of storage space is acceptable (hooks, hangers, lockers, etc). Storage space for personal belongings may be provided through shoeboxes, chip containers, cubbies, plastic containers, laundry baskets, etc.

(f) A safe, washable cot, bed, two-inch thick mat or sleeping bag shall be provided for each child 12 months old or older who naps or sleeps.

(g) A safe, washable crib or playpen shall be provided for use of each child less than 12 months old who naps or sleeps. A crib or playpen shall be washed and disinfected between changes in occupancy.

Note: See Appendix D for information on safe cribs and playpens.

(9) KITCHENS.

(a) Equipment and utensils.

1. When meals are prepared or heated on the premises, the kitchen shall be equipped with a microwave or stove with an oven, a refrigerator, a sink and utensils that are necessary to prepare and serve meals. The sink shall be used exclusively for food preparation and dishwashing.

1m. Centers preparing or serving only snacks are not required to have a sink unless dishes or utensils requiring dishwashing are used. Centers preparing or serving only snacks are not required to have a microwave or stove unless the snacks served require heating. Refrigerators are required if the center serves milk or other perishable snacks.

2. All equipment and utensils shall have smooth, hard surfaces, be easily cleanable, in good repair, durable, non-toxic and free of cracks, seams, chips and roughened areas, and shall be maintained in a clean and sanitary condition.

3. Food preparation tables shall be durable, and surfaces shall be smooth, non-absorbent and easily cleanable.

4. After cleaning, utensils shall be stored in a clean, dry place and protected from contamination.

5. Single-service utensils shall be non-toxic, stored in a clean, dry place, kept covered, and may not be reused.

Single service refers to cups, containers, lids or closures, plates, knives, forks, spoons, etc. intended by the manufacturer for one-time, one-person use and then to be discarded.

6. Infant bottles and nipples may not be reused without first being cleaned and sanitized.

(b) Dishwashing procedures.

1. All kitchen utensils and food contact surfaces used for preparation, storage or serving of food shall be thoroughly cleaned and sanitized after each use.

2. All utensils and dishes shall be scraped, sorted and prewashed under running water.

3. For manual washing of dishes and utensils, a 3-step procedure shall be used:

a. Wash in water between 110° and 125°F., using an effective soap or detergent.

b. Rinse by immersing dishes and utensils in clean, hot water to remove soap or detergent.

c. Sanitize by submerging dishes and utensils for at least 2 minutes in 1½ teaspoons of bleach per gallon of water or another solution of a sanitizer approved by the department.

4.a. If a center uses a commercial dishwasher to clean dishes and utensils, the dishwasher shall have a readily visible temperature gauge located in the wash compartment. If the dishwasher is a spray type or immersion type dishwasher, a temperature gauge shall also be located in the rinse water line.

b. Wash at 130 degrees Fahrenheit to 150 degrees Fahrenheit for at least 20 seconds, using an effective cleaning agent, and rinse and sanitize at 180 degrees Fahrenheit for 10 seconds or more, using an automatic rinse injector.

251.06(9)(b)4.c.

c. When using a spray-type dishwashing machine, the dishes and utensils shall be washed, rinsed and sanitized in the dishwasher according to the manufacturer's operating instructions. A chemical sanitizer shall be used in the final rinse.

5. If the center uses a home-type dishwasher to clean dishes and utensils, the dishes and utensils shall be washed and rinsed in the dishwasher and sanitized by submerging dishes and utensils for at least 2 minutes in 1½ teaspoons of bleach per gallon of water or other solution approved by the department.

Sanicycles may not substitute for the requirement for sanitizing dishes unless the center can document that the hot water (Sanicycle) booster with the domestic dishwasher can raise the temperature of the rinse water to a temperature of no less than 180° Fahrenheit.

6. All dishes and utensils shall be air-dried in racks or baskets or on drain boards.

Note: A list of approved sanitizers is available from the Department of Health Services, Division of Public Health, P.O. Box 2659, Madison, WI 53701-2659.

See Appendix J Resource List for instructions on obtaining a list of approved sanitizers.

(c) *Food sources.*

1. Food shall be clean, wholesome, free from spoilage, free from adulteration or misbranding and safe for human consumption. Meat, poultry, fish, molluscan shellfish, eggs and dairy products shall be from an inspected source.

Fresh produce may be purchased from farmers markets. Home-raised eggs are acceptable by exception with parental and food program permission.

2. Only milk and milk products which are pasteurized and meet the Grade A milk standards of the Wisconsin department of agriculture, trade, and consumer protection may be served or used.

3m. Meals shall be prepared on the premises, in a central kitchen operated by the child care center or in another location that has been inspected by a representative of a state agency.

Note: Chapter DHS 196 addresses restaurants and other public eating establishments. Chapter ATCP 75 addresses retail food establishments.

The Division of Public Health conducts inspections of public school kitchens for the Department of Public Instruction. Private school kitchens may not be inspected by another state agency unless that kitchen holds a restaurant license. Restaurants, catering agencies, hospitals and nursing homes and other residential agencies licensed by the Department of Health Services or the Department of Children and Families have their kitchens inspected by the licensing agency. A copy of any applicable license and the most recent inspection report is required. If a catering service is used, the meals must be prepared on the premises of the licensed catering agency.

Food that is transported from one location to another must be transported in ways that will protect the food from spoilage or contamination. Food transportation containers must be capable of maintaining hot food at 150° Fahrenheit or more and cold food at 40° Fahrenheit or less. All food transported must be covered securely to prevent spilling and the vehicle must be clean.

4. Food in dented, bulging or leaking cans, or cans without labels, may not be used.

5. Hermetically sealed, non-acid or low-acid food which has been processed in a place other than a commercial food processing establishment may not be used.

(d) *Food storage.*

1. Foods shall be stored at temperatures which protect against spoilage. The following measures shall be taken to prevent spoilage:

a. Perishable and potentially hazardous food which includes all custard-filled and cream-filled pastries, milk and milk products, meat, fish, shellfish, gravy, poultry stuffing and sauces, dressings, salads containing meat, fish, eggs, milk or milk products, and any other food or food product likely to spoil quickly if not kept at the proper temperature shall be continuously maintained at 40°F. or below or 150°F. or above, as appropriate, except during necessary periods of preparation and service.

- b. Each refrigeration unit shall be maintained at 40°F. or lower and each freezing unit shall be maintained at 0°F. or lower.
- c. Each cold storage facility shall be equipped with a clearly visible accurate thermometer.

A refrigerator that includes a freezer requires two thermometers—one for the refrigerator portion and one for the freezer portion.

- d. Food shall be covered while refrigerated, except when being cooled.
- 2. Foods not requiring refrigeration shall be stored in clean, dry, ventilated and lighted storerooms or areas which shall be protected from contamination by sewage, wastewater backflow, condensation, leakage or vermin. In addition:
 - a. Dry foods, such as flour, sugar, cereals and beans shall be stored in bags with zip-type closures or metal, glass or food-grade plastic containers with tight-fitting covers and shall be labeled. In this paragraph, “food grade plastic” means any plastic material used in the manufacture of dishes or utensils which has been found not harmful to human health by the national sanitation foundation.

It is acceptable to store bread and buns in their original containers.

Reusing milk jugs for food or beverage storage is not acceptable.

A plastic container that originally contained nonfood products may not be food-grade plastic. A single-use plastic container used by the processor to package food may be reused for food storage if container is smooth, easily cleanable and durable (e.g., Cool whip and deli containers).

- b. Foods stored in the basement shall be stored at least 8 inches above the floor, and food stored in other areas shall be stored high enough above the floor to provide for air circulation and to facilitate cleaning.
- (e) *Cleaning aids.*
 - 1. Poisonous and toxic materials, including cleaning supplies, bleaches and insecticides, shall be labeled and stored in cabinets used for no other purpose and shall be inaccessible to children.
 - 2. Cleaning aids such as mops, broom and buckets shall be clean and shall be stored outside of food preparation or food storage areas.
- (f) *Food handling.*
 - 1. Raw fruits and vegetables shall be washed before being served or cooked.
 - 2. Food returned from individual plates or from dining tables shall be discarded.
 - 3. Leftover prepared food which has not been served shall be dated, refrigerated promptly and used within 36 hours, or frozen immediately for later use.

Commercially-prepared, ready-to-serve opened food items can be retained up to seven days after they are opened when they are properly stored or refrigerated.

- 4. Food delivery vehicles shall be equipped with clean containers or cabinets to store food while in transit. Containers for cold food shall be capable of maintaining the temperature at or below 40°F. and containers for hot food shall be capable of maintaining the temperature at or above 150°F.
- 5. Potentially hazardous frozen foods shall be thawed in the refrigerator, under cold running water or on the defrost setting in a microwave oven. No potentially hazardous frozen food may be thawed by leaving it at room temperature.

The definition of potentially hazardous frozen food includes all of the following: custard-filled and cream-filled pastries: milk and milk products: meat: fish: shellfish: gravy: poultry stuffing and sauces: dressings: salads containing meat, fish, eggs, milk or milk products: and any other food or food product likely to spoil quickly if not kept at the proper temperature.

- (g) *Food service personnel.*
 - 1. Personnel who help prepare meals shall:
 - a. Be at least 18 years of age.
 - b. Wear clean clothing and effective hair restraints such as hair nets or caps.

251.06(9)(g)1.c.

c. Wash their hands with soap and warm running water before starting work, before and after handling food, and after using the toilet. Hands shall be dried with single use towels.

Individual cloth towels can only be used once and then must be laundered.

2. No one with an open or infected wound or sore may work in the food preparation area unless the wound or sore is covered and, if it is on a hand, a nonporous glove is worn on that hand.

(10) WASHROOM AND TOILET FACILITIES.

(a) A group child care center shall provide at least the number of washbasins and toilets with plumbing indicated in Table 251.06. Urinals may be substituted for up to 1/3 of the total required toilets.

The maximum hot water temperature should not exceed 120° F. and a temperature between 100 and 105° F. is recommended. Scald prevention devices are recommended.

**TABLE 251.06
Minimum Number of Washbasins and Toilets
Required in Group Child Care Centers**

| Maximum Number of Children for Which the Center is Licensed | Number of Toilets | Number of Washbasins |
|---|-------------------|----------------------|
| 9 or 10 | 1 | 1 |
| 11 to 25 | 2 | 1 |
| 26 to 40 | 3 | 2 |
| 41 to 55 | 4 | 2 |
| 56 to 70 | 5 | 3 |

(b) When a center is licensed for more than 70 children, one additional toilet shall be provided for each additional 15 children or fraction thereof and washbasins shall be provided in the ratio of one for every 2 additional toilets and urinals or fraction thereof.

(c) Children under the age of 30 months need not be included when determining the required fixtures under par. (a). However, in all cases, at least one toilet and one washbasin shall be provided.

(d) If potty chairs are used for children under 30 months of age, the potty chairs shall be provided in a ratio of one for every 4 children or fraction thereof.

(e) Steps or blocks shall be provided if the washbasins and toilets are not proportioned to the size of the children.

(f) Soap, toilet paper, disposable paper towels or blower-type air dryers and a wastepaper container shall be provided and accessible to children using the facilities.

Liquid soap is recommended. See DCF 251.07(6)(i)3. CONDITION & SHARING OF PERSONAL CARE ITEMS.

(g) Toilet room door locks shall be openable from the outside and the opening device shall be readily accessible to the staff.

Tape may not be used to keep a lock open.

The phrase "toilet room door locks" refers to the outside exit toilet room door. If stalls are constructed according to code, the stall doors should have crawl space underneath.

(11) OUTDOOR PLAY SPACE.

(a) *Requirement for outdoor play space.* A center shall have outdoor play space if children are present for more than 3 hours per day or if outdoor play is included in the center program.

Part-time preschools, nursery schools and school-age programs with sessions scheduled to last at least 3 hours must meet the requirements in this section. Three hours means three consecutive hours of operation with the same children in care.

(b) *Required features of outdoor play space.* Except when an exemption is requested and is approved by the department under par. (c), a center shall comply with all of the following requirements for outdoor play space:

1. The outdoor play space shall be on the premises of the center.
2. There shall be at least 75 square feet of outdoor play space for each child 2 years of age or older using the space at a given time.
3. There shall be at least 35 square feet of outdoor play space for each child under 2 years of age using the space at a given time except as provided in subd. 4.
4. The total outdoor play space of a center shall accommodate not less than 1/3 of the number of children for which the center is licensed or shall be a minimum of 750 square feet, whichever is greater. The number of children under one year of age need not be included for purposes of computing the minimum required outdoor play space if the center provides spaces in wheeled vehicles such as strollers and wagons equal to the number of children under one year of age.
5. An energy-absorbing surface, such as loose sand, pea gravel or pine or bark mulch, in a depth of at least 9 inches is required under climbing equipment, swings and slides and in a fall zone of 4 feet beyond and whenever play equipment is 4 feet or more in height. Shredded rubber and poured surfacing shall be installed to the manufacturer's specifications based on the height of the equipment.

ENERGY-ABSORBING SURFACES: An energy-absorbing surface of at least 9 inches in depth is required underneath and within a 4 foot fall zone around each piece of playground equipment if the distance between the designated play space on each piece of playground equipment and the surface below is 4 feet or more. If swings are present on the playground, the highest point in the trajectory of an occupied swing shall be considered when determining whether an energy-absorbing surface is required.

Information on safety specifications for playground equipment can be found in the standards of the American Society for Testing and Materials (ASTM F1487-95).

Close supervision is critical when children are using playground equipment because children may climb to areas other than the designated play space on each piece of playground equipment.

School age programs, including 4-year old kindergarten (4K) programs do not need 9 inches of energy absorbing material under and around the playground equipment if the children attend that school on a regular basis for school.

6. The outdoor play space shall be well-drained and shall be free of hazards such as uncovered wells, cisterns and unused appliances. Structures such as playground equipment, railings, decks and porches accessible to children that have been constructed with CCA treated lumber shall be sealed with an exterior oil based sealant or stain. Wood containing creosote, including railroad ties, may not be accessible to children.

"Free of hazards" is a discretionary rule to cover a wide variety of hazardous conditions which may occur in an outdoor play area including, but not limited to, basement stairwells not protected by a fence or gate, lawn sprinkler valve boxes recessed several inches below ground with no cover, broken glass or cans in outdoor play area, holes, fences or enclosures with sharp edges or points near adjacent climbing equipment, etc.

Roof-top playgrounds must always be inspected and approved prior to use by a Department of Commerce inspector or designated certified inspector.

7. The boundaries of the outdoor play space shall be defined by a permanent enclosure not less than 4 feet high to protect the children. Fencing, plants or landscaping may be used to create a permanent enclosure.

Centers licensed prior to January 1, 2009, must install a permanent enclosure no later than January 1, 2010.

251.06(11)(b)7. continued

School age programs, including 4-year old kindergarten (4K) programs, are exempt from the requirement for a permanent enclosure under DCF 251.095(2)(c) if the children attend that school on a regular basis for school.

See DCF 251.06(12)(a) ON PREMISES SWIMMING POOL OR BEACH – USE & ENCLOSURE; 251.06(12)(b) WADING POOL; 251.06(2)(k) HOT TUB – COVERED OR FENCED; 251.06(2)(L) HOT TUB – VISIBLY LOCKED DOOR and 251.03(30) definition of “Supervision of children.”

8. Concrete and asphalt are prohibited under climbing equipment, swings and slides.

Asphalt and concrete are unsuitable for use under and around playground equipment UNLESS required as a base for a shock-absorbing unitary material such as a poured surface or rubber mat.

Note: The Consumer Products Safety Commission has a publication entitled Handbook for Public Playground Safety, Pub. No. 325 which provides information on playground safety guidelines designed to help child care centers build safe playgrounds. To obtain copies of this publication and a related public playground safety checklist, contact the Consumer Products Safety Commission at www.cpsc.gov or 1-800-638-2772.

(c) Exemption for off-premises play space.

1. In this paragraph, “main thoroughfare” means a heavily traveled street or road used by vehicles as a principal route of travel.

1m. If a center has no outdoor play space available on the premises of the center, the licensee may request an exemption from the requirements under par. (b) for a center’s outdoor play space.

Exemptions will not be issued to programs that have available on-site play space that is suitable for children’s use.

2. A request for an exemption under subd. 1m. shall be in writing and shall be accompanied by a plan for outdoor play space which does all the following:

- a. Identifies and describes the location to be used, the travel distance from the center to that location and the means of transporting the children to that location.
- b. Provides for adequate supervision of the children as specified in Table 251.05-D.
- c. Provides for daily vigorous exercise in the out-of-doors for the children.
- d. Describes the arrangements to meet the toileting and diapering needs of the children.
- e. Affirms the center’s compliance with the requirements included in subds. 3. to 6.

Note: Send the request for an exemption and the off-premises outdoor play space plan to the appropriate regional office in Appendix A.

3. The off-premises outdoor play space shall be free of hazards such as bodies of water, railroad tracks, unfenced in-ground swimming pools, heavily wooded areas and nearby highways and main thoroughfares.

4. There shall be at least 75 square feet of outdoor play space for each child 2 years of age or older using the space at a given time, and at least 35 square feet of outdoor play space for each child under 2 years of age using the space at a given time.

5. No climbing equipment, swing or slide in the play space may have concrete or asphalt under it.

6. When the off-premises outdoor play space is reached by walking, the center shall transport children under 3 years of age in wheeled vehicles, such as strollers or wagons, with a seating capacity equal to the number of children under 3 years of age to be transported.

7. A center’s plan for use of an off-premises outdoor play space is subject to approval by the department. Within 30 days after receipt of a plan and request for an exemption from the requirements of par. (b), the department shall either approve the plan and grant the exemption or not approve the plan and therefore deny the request for exemption. The department shall notify the center in writing of its decision and, if it does not grant an exemption, shall state its reasons for not granting the exemption.

8. If any circumstance described in an approved plan for use of off-premises outdoor play space changes or if any condition for plan approval is not met or is no longer met, the department may withdraw its approval of the plan and cancel the exemption. A center with an approved plan shall immediately report to the department’s licensing representative any significant change in any circumstance described in the plan.

(12) SWIMMING AREAS.

(a) Above-ground and in-ground swimming pools, and beaches on the premises may not be used by children in care. Swimming pools shall be enclosed by a 6-foot fence with a self-closing, self-latching door. Spaces between the vertical posts of the fence shall be 4 inches or less. Access to a beach shall be restricted by a 6-foot fence.

To adequately protect children when a pool is on the child care center premises, the following steps must be taken:

- 1. If access to the pool is through a gate, the gate must be closed and visibly locked during the licensed hours of the center.*
- 2. If the pool is accessible through a door from the child care building, that door must be closed with a visible lock during the licensed hours of the center, and an alarm must be in place at the door to signal that someone has entered the pool area. Above-ground and in-ground swimming pools on the premises may not be used by children in care and shall be enclosed by a 6-foot fence with a self-closing, self-latching door. Spaces between the vertical posts of the fence shall be 4 inches or less.*
- 3. Locks shall be located so that the locks cannot be opened by the children.*

Floating pool alarm devices are not acceptable in lieu of the above protections, because they only work AFTER a disturbance to the pool's surface.

If the pool is located inside the fenced area of the outdoor play space, it must be enclosed as described above unless an exception under DCF 251.06(12)(a) has been requested and approved. The free-standing wall of an above-ground pool may not serve as an enclosure unless it is 6 feet in height and not climbable. If a ladder is present, the ladder must be removed or raised up so that it is inaccessible to the children.

The area around the pool must be kept free of toys or equipment that would allow a child to climb or otherwise gain access to the pool area.

A stipulation shall be signed and posted specifying the protections that will always be in place during hours of operation.

There may be some programs such as YMCAs that have a swimming pool on the premises of the center. The pool is designed primarily for community or member use. These programs may also have a swimming component as part of the child care program. An exception for the use of these pools may be granted on a case-by-case basis with the approval of the licensing chief/supervisor. Criteria for considering an exception request to allow the use of these pools must include assurances that all the items under DCF 251.06(12)(c) will be met and that an appropriate supervision plan is in place.

Centers that have a beach on the premises should consult with the licensing specialist to determine the best way to restrict the children's access to the beach. An exception may be issued after review of the alternative protections proposed by the center to meet the intent of the rule.

(b) A wading pool on the premises may be used if the water is changed and the pool is disinfected daily. Supervision and staff-to-child ratio requirements under s. DCF 251.05(3) and (4) shall be met.

See DCF 251.03(35) for the definition of "Wading pool."

The provider must be able to demonstrate that the pool can be easily dumped, appropriately cleaned and disinfected daily.

The American Academy of Pediatrics, in the book Caring for Our Children – National Health and Safety Performance Standards for Out of Home Care, states that the use of wading pools for children is not recommended. Standing water is a breeding source of bacteria and insects that carry disease. Instead, sprinklers, hoses or water tables may be used as an alternative for water play.

251.06(12)(c)

(c) A wading pool, pool, water attraction or beach that is not located on the center premises may be used by children, if all the following conditions are met:

DHS 172.03 (53) "Water attraction" means a public facility with design and operational features that provide patron recreational activity other than conventional swimming and involves partial or total immersion of the body. Types of water attractions include activity pools, interactive play attractions, leisure rivers, plunge pools, vortex pools, vanishing edge pools, waterslides, runout slides, drop slides, pool slides, wave pools, zero-depth entry pools, and any public pool with play features except wading pools. This does not include splash pads.

1. The construction and operation of the pool shall meet the requirements of chs. Comm 90 and DHS 172 for public swimming pools. A beach shall comply with any applicable local ordinance.
2. Certified lifesaving personnel shall be on duty.

Center may provide a certified lifeguard. The lifeguard cannot be counted in staff-to-child ratios.

3. While children are in the water of a pool, wading pool, water attraction or beach, staff-to-child ratios for child care workers who can swim shall be:

Swimming ratios do not apply to organized swim lessons, but regular staff-to-child ratios should be maintained in or near the pool area.

- a. For children under 3 years of age: 1:1.
- b. For children 3 years of age: 1:4.
- c. For children 4 and 5 years of age: 1:6.
- d. For children 6 years of age and older: 1:12.
4. When a mixed age group of children are swimming, the staff-to-child ratio shall be adjusted based on the number of children in the water and each child's age.

Note: A worksheet to help calculate the staff to child ratio for mixed aged groupings during swimming is available from the department. Requests may be made to the licensing representative or regional licensing office listed in Appendix A.

5. A child shall be restricted to the area of the pool or beach that is within the child's swimming ability.

Swimming ability may be determined by the parent or the center.

6. If some of the children are in the water and others are not, there shall be at least 2 child care workers supervising the children. One child care worker shall supervise the children who are in the water, and the other child care worker shall supervise children who are not in the water.

DCF 251.07 Program.**(1) PROGRAM PLANNING AND SCHEDULING.**

(a) Each group child care center shall have a written program of activities which are suitable for the developmental level of each child and each group of children. The program shall provide each child with experiences which will promote all of the following:

Note: The Wisconsin Model Early Learning Standards are voluntary standards that were designed to help centers develop programs and curriculum to help ensure that children are exposed to activities and opportunities that will prepare them for success in school and into the future. The Standards are primarily intended as guidance on developmentally appropriate expectations and are not intended to be used as a checklist to gauge a child's progress. The Standards are based on scientific research. Copies of the Wisconsin Model Early Learning Standards are available on the Wisconsin Early Childhood Collaborating Partners website at <http://www.collaboratingpartners.com/> or through the Child Care Information Center at 1-800-362-7353.

At the time of initial licensing, a written program of activities must be available for review. The program of activities should include all types of activities specified under paragraphs (a), (b) and (c).

The written program of activities may be on a daily, weekly or monthly basis and based on the planning technique of each center (e.g., unit planning, goal-oriented planning, theme planning, daily lesson plan). It may also include a daily schedule.

The written program of activities or daily, weekly or monthly lesson plans should reflect the center education policy and program activities related to the developmental goals within rules.

1. Self-esteem and positive self-image.

Examples of activities which will encourage self-esteem and positive self-image:

1) Group activities such as games and songs where children's names are used. 2) Display of children's art work with names at child's eye level. 3) Display of photographs of children at their eye level. Adults address children by name when speaking to them and use child's name in group activities. 4) Activities involving books, pictures and other authentically representative learning materials relating to minorities as well as majority enrollment of the community, and cultural, ethnic and sexual differences. Dramatic-play activities involving the use of mirrors, multi-cultural dolls, dress up clothes representing both sexes and other props. 5) Thoughtful verbal recognition of the child's ideas, expressions and contributions.

2. Social interaction.

Examples of activities which will encourage social interaction:

1) Social-dramatic play such as housekeeping, store, truck/block role enactments such as astronaut, doctor, police officer. 2) Self-selected cooperative play experiences which give children opportunities to interact. 3) Mealtime conversation. 4) For infants - proximity to one another outside of cribs. 5) Selected activities for children age 3 and older in small groups as such cooking, science, nature, circle games.

3. Self-expression and communication skills.

Examples of activities which will encourage self-expression and communication skills:

1) Non-directed creative-art experiences. 2) Asking questions to elicit responses from children. 3) Encouraging children to participate in discussions and give attention to each speaker, including, planning for the day, field trips, etc. 4) Providing opportunities throughout the day for children to converse and share ideas with others. 5) Activities which will allow a child to enlarge his/her listening and speaking vocabulary. 6) Use of stories, poems, nursery rhymes, picture and child-made books. 7) Language development activities. 8) Auditory discrimination games and activities. 9) Labeling of objects, feelings, actions, expressions. 10) Puppet play, flannel board, film strips. 11) Creative dramatics. 12) Meal time conversation.

251.07(1)(a)4.

4. Creative expression.

Examples of activities which will encourage creative expression:

1) Wide range of music, dance and movement activities. 2) Sand, water and block play. 3) Non-directive use of non-limiting materials such as clay, paint, crayons. 4) Woodworking. 5) Involvement with a variety of tools, materials, processes and techniques which involve the exploration of line, shape, color and texture.

5. Large and small muscle development.

Examples of activities which will encourage large and small muscle development:

1) Large Muscle:

- *Use of large muscle equipment such as wooden hollow blocks, balls, climbing equipment, wheel toys, etc.*
- *Group activities (musical or non-musical) involving physical activity such as marching, skipping, jumping, dancing, physical fitness activities, tumbling, running.*
- *Games that facilitate understanding of how our bodies move and that develop coordination, balance, strength, endurance.*

2) Small Muscle:

- *Use of equipment and materials requiring manipulative skill such as puzzles, small interlocking blocks, peg and lacing boards, etc.*

6. Intellectual growth.

Examples of activities which encourage intellectual growth:

1) Science activities. 2) Sensory experience such as tactile, auditory, smelling activities. 3) Discrimination activities involving symbols, shapes, colors, serration, categorizing, matching, etc. 4) Reading and math readiness activities. 5) Language development activities. 6) Practical life experiences such as putting on-clothes, tying shoes, sweeping, creating order in the room. 7) Activities involving problem solving and memory skills. 8) Opportunities to explore the environment and find developmentally appropriate challenges.

7. Literacy.

1) Reading to children. 2) Use of flannel board stories. 3) Puppets. 4) Reading readiness activities such as letter, name, color and shape recognition. 5) Language development activities. 6) Book making activities. 7) Journaling and other writing opportunities. 8) Labeling items in the classroom.

Note: With parental consent and consultation, it is recommended that centers who care for children who have an Individualized Family Service Plan (IFSP) or an Individualized Education Program (IEP) coordinate programming activities with the local school district or Birth to Three agency.

(b) The program schedule shall be planned to provide a flexible balance each day of:

1. Active and quiet activities.
2. Individual and group activities.
3. Indoor and if the center is in operation more than 3 hours per day, outdoor activities.

(c) Television may be used only to supplement the daily plan for children. No child may be required to watch television. Other activities shall be available.

(d) Routines such as toileting and eating and intervals between activities shall be planned to avoid keeping children waiting in lines or assembled in large groups.

(e) The program shall provide all of the following:

1. Reasonable regularity in eating, napping and other routines.
2. Daily periods when a variety of experiences are concurrently available for the children to select their own activities.
3. Protection from excess fatigue and over stimulation.

4. If a center is in operation for more than 3 hours per day, daily outdoor activities except during inclement weather or when not advisable for health reasons.

There is no definite set of guidelines that would prevent a child from going outside for health reasons. Center policies should reflect what would prohibit a child from going outside for health reasons: i.e., a written request by a parents or a written statement by a medical professional.

See DCF 251.03(14r) for definition of "Inclement weather." In the written health policy, the center determines the temperatures when children will go outside with no more than a 5 to 10 degree variation of the temperatures included in the definition. No exception is necessary as long as the variation is no more than 5 to 10 degrees.

Children are to have time to play outdoors each day unless the weather is inclement. Consideration must be given to other conditions on the playground and include available shade, drinking water, protection from wind, etc.

Center provided and maintained selection of warm outer garments is recommended for children whose parents do not provide appropriate clothing for out-of-doors.

See also DCF 251.09(2)(i) INFANT & TODDLER – OUTDOOR TIME.

(f) Child care workers shall give children individual attention.

(g) A center that is open in the early morning and late afternoon shall have a written plan for activities which meet the individual needs of the children during those time periods. The plan shall include:

1. Provision of opportunities for the children to rest and eat.
2. Use of materials and engagement in activities which for the most part do not duplicate materials or activities planned for the major part of the program.

(h) The program as implemented shall reflect the center's written policies.

(2) CHILD GUIDANCE.

(a) In this subsection:

1. "Time-out period" means removing the child from the situation in a non-humiliating manner and placing the child in a designated location in order to interrupt the child's unacceptable behavior.

See Appendix J Resource List for instructions on how to obtain Early Years Are Learning Years – Time Out for "Time-out."

Time out (by whatever name) is an interruption of unacceptable behavior by the removal of the child from the situation. Time out may be used if:

1. *Use is identified in the center child guidance policy for specified types of behavior which child care workers wish to stop.*
2. *The behaviors are identified to children.*
3. *The child is within sight and sound and under the supervision of an adult.*
4. *The reason for the time out is explained to the child.*
5. *The time out is short, not more than one minute per year of age (not to exceed 5 minutes). The child is praised after the completion of the time out.*

2. "Redirection" means directing the child's attention to a different program activity.

Redirection and positive guidance are more than distraction.

(b) Each child care center shall have a written policy which provides for positive guidance, redirection and the setting of clear-cut limits for the children. The policy shall be designed to help a child develop self-control, self-esteem and respect for the rights of others.

See DCF 251.04(2)(i)5. POLICY SUBMITTED & IMPLEMENTED – CHILD GUIDANCE and Appendix J Resource List for information on how to manage crying, fussing or distraught children.

251.07(2)(c)

(c) If a center uses time-out periods to deal with unacceptable behavior, time-out periods may not exceed 5 minutes and the procedure shall be included in the center's child guidance policy.

(d) Use of time-out periods is prohibited for children under 3 years of age.

(e) Actions that may be psychologically, emotionally or physically painful, discomforting, dangerous or potentially injurious are prohibited. Examples of prohibited actions include all of the following:

1. Spanking, hitting, pinching, shaking, slapping, twisting, throwing or inflicting any other form of corporal punishment.

2. Verbal abuse, threats or derogatory remarks about the child or the child's family.

"Verbal abuse" is defined to mean profane, insulting or coarse language sometimes but not always delivered in a loud or threatening manner or language which is ego deflating, causing loss of self-esteem.

3. Physical restraint, binding or tying to restrict movement or enclosing in a confined space such as a closet, locked room, box or similar cubicle.

See DCF 251.03(22r) for the definition of "Physical restraint."

Physical restraint does not include:

- *Briefly holding a child in order to calm or comfort the child.*
- *Holding a child's hand or arm to escort the child from one area to another.*
- *Moving a disruptive child who is a danger to him/herself/others and is unwilling to leave the area when other methods such as talking to the child have been unsuccessful.*
- *Intervening or breaking up a fight.*

If a child has an outburst that puts him / herself or another person in danger of harm, the center has the responsibility to protect the child and others from danger. Once a child has an outburst, we recommend that the center work with the parents to develop a plan to help manage the child's behavior in a way that does not include use of physical restraint. The center may want to refer the child to the pediatrician, Birth-to-3, public school or mental health professional for an evaluation.

In limited circumstances, an exception for the use of a physical restraint of an individual child may be considered if the child has had an evaluation that resulted in an Individual Educational Plan (IEP). The following conditions must be met:

- *The IEP indicates the use of a physical restraint as one part of a plan to help the child learn to manage his/her behaviors.*
- *The center identifies a person(s) who will be assigned the responsibility of implementing the restraint.*
- *The person assigned to implement the restraint receives appropriate training in use of a restraint.*
- *The center documents the use of the restraint and the situation leading to the use of the restraint.*
- *The exception is reviewed and re-approved periodically (recommended every 3 – 4 months).*
- *A copy of the documentation related to a restraint is submitted to the department within 10 days of the use of the restraint.*

4. Withholding or forcing meals, snacks or naps.

Children can be encouraged but cannot be forced to try all their food or finish one food prior to receiving seconds of required foods.

5. Actions that are cruel, aversive, frightening or humiliating to the child.

(f) A child may not be punished for lapses in toilet training.

Aversive "behavior modification" techniques are prohibited (except time outs as specified above).

Note: Inappropriate discipline of a child by a staff member must be reported to the department within 24 hours after the occurrence under s. DCF 251.04(3)(j).

(3) EQUIPMENT.

(a) Indoor and outdoor play equipment shall be safe. The equipment shall be:

The American Academy of Pediatrics recommends that guardrails on lofts or climbing structures should meet American Society of Testing and Materials (ASTM) standards. The guardrail should be installed in order to prevent climbing and should not include more than one horizontal bar as part of the top rail.

1. Scaled to the developmental level, size and ability of the children.
2. Of sturdy construction with no sharp, rough, loose, protruding, pinching or pointed edges, or areas of entrapment, in good operating condition, and anchored when necessary.

Examples of unsafe play equipment include, but are not limited to, the following:

- 1) *Metal toys with sharp edges.*
- 2) *Play housekeeping equipment that is coming apart.*
- 3) *Hard plastic toys which have broken sharp edges.*
- 4) *Slides or rocking boats with protruding screws.*
- 5) *Swing sets with chains that are rusting through.*
- 6) *Permanently installed outdoor equipment that is not safely anchored.*

Certain pull toys may have a cord or string the length of which may present a strangling hazard to a child. Strings on cribs and pull toys should be longer than 12 inches so that cords cannot be wrapped around necks.

3. Placed to avoid danger of injury or collision and to permit freedom of action.
4. Placed over an energy-absorbing surface, when equipment is 4 feet or more in height.

Platform height may be no higher than 4 feet if surface below is not impact absorbing. An impact-absorbing surface may be a tumbling mat if indoors. Carpet is not considered an energy-absorbing surface. Maximum indoor platform height is recommended to be no more than 6 feet or developmentally appropriate for the age of the children using it.

See DCF 251.06(11)(b)8 OUTDOOR PLAY SPACE – PROHIBITED SURFACES .

Lofts that are free standing and not connected or attached to the building are considered to be play equipment. If a loft is used for quiet activities and has steps to reach the upper level, energy-absorbing surface is not required. If the way to get to the loft is other than steps i.e. rung or rope ladder and the landing is 4 feet or more from the floor, then an energy-absorbing surface is required.

If the loft is used as climbing equipment or for active play, energy-absorbing surface is always required.

(b) A center shall provide equipment and supplies according to the following criteria:

1. Child development shall be fostered through selection of a variety of equipment that will:
 - a. Provide large muscle development.
 - b. Provide construction activities and for development of manipulative skills.
 - c. Encourage social interaction.
 - d. Provide intellectual stimulation.

Age-appropriate books must be available for teachers to use with children and must also be available for children to use themselves. These may be one and the same or different sets of books. These may be center-owned or library-supplied books or a combination of both. The recommended amount is at least one book for every two children.

e. Encourage creative expression.

Art media is defined as consumable supplies such as, but not limited to, crayons, paper, paste or glue, paint, clay or play dough, finger paint, collage materials, etc., including the necessary and appropriate non-consumable accessories such as paint brushes, scissors, sponges, etc.

2. A center shall provide sufficient indoor play equipment to allow each child a choice of at least 3 activities involving equipment when all children are using equipment.

251.07(3)(b)3.

3. A center shall provide sufficient outdoor play equipment to allow each child at least one activity involving equipment when all children are using equipment.

Outdoor equipment may be permanently installed or equipment may be taken outdoors from the inside or a combination of both.

(c) The quantity of indoor and outdoor play equipment specified in par. (b) 2. and 3. shall be provided based on the maximum licensed capacity of the center.

(d) Equipment and materials which reflect an awareness of cultural and ethnic diversity shall be provided.

Examples of equipment and materials that reflect cultural and ethnic diversity include multi-cultural dolls, and puzzles and other toys, pictures, posters and music that reflect varying cultures and exposure to foods from different cultures and ethnic groups.

Note: Information on selecting play equipment is available from the Child Care Information Center, 1-800-362-7353.

(e) Children using play equipment shall be closely supervised to prevent injuries.

(f) Trampolines and inflatable bounce surfaces on the premises shall not be accessible to children and shall not be used by children in care.

Inflatable slides and bouncy equipment such as bouncy chairs, hopping balls, etc. are not considered trampolines and may be used by children in care.

(4) REST PERIODS.

(a) A child under 5 years of age in care for more than 4 hours shall have a nap or rest period.

If children who are five years of age and older sleep at the parent's request, the rules on rest periods apply.

(b) Child care workers shall permit a child who does not sleep after 30 minutes and a child who awakens to get up and to have quiet time through the use of equipment or activities which will not disturb other children.

See DCF 251.05(4)(e) regarding adjustments to group size and staff-to-child ratios during naptime.

Children must be closely supervised, and children who are up must have a choice of activities in a reasonably lighted area.

(c) Each child who has a nap or rest period shall be provided with an individual bed, cot, sleeping bag, 2 inch thick mat, crib or playpen which is placed at least 2 feet from the next sleeping child. Cribs or cots may be placed end-to-end if a solid partition separates children and an aisle not less than 2 feet in width is maintained between cribs and cots.

See DCF 251.09(2)(bm) INFANT & TODDLER – SLEEP POSITION.

Each item of sleep equipment (sheets, blankets, etc.) shall be assigned to a child and shall be used only by that child while he/she is enrolled in the facility. Children may share bedding if it has been laundered between uses by the different children. Each mat, cot, or crib mattress shall be covered with the child's individual sheet for exclusive use by that child. No child shall sleep on a bare uncovered surface. Seasonally appropriate covering such as sheets or blankets that are sufficient to maintain adequate warmth, shall be available and shall be used by each child. The center's health policy should include information on the center's procedure for allowing children age 1 and over to use pillows and soft toys while napping.

Cots, sleeping bags and 2-inch thick mats, shall be long enough so the child's head or feet do not rest off the pad.

A sleeping bag is a bag that is closed or capable of being closed on 3 sides. Sleeping bags may be provided by the center or the parent.

STACK CRIBS: If stacked cribs are provided, the following conditions should be met:

- *Only children under seven months of age or not yet standing may use these stacked cribs.*
- *The maximum space between bars is no more than 2 3/8 inches apart.*

When beds, cots and cribs are provided by the center, the number of beds, cots and/or cribs must be at least equal to the licensed capacity unless sleeping bags are provided by parents for children one year and older.

(d) Each child shall be provided with an individually identified sheet and blanket or sleeping bag which may be used only by that child until it is washed.

A towel or other fabric that covers the surface of the cot or mat may be used in place of a sheet.

(e) Bedding shall be maintained and stored in a clean and sanitary manner, replaced immediately if wet or soiled and washed at least after every 5 uses.

Bedding means sheets and blankets and sleeping bags.

Storage in a "clean and sanitary manner" means protection from dust and dirt, particularly the surface which would come in contact with the child.

Cots that are stacked should not have bedding for an individual child hanging over the edge of the cot. If bedding is not stored on the cot, the center must have alternate manner to keep the bedding stored in such a manner that the sleeping surface is not exposed. Cots should be covered with a clean sheet, blanket or other cover that is not used as bedding for a child during times when the cots are not in use. Sleeping bags should be rolled up so that the inside sleeping surface is not exposed to the outside. Sleeping bags do not need to be stored inside an individual storage bag or container. Pillows should be stored on a child's individual cot or rolled up in the child's sleeping bag.

If bedding is provided by parents, a supply of center-provided sheets and blankets should be available for emergencies such as illness or soiling.

(5) MEALS AND SNACKS.

(a) *Food.*

1. Food shall be provided by the center based on the amount of time children are present as specified in Table 251.07.

TABLE 251.07
Meal and Snack Requirements for each Child
in a Group Child Care Center

| Time a Child is Present | Number of Meals and Snacks |
|-----------------------------------|-----------------------------------|
| At least 2½ but less than 4 hours | 1 snack |
| At least 4 but less than 8 hours | 1 snack and 1 meal |
| At least 8 but less than 10 hours | 2 snacks and 1 meal |
| At least 10 or more hours | 2 meals and 2 or 3 snacks |

2. Center-provided transportation time shall be included in determining the amount of time children are present for the purposes of subd. 1.

3. Food shall be served at flexible intervals, but no child may go without nourishment for longer than 3 hours.

The 3-hour determination is from the beginning of a snack or meal to the beginning of the next snack or meal.

4. Each meal and snack served shall meet the U.S. department of agriculture child care food program minimum meal requirements.

251.07(5)(a)4. continued

When a program which operates less than 2½ hours chooses to serve a snack or has a snack provided by parents, the snack must meet the requirements for snacks.

Only beverages that are 100% fruit or vegetable juice may be served to meet USDA requirements for a fruit or vegetable serving. Other beverages may be served (such as water) in addition to the required components.

Note: See Appendices B and C for information on the U.S. department of agriculture child and adult care food program minimum meal requirements.

5. Menus for meals and snacks provided by the center shall:
 - a. Be posted in the kitchen and in a conspicuous place accessible to parents.
 - b. Be planned at least one week in advance, dated and kept on file for 3 months.
 - c. Be available for review by the department.
 - d. Include diverse types of foods.

"Diverse types of foods" is defined as menus which would not be repeated within a one-week time frame.

6. Any changes in a menu as planned shall be recorded on the copies of the menu kept on file and posted for parents.

6m. When snacks are provided by parents for all children, a record of the snack served shall be posted in an area accessible to parents.

7. Enough food shall be prepared for each meal so that second portions of vegetables or fruit, bread and milk are available to children.

USDA food program regulations specify that the USDA amounts are guides for food preparation and are not "helpings." USDA recommends that small helpings of all items be dished up and that seconds be available.

8. When food for a child is provided by the child's parent, the center shall provide parents with information about requirements for food groups and quantities specified by the U.S. department of agriculture child care food program minimum meal requirements.

Note: See Appendix B and C for information on the U.S. department of agriculture child care food program minimum meal requirements.

9. A special diet, based on a medical condition, excluding food allergies, but including nutrient concentrates and supplements, may be served only upon written instruction of a child's physician and upon request of the parent.

Examples of special diets are: feeding tubes, diabetic, etc. Pediasure or Ensure may be used as part of a special diet.

9m. A special diet based on a food allergy may be served upon the written request of the parent.

10. Cooks, staff members, child care workers and substitutes having direct contact with the children shall be informed about food allergies and other allergies of specific children.

(b) *Mealtime.*

1. Staff shall sit at the table with the children during mealtime.

After giving any assistance required by the age of the child, child care workers assigned to the group of children should sit with children during meals. Staff working with infants and young toddlers who must be fed or given a great deal of assistance with self-feeding are not required to sit with the children.

2. Meals shall be served with time allowed for socialization.

(6) HEALTH.

(a) *Observation.*

1. Each child upon arrival at a center shall be observed by a staff person for symptoms of illness and injury. For an apparently ill child, the procedure under par. (c) shall be followed.

2. Any injury to a child or evidence of unusual bruises, contusions, lacerations or burns received by a child in or out of center care shall be recorded in a medical log book and reported immediately to the administrator or other person in charge of the center.

See Appendix J Resource List for instructions on how to obtain the document Medical Log: Directions for Use.

(b) *Isolation.* A center shall have an isolation area for the care of children who appear to be ill. If the area is not a separate room, it shall be separated from space used by other children by a partition, screen or other means.

(c) *Ill child procedure.* The following procedures shall apply when a child with an illness or condition, such as vomiting or diarrhea, having the potential to affect the health of other persons is observed in the child care center:

If a child has the following symptoms, he should be sent home until medical evaluation allows inclusion: severe illness such as unusual lethargy, uncontrolled coughing, persistent crying, difficulty breathing, wheezing, or other unusual signs.

See Appendix J Resource List for instructions on how to obtain the document Exclusion Guidelines for Ill Children in Child Care. The facility health policy should specify which symptoms would require removal of the child from the facility.

1. The child shall be isolated.
2. The child in the isolation area shall be provided with a bed, crib or cot and a sheet and blanket or sleeping bag, with a staff member within sight and hearing of the child, except that for sessions of up to 4 hours a kindergarten mat may be provided for the isolation room instead of a bed, crib or cot. Isolation shall be used until the child can be removed from the center.
3. The child's parent, or a designated responsible person when a parent cannot be reached, shall be contacted as soon as possible after the illness is discovered, and arrangements shall be made for removal of the child from the center.

(d) *Care of a mildly ill child.* A child who is mildly ill may be cared for at the center when all of the following conditions are met:

Care of ill children at the center must be specifically authorized as a condition in the letter of transmittal. Care of ill children may occur in a separate licensed center location or in a separate room which is designed specifically and solely for the care of ill children.

If a sick care program exists in a hospital, the program need not be licensed if the hospital admits the sick children as outpatients on a daily basis.

1. The space for the care of a mildly ill child shall be a self-contained room and shall be separate from children who are well.
2. The room shall have a sink with hot and cold running water.
3. The parent consents in writing.
4. The written health policy of the center allows a mildly ill child to remain at the center.
5. The center follows and implements procedures in a written plan for the provision of care to mildly ill children approved and signed by a licensed physician, or a pediatric or family nurse practitioner which covers all of the following:
 - a. Admissions and exclusions.
 - b. Staffing.
 - c. Staff training.
 - d. Monitoring and evaluation.
 - e. Programming.
 - f. Infectious disease control.
 - g. Emergency procedures.
6. Medical consultation is available from a physician or local health department in establishing policy for the management of mildly ill children.
 - (e) *Communicable disease.*

251.07(6)(e)1.

1. A child with a reportable communicable disease specified in ch. DHS 145 may not be admitted to or be permitted to remain in a child care center during the period when the disease is communicable.

2. When it is determined that a person in contact with children or a child enrolled in a child care center has a reportable communicable disease under ch. DHS 145, such as German measles, infectious hepatitis, measles, mumps, or meningitis, the local public health officer, the department and the parents of exposed children shall be notified...

If the disease is not spread through normal contact, it is not necessary to contact the local health Department or the parents of children. There are penalties for disclosure of HIV antibody test results without consent. See s. 146.025, Wis. Stats. A person's HIV status is confidential and may not be shared with others.

When a licensing specialist is notified that a reportable communicable disease has been confirmed in a child at a center, the licensing specialist may contact the center to confirm that a contact has been made to the local health department. The licensing specialist and the center will work with the health department to ensure that all necessary measures are taken to protect the children in care.

3. An employee, volunteer or a child may be readmitted to the group child care center if there is a statement from a physician that the condition is no longer contagious or if the person has been absent for a period of time equal to the longest usual incubation period for the disease as specified by the department.

Note: The Wisconsin Department of Health Services, Division of Public Health, has developed materials that identify those communicable diseases that are required to be reported to the local public health officer. These materials also provide additional guidance on the symptoms of each disease and information on how long an infected child must be excluded from the center. The materials include a communicable disease chart and exclusion guidelines for child care centers. Copies of the communicable disease chart or the exclusion guidelines for child care centers are available from the Child Care Information Center at 800-362-7353.

(f) *Medications.*

1. Center staff may give prescription or non-prescription medication, such as pain relievers, teething gels or cough syrup, to a child only under the following conditions:

These rules allow prescriptive and non-prescriptive medication to be administered by the center under controlled circumstances as specified. Center health policy may be more stringent than the rule, allowing no medication or only prescription medication. This policy should be included in the written health policy which is shared with parents upon admission. A written authorization from the parent is required to be on-site for each incident and is time limited. Center should ensure that any requirements of the Americans with Disabilities Act are met.

An anti-itch preparation may be applied to children upon authorization from the parent. The parent should supply the preparation. The preparation should be labeled with the child's name. The authorization should include the name of the product and the instructions for administration. The application information does not need to be recorded in the center medical log.

See DCF 251.09(4)(a)10. INFANT & TODDLER – DIAPERING LOTIONS, POWDERS, SALVES.

a. A written authorization that includes the child's name and birthdate, name of medication, administration instructions, medication intervals and length of the authorization dated and signed by the parent is on file. Blanket authorizations that exceed the length of time specified on the label are prohibited.

Medications used to treat chronic illnesses or conditions such as asthma or diabetes may be authorized by a physician for an unspecified length of time. No separate doctor's authorization beyond the prescription label is required. If a physician indicates a child should receive an Over-the-Counter (OTC) medication to treat an on-going problem such as seasonal allergies, a prescription label on the medication or written authorization from the physician for the use of this medication is required.

The authorization from the parent should be reviewed and re-signed when there are any changes or medication is replaced or refilled. The parent should include information on the specific triggers that may signify the necessity for an authorized medication on the child's health history form. Centers may not have parents sign an authorization for an OTC medication to be given on an "as needed" basis that exceeds the length of time on the label unless a physician prescribes that medication.

The rule requires that the dosage instructions must be included on the medication label. For some types of OTC medications such as Tylenol or cold syrup the label instructions indicate that a physician should be consulted for children under a certain age (typically under age 2). Although not required for use by group child care centers, the Authorization to Administer Medication form includes a statement to be initialed by the child's parent indicating the child's physician has been consulted and the dosage instructions are consistent with the physician's recommendation.

The center may develop its own form or may accept a written authorization from the parent in the form of a note, but either format must include the child's name and date of birth, the name of the medication and administration instructions, the medication interval and the length of the authorization and it must be signed and dated by the parent. The parent's authorization may not exceed the time specified on the label of the medication (usually 7 – 10 days).

Note: The department's form, Authorization to Administer Medication — Child Care Centers, is used to obtain the parent's authorization to provide medications. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

b. The medication is in the original container and labeled with the child's name and the label includes the dosage and directions for administration.

The directions on the non-prescriptive medication should be followed according to the age group specifications. The center should address this situation in the center health policy.

c. A written record, including type of medication given, dosage, time, date and the name or initials of the person administering the medication, shall be made in the center medical log book on the same day that the medication is administered.

Note: See s. DCF 251.04(6)(c) on maintaining a center medical log book.

2. Sunscreen and insect repellent may only be applied upon the written authorization of the parent. The authorization shall include the ingredient strength of the sunscreen or repellent. Authorizations shall be reviewed every 6 months and updated as necessary. If sunscreen or insect repellent is provided by the parent, the sunscreen or repellent shall be labeled with the child's name. The recording of the application of sunscreen or insect repellent is not necessary.

If a new ingredient strength will be used, a new authorization is required.

The center health policy should address at what age children can self-apply these items, and the procedure for ensuring that the application is done in a way that will protect the children.

3. Medication shall be stored so that it is not accessible to the children.

4. Medication requiring refrigeration shall be kept in the refrigerator in a separate, covered container clearly labeled "medication".

5. All medication for a child in care shall be administered by the center as directed on the label and as authorized by the parent.

6. No medication intended for use by a child in the care of the center may be kept at the center without a current medication administration authorization from the parent.

Leftover medication should be returned to the parent or discarded in a safe manner after the duration of the illness.

Medications used to treat chronic illnesses or conditions such as asthma or diabetes may be authorized by a physician for an unspecified length of time. No separate doctor's authorization beyond the prescription label is required.

251.07(6)(f)6. continued

If a physician indicates a child should receive an Over-the-Counter (OTC) medication to treat an on-going problem such as seasonal allergies, a prescription label on the medication or written authorization from the physician for the use of this medication is required. The parent should include information on the specific triggers that may signify the necessity for an authorized medication on the child's health history form.

(g) Health precautions.

1. Bodily secretions such as runny noses, eye drainage and coughed-up matter shall be wiped with a disposable tissue used once and placed in a plastic-lined container. Whoever does the wiping shall wash his or her hands immediately.
2. Bodily secretions on surfaces shall be washed with soap and water and disinfected with a bleach solution of one tablespoon bleach to one quart of water, made fresh daily. Hands shall be washed immediately.

See Appendix J Resource List for instructions on how to obtain information on disinfecting surfaces.

3. Children shall be protected from sunburn with protective clothing, if not protected by sunscreen.

4. Children shall be clothed to assure body warmth and comfort.

(h) Universal precautions.

1. Center staff shall adopt universal precautions when exposed to blood and blood-containing body fluids and injury discharges of all children.
2. All persons exposed to blood or blood-containing body fluids and tissue discharges shall wash their hands immediately with soap and warm running water.
3. Single use disposable gloves shall be worn if there is contact with blood-containing body fluids or tissue discharges. Hands shall be washed with soap and water after removal of gloves. Gloves shall be discarded in plastic bags.

Single-use disposable gloves means non-porous gloves without obvious seams made out of latex, natural rubber or plastic in various forms.

4. For spills of vomitus, urine, feces, blood or other body fluids, center staff shall clean and disinfect the floors, walls, bathrooms, tabletops, toys, kitchen countertops and diaper changing tables.

See Appendix J Resource List for instructions on how to obtain information on disinfecting surfaces.

Care should be used with the disposal of gloves and soiled items. The Occupational Safety and Health Administration (OSHA) is responsible for enforcing its standards. Contact OSHA at 1-800-356-4674 or visit the web site www.osha.gov for information on how the OSHA standards apply to child care centers.

(i) Personal cleanliness.

1. A child's hands shall be washed with soap and warm running water before meals and snacks and after toileting or diapering. A child's hands and face shall be washed after meals.

Washing in a common bucket or pan is allowed after certain activities such as finger painting, if this preliminary washing is to eliminate excess paint and is followed up by individual handwashing under running water with soap.

Infants hands may be washed with a fabric, cloth, or paper wipe containing soap and water. Children age one and over must use soap and running water to wash hands.

The maximum hot water temperature should not exceed 120° F. and a temperature between 100 and 105° F. is recommended. Scald prevention devices are recommended.

2. Persons working with children shall wash their hands with soap and warm running water before handling food, and after assisting with toileting and after wiping bodily secretions from a child with a disposable tissue.

3. Cups, eating utensils, toothbrushes, combs and towels may not be shared and shall be kept in a sanitary condition.

4. Wet or soiled clothing and diapers shall be changed promptly from an available supply of clean clothing.

If clothing is usually parent-supplied, the center should maintain a clean, seasonal and gender-appropriate selection of center-owned clothing for emergencies.

5. Applicable rules under s. DCF 251.09(4) shall apply to child care workers when children 2 years of age and older require attention for diapering and toileting.

6. If running water is not immediately available when outdoors or on field trips, soap and water-based wet wipes may be used. When running water becomes available, hands must be washed immediately with soap and running water.

7. Disinfecting hand sanitizers may not replace the use of soap and water when washing hands.

(j) *Injuries.*

1. Written permission from the parent to call a child's physician or refer the child for medical care in case of injury shall be on file at the center. The center shall contact the parent as soon as possible after an emergency has occurred or, if the injury is minor, when the parent picks up the child.

Any head injuries are considered a serious emergency and parents should be contacted as soon as possible.

A minor injury is one that can be treated at the center such as bruises, scrapes, slivers, etc.

It is recommended that a reputable children's first aid manual or chart be readily available in the center for use by staff.

2. A center shall identify a planned source of emergency medical care, such as a hospital emergency room, clinic or other constantly staffed facility, and shall advise parents about the designated emergency medical facility.

Source of emergency care may be posted in a visible place in the center or stated in policies shared with parents.

3. A center shall establish and follow written procedures for bringing a child to an emergency medical care facility and for treatment of minor injuries.

See 251.04(3)(a) REPORT – INCIDENT OR ACCIDENT.

See Appendix J Resource List for instructions on how to obtain the document Get Medical Help Immediately..

4. First aid procedures shall be followed for serious injuries.

5. Each center shall have a supply of bandages, tape, and Band-Aids.

6. Superficial wounds shall be cleaned with soap and water only and protected with a bandaid or bandage.

Since the administering of non-prescriptive medication must be at specific parent direction for each incident, no medication (including anti-bacterial creams or ointments) may be given to the child by the center for injuries.

7. Suspected poisoning shall be treated only after consultation with a poison control center.

Activated charcoal or any other vomit-inducing substance may only be used with authorization from the poison control center.

Statewide Poison Control toll free number is (800) 222-1222. Calling 911 does not automatically connect the caller with poison control. See Appendix J Resource List for instructions on how to obtain a list of poisonous plants.

251.07(6)(j)8.

8. A daily record of injuries shall be kept in the medical log book.

See Appendix J Resource List for instructions on how to obtain Medical Log: Directions for Use.

9. Records of injuries shall be reviewed by the director or designated person with staff every 6 months in order to ensure that all possible preventive measures are being taken. There shall be documentation in the medical log book that reviews have taken place.

Note: See s. DCF 251.04(6)(c) on maintaining a medical log book.

(k) *Health examination and history.*

1. Each child under 2 years of age shall have an initial health examination not more than 6 months prior to nor 3 months after being admitted to a center, and a follow-up health examination at least once every 6 months thereafter.

2. Each child 2 years of age and older shall have an initial health examination not more than one year prior to nor later than 3 months after being admitted to the center, and a follow-up health examination at least once every 2 years thereafter. School-age children are not required to have a health exam.

Children transferring to a new center are required to have an examination on file dated within the last two years.

Children 5 years old and not enrolled in public or private school must have a physical examination on file at the center.

3. The health examination report shall be on a form provided by the department and shall be signed and dated by a physician, physician assistant or HealthCheck provider.

Evidence of a health exam may include a form (such as a HealthCheck provider form or the department's form, Child Health Report) or a printout from a child's medical record that includes the date of the exam, the child's name and the name of the health professional who conducted the exam. No exception is required for the use of a form or report that is not the department's form, Child Health Report.

Doctors of Osteopathy may perform physical examinations. Chiropractors are prohibited by statute from performing physical examinations.

Note: The department's form, Child Health Report — Child Care Centers, is used to record health examination information. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

Note: A HealthCheck provider is a medical professional associated with or employed by an outpatient hospital facility, a health maintenance organization, a visiting nurse association, a clinic operated under a physician's supervision, a local public health agency, a home health agency, a rural health clinic, an Indian health agency or a neighborhood health center.

4. The health examination requirement under subd. 1. or 2. does not apply if the parent of a child requests in writing that the department grant an exemption based upon the parent's adherence to religious belief in exclusive use of prayer or spiritual means for healing in accordance with the teachings of a bona fide religious sect or denomination.

5. A child's health history on a form prescribed by the department completed by the child's parent shall be on file at the center by the first day of attendance. Information contained on the health history form shall be shared with any child care worker assigned to care for the child.

Note: The department's form, Health History and Emergency Care Plan, is used to record a child's health history. Information on how to obtain the form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

See DCF 251.05(2)(a)11. STAFF ORIENTATION – SPECIAL HEALTH CARE NEEDS.

(L) *Immunization.* The center shall maintain a record of immunizations for each child to document compliance with s. 252.04, Stats., and ch. DHS 144.

Note: The form, Day Care Immunization Record, may be used to record immunization information. An electronic printout from the Wisconsin Immunization Registry or other registry maintained by a health care provider may be used in place of the Day Care Immunization Record. Information on how to obtain the form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

Under s. 252.04, Wis. Stats., and ch. DHS 144, the immunization record for each child must be on file no later than 30 school days (6 calendar weeks) after the first day of a child's attendance.

If children are attending a public, parochial or private school and are enrolled in a school-age child care program at the school of attendance, the immunization record is not required to be on file at the child care center. Immunization records are required to be on file for school-age children attending a program that is not located at the child's school of attendance or if the center does not have access to the school's vaccination records.

The Student Immunization Law, s. 140.05(16), Wis. Stats, sets minimum immunization requirements for children attending child care center. The Child Care Immunization Record, is separate from the Child Health Report.

The immunization history must indicate that the child has received at least the first dose of each required immunization (if appropriate for the age of the child) or that the immunization requirement is to be waived for that child by a compliance alternative.

If a parent claims a religious or personal conviction exemption, the parent may check the appropriate box and sign the Day Care Immunization Record form in lieu of providing an immunization history. Immunization requirements may also be waived upon signature of a physician that the child should not be immunized for health reasons as indicated on the Day Care Immunization Record form.

Children who have not received subsequent doses of vaccine appropriate to their age must receive such subsequent doses within one year of the first day of attendance and must notify the child care center in writing as each dose is received.

When children are "in the process" of being immunized (i.e., the child has received some DPT and Polio doses but not all that are required for the child's age), the center should request a note from the child's health care provider that the child is "on schedule" for immunizations and the date for the next scheduled dose. This note should be attached to the child's child care center immunization record. A follow up on this scheduled immunization should be done by the center using the center's health record keeping system.

In situations where one of the following conditions exists—(A) Children do not submit an immunization record within 30 school days (6 weeks) of admission; (B) Children whose record at 30 school days after admission indicates that they do not have at least the first dose of each required vaccine; (C) Children who fall behind schedule (i.e., do not obtain an immunization which their health care provider has indicated is due on a certain date)—there are two courses of action that a center may take.

- 1. The center may notify the district attorney that the child has failed to comply with immunization requirements as authorized by Wisconsin law and administrative rule.*
- 2. The child who fails to comply with immunization requirements may be discharged (excluded) from the center until such time as immunization requirements are met.*

(7) PETS AND ANIMALS.

(a) Animals shall be maintained in good health and appropriately immunized against rabies. Rabies vaccinations shall be documented with a current certificate from a veterinarian.

Note: Service animals used to assist persons with a disability are not considered pets when they are used as a service animal.

251.07(7)(a)Note: continued

Dogs and cats must be vaccinated against rabies as documented by a current vaccination certificate. Other immunizations frequently given to dogs and cats are to prevent disease which is not communicable to children. Initial rabies immunization should be administered by five months of age and within one year after the initial immunization. Subsequent immunizations are to be administered at intervals stated on the certificate of vaccination. If no date is specified, the dog shall be vaccinated within three years of the previous vaccination, as specified in s. 95.21(2) Wis. Stats. Wisconsin law does not allow persons to vaccinate their own animals for rabies.

Pets suspected of being ill or infested with external lice, fleas and ticks or internal worms shall be removed from the center.

(b) Animals that pose any risk to the children shall be restricted from the indoor and outdoor areas used by children.

Examples of aggressive behaviors are: showing teeth, growling, hissing, excessive barking, hair standing up on the animals back or tail between legs.

(c) Licensees shall ensure that parents are aware of the presence of pets and animals in the center. If pets and animals are allowed to roam in areas of the center occupied by children, written acknowledgement from the parents shall be obtained. If pets are added after a child is enrolled, parents shall be notified in writing prior to the pets' addition to the center.

Visits to petting zoos are permitted. Having pets or animals brought into the center to expose children to animals needs to be done carefully to ensure that children and animals are protected. Parents shall be notified in advance.

(d) Reptiles, amphibians, turtles, ferrets, poisonous animals, psittacine birds, exotic and wild animals may not be accessible to children.

Note: Psittacine birds are hooked-billed birds of the parrot family that have 2 toes forward and 2 toes backward and include parrots, macaws, grays, lovebirds and cockatoos.

"Not accessible" means the animal may not have any physical contact with the children, including the children reaching over or through a barrier to touch the animal.

(e) All contact between pets or animals and children shall be under the close supervision of a child care worker who is close enough to remove the child immediately if the pet or animal shows signs of distress or the child shows signs of treating the pet or animal inappropriately.

In the event that an animal bites a child, the parent shall be notified and a veterinarian shall be contacted by center personnel to determine a course of action in the diagnosis of possible rabies in the animal. Procedures for emergency care of children shall be followed. Parents shall be notified of any action taken by the veterinarian, as well as the name, address and telephone number of the veterinarian who was consulted.

(f) Pets in classrooms shall be confined in cages while food is being prepared or served in the classroom. Pets, cages and litter boxes are prohibited in kitchens, lunch rooms, and food storage areas. Pet and animal feeding dishes, excluding water dishes, and litter boxes may not be placed in areas accessible to children.

(g) Indoor and outdoor areas accessible to children shall be free of animal excrement.

(h) If dogs or cats are allowed in areas of the center accessible to children, the certificate of insurance required under s. DCF 251.04(2)(g) shall indicate the number and types of pets covered by the insurance.

(i) Licensees shall ensure that the center is in compliance with all applicable local ordinances regarding the number, types and health status of pets or animals.

(8) MISCELLANEOUS ACTIVITIES. A center which includes in its program watercraft, riflery, archery or horseback riding shall comply with the applicable requirements under s. DCF 252.44(8), (9) and (11).

DCF 251.08 Transportation.

(1) **APPLICABILITY.** This section applies to all center-provided transportation of children, including both regularly scheduled transportation to and from the center and transportation for field trips that are under the auspices of the center.

When transportation is provided by the center, a child is considered to be in the care of the center when the child is placed in the vehicle at the pick-up location and is released from care when the child is dropped off at his/her final location at the end of the child care day. Daily attendance records must include the actual time of pick-up and drop-off.

See DCF 251.03(4g) for the definition of "Center-provided transportation."

(2) GENERAL.

(a) The center shall be responsible for a child between the time the child is placed in a vehicle until the child reaches his or her destination and is released to a person responsible for the child.

(b) The following emergency information shall be carried in the vehicle for each child transported:

1. An address and telephone number where a parent or other adult can be reached in an emergency.

2. The name, address, and telephone number of the child's physician or medical facility.

3. Written consent from the child's parent for emergency medical treatment.

Note: The licensee may use either the department's form, Transportation Permission — Child Care Centers, or the licensee's own form to obtain consent of the child's parent for emergency medical treatment. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

(c) Smoking is prohibited in the vehicle while children are being transported.

(d) The center administrator shall submit a copy of any accident report to the department within 5 days after the occurrence of an accident involving a vehicle transporting children.

(3) DRIVER.

(a) The driver of a center-provided vehicle shall be or have all of the following:

See DCF 251.03(4m) for the definition of "Center-provided vehicle."

1. At least 18 years of age.

This is in conformity with Wisconsin Statutes 121.55 which prohibits anyone under 18 years old from driving children. No exceptions will be granted.

2. A valid Wisconsin operator's license for the type of vehicle driven.

3. At least one year of experience as a licensed driver.

(b) The licensee shall obtain a copy annually of the driving record for each driver of a center-provided vehicle and shall place the record in the staff file. The licensee shall review each driving record to ensure that the driver has no accidents or traffic violations that would indicate that having children ride with the driver could pose a threat to the children.

The only way to ensure that a driver's license has not been suspended or revoked (and is valid) is through a check of the person's driving record maintained by the Department of Transportation. License suspensions and revocations do not result in loss of the actual license card. The person may have a driver's license card that has not expired and still have the license suspended or revoked.

Note: Information on how to obtain driver license records can be obtained by contacting the Department of Transportation at 608-261-2566 or <http://www.dot.wisconsin.gov/drivers/drivers/points/abstract.htm>.

(c) A driver whose driving record poses a threat to the children may not transport children.

(4) VEHICLE.

(a) A vehicle used to transport children shall be:

1. Registered in Wisconsin.

251.08(4)(a)2.

2. Clean, uncluttered and free of obstructions on the floors, aisles and seats.
3. Enclosed. Children may not be transported in a truck except in the cab.

(b)1. Each child who is under 1 year of age or who weighs less than 20 pounds shall be properly restrained in a rear-facing individual child car safety seat when being transported in a vehicle as specified in s. 347.48, Stats.

2. Each child who is at least 1 year of age but less than 4 years of age or who weighs at least 20 pounds but less than 40 pounds shall be properly restrained in a forward-facing individual child car safety seat when being transported in a vehicle as specified in s. 347.48, Stats.

3. Each child who is at least 4 years of age but less than 8 years, weighing not more than 80 pounds or taller than 4 feet 9 inches shall be properly restrained in a shoulder-positioning child booster seat when being transported in a vehicle as specified in s. 347.48, Stats.

4. Each child who is not required to be transported in an individual child car safety seat or booster seat when being transported in a vehicle shall be properly restrained by a seat belt. Each adult in the vehicle shall be properly restrained by a seat belt. Seat belts may not be shared.

5. Children transported in school buses or vehicles built to school bus standards shall be properly seated according to the manufacturer's specifications.

If a center owns, leases or contracts for a school bus, child seat belts or car safety seats are not required for children under age 4 because these vehicles were constructed to carry children without such devices.

INFANT / TODDLER RESTRAINTS: A child crash-tested restraint is a restraint that has been determined to perform satisfactorily in dynamic tests (simulated crash tests). Satisfactory performance is defined as meeting or exceeding the critical elements of the National Highway Traffic Safety Administration's 1974 proposed revision to Federal Motor Vehicle Safety Standard 213.

LIST OF RESTRAINTS: A list of currently approved child safety restraints and recalls may be obtained from the Wisconsin Information Network for Safety, 1007 Ellis St., Stevens Point, WI 54481, or from the website www.chilfsafety.org.

INTEGRATED SAFETY SEATS: Many new vehicles are equipped with integrated child safety seats that are designed for children who weigh at least 20 lb. and are at least 1 year of age.

For additional information call the NHTSA Auto Safety Hotline at (800) 424-9393.

- (c) Passenger doors shall be locked at all times when a vehicle transporting children is moving.
- (d) Children under age 13 may not ride in the front seat of a vehicle.

(5) VEHICLE CAPACITY AND SUPERVISION.

(a) Children may not be left unattended in a vehicle.

(b) When children are transported in a vehicle, there shall be at least one adult supervisor in addition to the driver in either of the following circumstances:

1. There are more than 3 children who are either under 2 years of age or have a disability which limits their ability to respond in an emergency.
2. There are more than 10 children under 5 years of age in the vehicle.

(c) After transporting a child to his or her destination, an adult shall wait until the child enters the building or is in the custody of an adult designated by the parent, unless otherwise authorized by the parent of a school-age child.

(d) A seat in the vehicle shall be provided for each child. In a vehicle not required to have seat belts, the manufacturer shall determine the capacity of the vehicle.

(e) The center shall develop and implement a procedure to ensure that all children exit the vehicle after being transported to a destination.

(6) REGULARLY SCHEDULED TRANSPORTATION.

(a) When regularly scheduled transportation is provided by a center, the center shall maintain the following information in writing at the center and in each vehicle:

Regularly-scheduled transportation is transportation scheduled at fixed intervals: for example,

- *Transportation that is provided once a month for X number of months for a specific purpose.*
- *Transportation that is scheduled from school to center or from center to school on a fixed schedule.*
- *Transportation that is from home to the center or from the center to home.*

Occasional emergency transportation and/or field trips on a one-time basis are not considered regularly-scheduled transportation.

1. A list of children transported.
2. The transportation route and scheduled stops.
3. The name and address of the person authorized to receive a child if the child is dropped off at a place other than the child's residence.
4. Procedures to be followed when the parent or designated authorized adult is not at home to receive the child.

(b) The center shall maintain written safety precautions to be followed and implemented when transporting children with disabilities or children who have a limited ability to respond in an emergency.

(c) When transportation services are contracted or chartered, the name, address and telephone number of the contracting firm and the name of a representative of the firm who may be contacted after hours shall be on file at the center.

(7) CENTER VEHICLES.

(a) A center-provided vehicle shall be in safe operating condition. Except for licensed contract motor carrier vehicles, the licensee shall provide the department evidence of the vehicle's safe operating condition at 12-month intervals on a form the department provides. Licensed contract motor carrier vehicles shall comply with all applicable standards for those vehicles.

Note: The department's form, Vehicle Safety Inspection, is used to record evidence of the vehicle's safe operating condition. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

The National Highway Traffic Safety Administration (NHTSA) modified its interpretation of a federal law in the early 1990s. That law relates to transporting children to and from schools and limits the number of children transported in passenger vans designed to carry more than 10 people. The interpretation of that law applies it to any agency that transports children to and from schools. See Appendix J Resource list for instructions on how to obtain information on the NHTSA re-interpretation and its effect on child care centers that transport children. Centers may be cited for violating this law under DCF 251.04(2)(a) which requires that centers comply with all applicable laws and rules.

The Vehicle Safety Inspection form is to be signed by the owner/employee of a bona fide repair business such as garage, auto repair shop or service station. Name of repair business should appear on vehicle inspection form in addition to signature. Signatures of persons not associated with a firm doing repair business with the public will not be acceptable. If inspection report indicates needed repairs, vehicle must be repaired and inspection form must note the indicated repair or replacement has been completed.

Head Start programs may submit a copy of the Federal Inspection required by the Head Start Performance standards in place of the vehicle safety inspection. No exception is necessary for Head Start programs.

See DCF 251.03(4m) for the definition of "Center-provided vehicle."

(b) A center-provided vehicle, other than a licensed contract motor carrier, shall be equipped with a first aid kit.

First aid kit should include bandages, gauze, tape, gloves.

DCF 251.09 Additional requirements for infant and toddler care.**(1) APPLICABILITY AND GENERAL REQUIREMENTS.**

(a) Group child care centers providing care and supervision to infants and toddlers shall comply with the additional requirements of this section.

(am) Prior to admission, an interview shall be conducted with a child's parent or guardian to obtain written information which will aid child care workers in individualizing the program of care for the child. Information shall include all of the following:

1. Schedule of meals and feeding.
2. Types of food introduced and timetable for new foods.
3. Toileting and diapering procedures.
4. Sleep and nap schedule.
5. The child's way of communicating and being comforted.
6. Developmental and health history.

Note: The licensee may use the department's form, Intake for Child Under 2 Years — Child Care Centers, or the licensee's own form to record information for individualizing the program of care for each child. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

(b) Admission information for an infant or toddler shall be on file in the room or area to which the child is assigned and shall be known to the child care worker.

(c) Child care workers shall document changes in a child's development and routines every 3 months based on discussion with the parent.

Any documented system used by an infant/toddler program which ensures an exchange of information between child care workers and parents at intervals no greater than 3 months is acceptable.

Special emphasis is given to changes in sleeping/nap patterns, dietary needs, i.e., new foods, cup, utensils or self-feeding skills introduced and introduction of toilet training when age appropriate.

(d) Each infant and toddler shall be cared for by a regularly assigned child care worker in a specific self-contained room or area. Infants and toddlers may not be transferred to the care of another child care worker or another group or room in order to adjust group sizes or staff-to-child ratios, except under one of the following circumstances:

Children turning age 2 may transition into an older age group as long as the new group size does not exceed 8 and the child's second birthday is no more than 2 weeks prior to the transition date. Transition to a new age group needs to be planned and discussed with parents prior to the transition.

1. During the first 2 hours and the last 2 hours of center operation.

When groups of children are combined, older children may be transferred to the infant or toddler room with the appropriate play equipment.

2. When the number of children in a group is one or 2 children to one child care worker.

See DCF 251.05(4) TABLE 251.05-D Maximum Group Size and Minimum Number of Child Care Workers in Group Child Care Centers. For children under 2 years of age, the maximum group size is 8. When the number of children in a group size of 8 is reduced to one or 2 or the number of children who arrive/attend does not exceed one or 2 children, children may be transferred to another group.

When the space in a room will accommodate a maximum of 4 children (1:4), children may be transferred to another group/room when the number of children in care is one or two. The rule refers to 2 children in a potential group size of 8, not 2 children assigned to the second child care worker.

(e) The regularly assigned child care teacher and assistant child care teacher for each group of infants and toddlers shall have a minimum of 10 hours of training in infant and toddler care approved by the department within 6 months after assuming the position. If the training is not part of the required entry-level training under s. DCF 251.05(1)(d) or (e), it shall be obtained through continuing education.

See DCF 251.05(1)(f) Child Care Teacher and DCF 251.05(1)(g) Assistant Child Care Teacher.

(f) Infants and toddlers are restricted to first floors and ground floors having direct grade-level exits unless the building is in compliance with all applicable building codes that permit children to be cared for on other levels. The building inspection report on file with the licensing office shall indicate that children under 2 years of age may be cared for on other levels of the center.

(g) Safety gates shall be provided at open stairways.

Safety gates should be installed at the bottom and/or top of stairs, depending on where children are. Gates may be installed a maximum of 18" from the bottom step or about 3 steps up taking into consideration the landing surface.

(h) For centers licensed on or after January 1, 2009, the space occupied by cribs shall be deducted in determining the 35 square feet space requirement under s. DCF 251.06(7)(a) for each child.

Centers may take cribs down for additional room when not in use, but this will not increase the space available in determining capacity.

(i) The number of children under one year of age admitted at any one time may not exceed the number of cribs and playpens.

(j) Cribs and playpens shall contain a tight fitting mattress and any mattress covering shall fit snugly over the mattress. Water beds may not be used by children under age 2.

(k) Sheets or blankets used to cover the child shall be tucked tightly under the mattress and shall be kept away from the child's mouth and nose.

Swaddling of infants is permitted if requested by the parent. Swaddling is an age-old practice of wrapping infants snugly in swaddling cloths, blankets or similar cloth so that movement of the limbs is tightly restricted.

If the child pulls the blanket out during nap time the provider must ensure that that blanket is kept away from the child's mouth and nose.

(L) Children under one year of age may not sleep in a crib or playpen that contains soft materials such as sheepskins, pillows, fluffy blankets, bumper pads or stuffed animals.

(2) DAILY PROGRAM.

(a) Child care workers shall respond promptly to a crying child's needs.

(b) Each infant and each toddler shall be allowed to form and follow his or her own pattern of sleeping and waking.

There shall be no specifically scheduled nap time for all infants as a group.

As children begin to mature, a child's schedule will be changed to slowly eliminate the a.m. nap and slowly integrate the child into the center schedule. Priority shall be given to the individual eating and sleep needs of the child.

(bm) Each child under one year of age shall be placed to sleep on his or her back in a crib unless otherwise specified in writing by the child's physician. The child shall be allowed to assume the position most comfortable to him or her when able to roll over unassisted.

If a child falls asleep in a swing or car seat, the child must be removed from the swing or car seat and placed to sleep on his or her back in a crib.

(c) Emphasis in activities shall be given to play as a learning and growth experience.

The center shall individualize the program of care for each child in order to respond to the child's developmental rhythms and the parent's schedule.

Teacher-directed group learning activities is an inappropriate developmental learning technique for infants and toddlers.

251.09(2)(c) continued

Examples of appropriate activities are: peek-a-boo and other object permanence games; pat-a-cake and other imitation games; cause and effect activities; stimulating sensory and body feelings through touching, cuddling, rocking etc.; finger games for finger and hand control; creating barriers for crawling under and over; practical life experiences.

(d) Throughout the day each infant and each toddler shall receive physical contact and attention such as being held, rocked, talked to, sung to and taken on walks inside and outside the center.

(e) Routines relating to activities such as taking a nap, eating, diapering and toileting shall be used as occasions for language development and other learning experiences.

(f) When a non-mobile child is awake, the child care worker shall change the child's body position and location in the room periodically. Non-mobile children who are awake shall be placed in on their stomach occasionally throughout the day.

The child's location in the room should be changed from one area of the room to another to ensure differing views of the room and the people, children and objects in it. The awake non-mobile child should be changed from back to front position or vice versa or changed from prone to propped up position in an infant seat.

(g) The non-walking child who can creep or crawl shall be given opportunities during each day to move freely by creeping and crawling in a safe, clean, open, warm and uncluttered area.

(h) Child care workers shall encourage infants and toddlers to play with a wide variety of safe toys and objects.

Infant/toddler rooms are to be equipped with play equipment according to the developmental level of the children in that room. Since children under 2 years of age are not always able to select their own playthings from shelving, this equipment should be made available to them for play. A listing of equipment is available from the Child Care Information Center.

(i) Infants and toddlers shall be taken outdoors for part of each day except during inclement weather or when this is not advisable for health reasons.

Center provided and maintained selection of warm outer garments is recommended for children whose parents do not provide appropriate clothing for out-of-doors.

There is no definite set of guidelines that would prevent a child from going outside for health reasons. A child who is too ill to go outside is too ill to be in attendance at the center. Center policies should reflect what would prohibit a child from going outside for health reasons (e.g., a verbal or written request by a parent or a written statement by a medical professional). See DCF 251.07(1)(e)4.

DAILY OUTDOOR ACTIVITIES.

(j) Equipment shall be provided to take infants and toddlers out of doors for a walk.

(k) An adult-size rocking chair or other adult-size chair shall be provided for each child care worker for the purpose of holding and rocking children.

(3) FEEDING.

(a) Child care workers shall do all of the following:

1. Feed each infant and each toddler on the child's own feeding schedule.
2. Ensure that food and formula brought from home are labeled with the child's name and dated, and are refrigerated if required.
3. Ensure that formula prepared by the center is of the commercial, iron-enriched type and mixed according to the manufacturer's directions.
4. Except as provided in subd. 6., provide formula or breast milk to all children under 12 months of age.

It is recommended that the unused, expressed breast milk be discarded after 48 hours if refrigerated or by three months if frozen. Unused frozen breast milk which has been thawed in the refrigerator should be used within 24 hours. It is recommended that frozen breast milk be thawed under running cold water or in the refrigerator.

6. Provide a type of milk other than a type under subd. 4., or a milk substitute, only on the written direction of the child's physician.

7. Discard leftover milk or formula after each feeding and rinse bottles after use.

It is recommended that expressed breast milk be discarded if it presents a threat to the baby such as storage in an unsanitary bottle, breast milk that has been out of the refrigerator for more than 1 hour; a bottle that has been fed to the baby for a period that exceeds one hour from the beginning of the feeding.

It is recommended that once a formula feeding has been initiated, a bottle be consumed within 2 hours or the contents discarded.

8. Offer drinking water to infants and toddlers several times daily.

There are many children who only need formula during their first year of life and may need water only if outside in the summer or in a very hot environment while inside. It is recommended that the center consult with a child's parents to determine at what age to begin offering water to an infant. Offering water at meals is appropriate when children are actually eating food.

9. Hold a child unable to hold a bottle whenever a bottle is given. Bottles may not be propped.

10. Cover, date and refrigerate commercial baby food containers which are opened and foods prepared in the center which are stored. If not used within 36 hours, leftover food shall be discarded.

11. Hold or place a child too young to sit in a high chair in an infant seat during feeding. Wide-based high chairs, hook-on chairs or infant seats with safety straps shall be provided for children who are not developmentally able to sit at tables and chairs.

This requirement for a safety strap is intended to prevent a child from standing up in the high chair and falling out and to prevent a child from slipping down and under the tray. At a minimum, the safety strap should be a T shape for all seats.

See DCF 251.07(2)(e)3. PROHIBITED ACTIONS – PHYSICAL RESTRAINT, RESTRICTION, ENCLOSURE. A high chair, feeding table or seat may not to be used as a form of punishment or a method to restrict activity. A child is only to use the chair for meal / snack times or planned activities.

12. Encourage children to experiment with self-feeding with their hands and spoons. Eating utensils and cups shall be scaled to the size and developmental level of the children.

13. Offer a variety of nourishing foods to each child, such as cereal, vegetables, fruit, egg yolks and meat, according to the child's developmental level and the parent's feeding schedule.

14. Refrain from feeding a child directly from commercial food containers.

15. Refrain from heating breast milk in a microwave oven.

(b) Procedures for heating infant formula, milk and food in a microwave oven shall be posted near the microwave oven. Child care workers shall follow the posted procedures for heating food, milk and formula.

See Appendix J Resource List for instructions on how to obtain Microwave Instructions – Preparing Formula for Infants.

(4) DIAPERING AND TOILETING.

(a) Child care workers shall do all of the following:

1. Plan toilet training in cooperation with the parent so that a child's toilet routine is consistent between the center and the child's home, except that no routine attempts may be made to toilet train a child under 18 months of age.

2. Change wet or soiled diapers and clothing promptly.

251.09(4)(a)3.

3. Change each child on an easily cleanable surface which is cleaned with soap and water and a disinfectant solution after each use with a chlorine bleach solution of one tablespoon bleach to one quart of water, made fresh daily, or a quaternary ammonia product prepared in accordance with label directions.

An easily cleanable surface may be a changing table, a plastic covered mat, a plastic covered mattress or any other surface that is impervious to water and capable of being disinfected with a bleach solution.

Disinfectants that are used in hospitals and nursing homes may also be used. However, if the disinfectant is not bleach or a quaternary ammonia product, the center must have a letter from the health facility indicating the health facility is using the product as a disinfectant.

All products must be used in a two-step procedure. First soap and water to rid the surface of any organic material and then the disinfectant is to be used.

Products containing both a cleaner and a bleach or quaternary ammonia, such as Clorox cleanup products, must be applied using the 2-step process.

See Appendix J Resource List for instructions on how to obtain the Approved Sanitizer List from the Division of Public Health.

Note: A quaternary ammonia product is any of a group of compounds in which a central nitrogen atom is joined to four organic radicals and one acid radical, used as antiseptics and disinfectants. Benzalkonium chloride, dimethyl benzyl ammonium chloride, and dodecyl dimethyl ammonium chloride are the names of some common ammonium compounds that might identify a product as a quaternary ammonium product. The chemical name for bleach is sodium hypochlorite.

4. If the diapering surface is above floor level, provide a barrier or restraint to prevent falling. A child may not be left unattended on the diapering surface.

5. Place disposable soiled diapers and gloves, if used, in a plastic-lined, hands-free, covered container immediately.

Soiled disposable diapers are to be placed immediately into a plastic-lined and covered container to minimize the spread of airborne bacteria commonly found in urine and fecal material.

Staff hands and gloves become contaminated with bacteria during the diaper changing process. A hands-free container allows for the immediate deposit of the soiled diaper without the use of staff hands. If hands are used to open the lid the lid becomes contaminated. Bacteria can be spread if young children and other staff members later touch the contaminated lid.

6. Place parent-supplied soiled cloth diapers in labeled plastic bags which are kept separate from other clothing.

The Center for Disease Control and the American Academy of Pediatrics both recommend that soiled cloth diapers and training pants should never be rinsed. The fecal contents may be placed in the toilet, but diapers and training pants should not be rinsed in the toilet.

Bags with soiled clothes must be kept out of the reach of children.

Reusable waterproof coverings (wrap or pullover) for use with fabric diapers should be changed after every use.

7. Place center-supplied soiled cloth diapers in a plastic-lined, covered container for washing by a commercial diaper service.

8. Remove soiled diapers from containers as needed but at least daily for washing or disposal. Containers shall be washed and disinfected daily.

9. Wash hands with soap and running water before and after each diapering or assistance with toileting routines. For children under one year, hands may be washed with soap and a fabric or paper washcloth.

10. Apply lotions, powders or salves to a child during diapering only at the specific written direction of the child's parent or the child's physician. The directions on use shall be posted in the diaper changing area. Recording the use of lotions, powders or salves during diapering in the medical log book is not required.

11. Wash the child's diaper area before each diapering with a disposable or fabric towel used only once.

(b) Each self-contained classroom or area serving infants or toddlers who are diapered shall have a sink with hot and cold running water which is not used for food preparation or dishwashing within the room or area.

(c) There shall be a solid barrier between the diapering area and any food preparation area.

The recommended height for a barrier is 8 inches or a distance barrier of 18 inches according to the American Academy of Pediatrics.

(d) There shall be a supply of dry and clean clothing and diapers sufficient to meet the needs of all the children at the center.

(4) **ADDITIONAL REQUIREMENTS FOR GROUP CHILD CARE CENTERS SERVING SCHOOL-AGE CHILDREN.**

(a) *Supervision.*

1. A center serving school-age children is responsible for the health, safety and well-being of a child between the time the child arrives at the center and the time the child is released to the parent or to another activity which is specifically authorized in writing by the parent.

2. The center shall have on file an agreement, signed by the parent, which specifies the attendance schedule to be followed and authorizes the child's release to activities away from the center.

Note: The licensee may use either the department's form, Alternate Arrival/Release Agreement — Child Care Centers, or the licensee's own form for securing the parent's signed agreement. Information on how to obtain the department's form is available on the department's website, <http://dcf.wisconsin.gov>, or from any regional licensing office in Appendix A.

3. School-age children 8 years of age and older may be authorized by staff to participate in center-sponsored activities in the child care center away from direct supervision by center staff.

School-age children under age 8 must be supervised by a child care worker at all times.

Although there may be brief periods of time that a child 8 years of age or older may not be within sight and sound [See DC 251.095(4)(a)3.], at no time should staff allow any child, or group of children, to be in jeopardy by not knowing where they are or what they are doing.

With a parent's agreement, a child may be excused from the center to assist a teacher in a classroom or attend a social group meeting such as scouts in the school building. The Alternate Arrival/Release form may be used to secure the parent's agreement for these types of activities.

The 10 hours of training in the care of school-age children required for a school-age assistant child care worker may not be used to meet entry-level training requirements for a school-age teacher or center director. Experience gained as a school-age assistant child care worker may be counted towards the experience requirement.

3. Each assistant child care teacher shall meet the requirements in s. DCF 251.05(1)(g) or shall have satisfactorily completed at least 10 hours of training approved by the department in the care of school-age children within 6 months after assuming the position.

Manufacturer's specifications for height and weight of children should be followed. See DCF 251.03(8r) for the definition of "Crib."

DCF 251.11 Licensing administration.**(1) GENERAL CONDITIONS FOR APPROVAL OF LICENSE.**

(a) A facility that provides care on a regular basis to 9 or more children under the age of 7 years shall be deemed to be providing care for compensation and shall be licensed as a group child care center.

(b) Prior to receiving a license, an applicant for a license under this chapter shall complete all application forms truthfully and accurately and pay all fees and forfeitures due to the department.

(c) The department may refuse to issue or continue a license if another center operated by the licensee is in substantial non-compliance with the licensing rules or has any outstanding fine or forfeitures.

(d) Persons licensed to operate a group child care center shall be responsible, mature individuals who are fit and qualified. In determining whether an applicant is fit and qualified, the department shall consider any history of civil or criminal violations or other offenses substantially related to the care of children by the applicant, owner, manager, representative, employee, center resident or other individual directly or indirectly participating in the operation of the group child care center. A determination of being unfit and unqualified includes substantiated findings of child abuse or neglect under ch. 48, Stats., or substantiated abuse under ch. 50, Stats., or under similar statutes in another state or territory whether or not it results in a criminal charge or conviction.

(e) The department shall issue a group child care license to an applicant within 60 working days after receipt and department approval of a properly completed application, satisfactory department investigation and determination that the applicant is fit and qualified. Continued licensure requires a licensee to remain fit and qualified.

(f) If the department has reason to believe that the physical or mental health of any person associated with the care of children at the center or any household resident of the center might endanger children in care, the department may require that a written statement be submitted by a physician or, if appropriate, by a licensed mental health professional that shall certify the condition of the individual and the possible effect of that condition on the group child care center or the children in care.

(g) The department may deny or revoke the license if the examination specified under par. (f) gives the department reasonable concern for the care of children.

(h) The department may not process an application for a license if the applicant has had a license or certification to operate a child care center revoked or denied within the last 2 years. An applicant is deemed ineligible to submit an application for a license and a licensee may not hire an employee within 2 years from the date an applicant or employee had a child care license revoked or denied.

(i) The department shall consider a licensee who fails to submit any of the materials described in sub. (3) or (4) by the expiration or continuation date of a license to have surrendered his or her license and to no longer hold title to the license. The former licensee may not continue to operate the child care center.

The Department will provide the application form to a license applicant upon completion of the pre-licensing technical assistance.

(d) Upon submission of a complete application, the department shall conduct an investigation to determine whether the applicant is eligible for a license.

(e) If the department determines that the applicant is eligible for a license, the department shall issue a probationary license having a 6-month duration. A probationary license may be renewed for one 6-month period.

(f) If the department determines that an application does not comply with the applicable requirements of this chapter or the department's investigation determines that the applicant is not eligible for a license, the department may deny the application.

Regular licenses shall be reviewed and continued for a 2-year period.

(4) CONTINUING A REGULAR LICENSE.

(a) A regular license shall be valid indefinitely, unless suspended or revoked by the department or surrendered by the licensee.

(b) At least 30 days before the continuation review date of the license, an applicant for license renewal shall submit to the department the following materials:

5. Any changes to the delegation of administrative authority if not previously submitted.

6. Any other materials determined by the department as necessary to complete the department's licensing investigation.

Note: The department will supply a copy of the form, License Application — Group Child Care Centers, prior to the continuation date of the license.

(c) If the department determines that the licensee has met the minimum requirements for a license under s. 48.67, Stats., has paid the applicable fees referred to in ss. 48.65 and 48.685(8), Stats., any forfeiture under s. 48.715(3)(a), Stats., and any penalty under s. 48.76, Stats., the department shall continue the license for an additional 2 years.

6. The name of the center.

(b) A licensee may not make a change that affects a condition of the license under par. (a) without the prior written approval of the department.

(c) A licensee may not move the center to a new location or change ownership of the center without notifying the department at least 30 days prior to the change. A new application and license is required when a center moves or changes ownership.

Note: The department's form, License Application — Group Child Care Centers, is used to apply for a new license. The department will provide an application when notified by the licensee that the center will move to a new location.

(d) A licensee proposing to increase the licensed capacity of a center shall demonstrate compliance with this chapter in the operation of the existing center and compliance with rules for any other facility licensed by the department and operated by the licensee.

(6) ADDITIONAL LICENSE. A licensee applying for a license for an additional center location shall demonstrate compliance with this chapter in the operation of the existing center he or she operates and compliance with rules for any other facility licensed by the department and operated by the licensee. The licensee shall pay any fines, forfeitures or other fees due and owing under s. 48.715, Stats., or s. 48.65, Stats., on other facilities licensed by the department before the department issues an additional license.

(7) LICENSE DENIAL OR REVOCATION.

(a) The department may deny, revoke or suspend a license, initiate other enforcement actions specified in this chapter or in ch. 48, Stats., or place conditions on a license if the applicant or licensee, a proposed or current employee, a volunteer or any other person having regular contact with the children, has or has been any of the following:

1. The subject of a pending criminal charge for an action that substantially relates to the care of children or activities of the center.

2. Convicted of a felony, misdemeanor or other offense or action that substantially relates to the care of children or activities of the center.

7. Violated any provision of this chapter or ch. 48, Stats., or fails to meet the minimum requirements of this chapter.

Note: Examples of charges and offenses the department will consider in making a determination under this paragraph that an act substantially relates to the care of children are: abuse or neglect of a child; sexual assault; abuse of a resident of a facility; a crime against life and bodily security; kidnapping; abduction; arson of a building or of property other than a building; robbery; receiving stolen property from a child; a crime against sexual morality, such as enticing a minor for immoral purposes or exposing a minor to harmful materials; and interfering with the custody of a child. The list is illustrative. Other types of offenses may be considered.

(b) The department may deny, revoke, refuse to renew or suspend a license, initiate other enforcement actions specified in this chapter or in ch. 48, Stats., or place conditions on the license if the applicant or licensee is not fit and qualified as determined under sub. (1).

Note: See DCF 251.03(11g) for the definition of “fit and qualified.” Examples of charges, actions or offenses the department will consider in making a determination under this paragraph that an act substantially relates to the care of children include the following: abuse or neglect of a child; sexual assault; abuse of a resident of a facility; a crime against life and bodily security; kidnapping; abduction; arson of a building or of property other than a building; robbery; receiving stolen property from a child; a crime against sexual morality, such as enticing a minor for immoral purposes or exposing a minor to harmful materials, interfering with the custody of a child. The list is illustrative. Other types of offenses may be considered.

(c) The department shall deny or refuse to continue or revoke a license if the applicant or licensee has failed to pay court-ordered payments of child or family support, maintenance, birth expenses, medical expenses or other expenses related to the support of a child or former spouse or for the failure of the applicant or licensee to comply, after appropriate notices, with a subpoena or warrant issued by the department or a county child support agency under s. 59.53(5), Stats., and related to paternity or child support proceedings, as provided in a memorandum of understanding entered into under s. 49.857, Stats. Notwithstanding s. 48.72, Stats., an action taken under this subsection is subject to review only as provided in the memorandum of understanding entered into under s. 49.857, Stats., and not as provided in s. 48.72, Stats.

(d) The department shall deny an application for the issuance or continuation of a license or revoke a license if the department of revenue certifies under s. 73.0301, Stats., that the applicant or licensee is liable for delinquent taxes. An action taken under this subsection is subject to review only as provided under s. 73.0301(5), Stats., and not as provided in s. 48.72, Stats.

(8) EFFECT OF NOTICE TO DENY OR REVOKE A LICENSE.

(a)1. If the department decides under sub. (7) to deny the grant of a license or to revoke a license, the department shall notify the applicant or licensee in writing of its decision and the reasons for that decision.

2. If the department revokes a license, the effective date of the revocation shall be either immediately or 30 days after the date of the notice, based on the criteria under s. 48.715(4m)(a) and (b), Stats., unless the decision is appealed under sub. (10).

(b) Upon receipt of the notice in par. (a) and during any revocation or denial procedures that may result, a group child care center may not accept for care any child not enrolled as of the date of receipt of the notice without the written approval of the department.

(9) SUMMARY SUSPENSION OF A LICENSE.

(a) Under the authority of s. 227.51(3), Stats., the department shall summarily suspend a license and close a group child care center when the department finds that the public health, safety or welfare requires emergency action and incorporates a finding to that effect into its order. A finding of a requirement for summary suspension of the license may be based on any of the following:

1. Failure of the licensee to provide environmental protections for the children, such as heat, water, electricity or telephone service.

2. The licensee, an employee, a volunteer or any other person in regular contact with the children in care has been convicted of or has a pending charge for a crime against life or bodily security.

3. The licensee, an employee, a volunteer or any other person in regular contact with the children in care has been convicted of a felony, misdemeanor or other offense that substantially relates to the care of children or activities of the center or has a pending charge that substantially relates to the care of children or activities of the center.

APPENDIX D
CONSUMER PRODUCTS SAFETY COMMISSION (www.cpsc.gov)

Your Used Crib Could Be DEADLY

CPSC Document # 5020

An unsafe used crib could be very dangerous for a baby. Each year, about 50 babies suffocate or strangle when they become trapped between broken crib parts or in cribs with older, unsafe designs.

A safe crib is the best place to put a baby to sleep. Look for a crib with a certification seal showing that it meets national safety standards.

If a crib does not meet these guidelines, it may not be used by children enrolled in your child care center. To protect all children, destroy it and replace it with a safe crib.

A safe crib has:

- No missing, loose, broken, or improperly-installed screws, brackets, or other hardware on the crib or the mattress support.
- No more than 2 3/8 inches between crib slats so a baby's body cannot fit through the slats.
- A firm, snug-fitting mattress so a baby cannot get trapped between the mattress and the side of the crib.
- No corner posts over 1/16 of an inch above the end panels (unless they are over 16 inches high for a canopy) so a baby cannot catch clothing and strangle.
- No cutout areas on the headboard or foot board so a baby's head cannot get trapped.
- A mattress support that does not easily pull apart from the corner posts so a baby cannot get trapped between mattress and crib.
- No cracked or peeling paint to prevent lead poisoning.
- No splinters or rough edges.

The department shall promulgate rules establishing minimum requirements for the issuance of licenses to, and establishing standards for the operation of, child welfare agencies, day care centers, foster homes, treatment foster homes, group homes, shelter care facilities, and county departments. Those rules shall be designed to protect and promote the health, safety, and welfare of the children in the care of all licensees. The department shall consult with the department of commerce, the department of public instruction, and the child abuse and neglect prevention board before promulgating those rules. Those rules shall include rules that require all of the following:

In determining whether to issue or continue a license, the department may consider any action by the applicant, or by an employee of the applicant, that constitutes a substantial failure by the applicant or employee to protect and promote the health, safety and welfare of a child. Upon satisfactory completion of this investigation and payment of the fee required under s. 48.615(1)(a) or (b), 48.625(2)(a), 48.65(3)(a) or 938.22(7)(b), the department shall issue a license under s. 48.66(1)(a) or, if applicable, a probationary license under s. 48.69 or, if applicable, shall continue a license under s. 48.66(5). 1. If the review panel finds sufficient evidence to support rehabilitation approval, the decision shall indicate, as applicable, whether the person is eligible for regulatory approval, employment as a caregiver, or contracting with or residency at an entity. The decision shall describe the scope of the rehabilitation approval and state any conditions or limitations placed on the approval, such as whether the

approval is only for employment doing certain job functions or the eligibility for regulatory approval is only to operate certain entity types.

2. If the review panel decides to defer a rehabilitation decision, the panel decision shall state the reasons for the deferral. Unless otherwise agreed to by the requester, the panel may defer a final decision for a period of not more than 6 months from the initial decision date.

3. If the review panel decides to deny approval of the rehabilitation request, the decision shall explain the reasons for the denial and inform the requester that he or she may appeal the decision as described in s. 48.685 (5c) or 50.065 (5c), Stats., as applicable, by filing a written request for review of the decision within 10 days of receipt.

Note: Any person who is listed in the Department's caregiver misconduct registry under ch. DHS 13 as having a substantiated finding of abuse or neglect of a client or misappropriation of a client's property as the result of an action the person took while working as a nurse aide in a federally certified nursing home or intermediate care facility for persons with mental retardation (ICF/MR) is permanently prohibited from being employed, in any capacity, in a federally-certified nursing home or a federally-certified ICF/MR. If such a person obtains a rehabilitation approval, the person is eligible to be considered for regulatory approval, for employment as a caregiver, or for non-client residency at or contracting with other entities covered by ss. 50.065 and 48.685, Stats. See 42 CFR 483.13 and 483.420 for federal regulations relating to nurse aides.

(b) *Burden of proof.* A person who appeals under par. (a) 3. shall bear the burden of proving, by a preponderance of the evidence, that the agency or tribe abused its discretion in deciding that the person did not show sufficient evidence to support rehabilitation approval.

(c) *Review panel decision distribution.* The review panel shall send its decision to the requester and a copy, if appropriate, to the entity. If the agency conducting the rehabilitation review is other than the department or a tribe, the review panel shall also, within 10 days of sending its decision, send a completed copy of the department's required reporting form regarding any rehabilitation decision to the department. If the entity conducting the rehabilitation review is a tribe, the review panel shall also send a copy of the decision to the same address accompanied by a copy of the requester's application materials.

Note: Rehabilitation decisions should be addressed to the Office of Legal Counsel, Department of Health Services, P. O. Box 7850, 1 W. Wilson St., Room 651, Madison, WI 53707-7850.

(d) *Maintaining rehabilitation decision documentation.* The review panel shall maintain a file containing a copy of the original written decision and any decisions from filed appeals that may result. The agency or tribe shall maintain in the file the rehabilitation review request and all materials or information obtained or notes made as part of the rehabilitation review decision.

(6) REHABILITATION APPROVAL COMPLIANCE AND WITHDRAWALS.

(a) *Approval conditions.* A person who receives rehabilitation approval shall comply with all conditions and limitations imposed with that approval.

(b) *Rehabilitation approval violation—mandatory withdrawal.* An agency or tribe that has granted a person a rehabilitation approval shall withdraw the approval if the

agency or tribe learns that the person is no longer eligible under s. 50.065 (4m) (a) or (b), or 48.685 (4m) (a) or (b), Stats., for regulatory approval, to be employed as a caregiver, or to contract with or reside at an entity.

(c) *Rehabilitation approval violation—summary suspension.*

An agency or tribe that granted a person a rehabilitation approval may immediately temporarily rescind the rehabilitation approval when the agency or tribe has knowledge that the person has done either of the following:

1. The person has failed to comply with or abide by any conditions or limitations imposed with the rehabilitation approval.

2. The person knowingly submitted false information or withheld pertinent information relevant to the rehabilitation request that otherwise could or would have affected the review panel's decision to grant the rehabilitation approval.

(d) *Informing agencies or tribes.* An agency, entity or tribe other than the agency or tribe that granted a rehabilitation approval, that becomes aware that any person has violated his or her rehabilitation approval under par. (b) or (c), shall inform the agency or tribe that granted the approval, of the violation.

(e) *Review of summary suspensions.* 1. Within 10 working days of temporarily rescinding a rehabilitation approval under par.

(c), the approving agency or tribe shall determine whether the new information related to an approval violation under par. (c) is valid and represents a risk of harm to the client. If the new information is valid and does represent a risk of harm to the client, the approving agency or tribe shall withdraw the rehabilitation approval, thereby re-imposing, as applicable, the person's bar from regulatory approval, from employment as a caregiver or from contracting with or residing at an entity.

2. An agency, entity, or tribe, as applicable, that determines the new information related to an approval violation under par. (c) represents a risk of harm to a client shall also immediately take appropriate measures to protect clients until any appeal filed under par. (g) is exhausted.

Appropriate measures may include a repeal of regulatory approval, termination of employment as a caregiver or of approval to reside at an entity, contract termination, reassigning the person away from duties involving direct regular contact with clients or placing the person on temporary leave.

(f) *Withdrawal decisions.* When an agency or tribe withdraws a rehabilitation approval, it shall issue a written decision to that effect. The decision shall explain the reasons for the withdrawal and inform the requester whether he or she may appeal under par. (g).

(g) *Appeal rights.* Any person who has his or her rehabilitation approval withdrawn under par. (c) may file an appeal of this decision as provided in sub. (5) (a).

(h) *Withdrawal reporting.* When an agency or tribe that granted a rehabilitation approval withdraws the approval, and the withdrawal results in a bar to regulatory approval, to eligibility to work as a caregiver, or to contracting with or residing at an entity, the approving agency or tribe shall immediately report the withdrawal to the subunit of the department responsible for collecting this information.

Note: Send reports of withdrawn rehabilitation approval to: Office of Legal Counsel, Department of Health Services, P. O. Box 7850, 1 West Wilson Street, Room 651, Madison, WI 53707-7850.

(7) SCOPE OF AGENCY OR TRIBE REHABILITATION APPROVAL. (a) *Agency approval limitations.* An agency may grant rehabilitation approval only within the scope of its regulatory authority. The approval applies to all types of entities, job activities and functions the agency regulates, unless the agency specifies otherwise in the form of

limitations or conditions expressed in the written rehabilitation approval decision.

(b) *Tribe approval limitations.* A tribe may only grant rehabilitation approvals within the scope of its own employment, contracting, or licensing authority.

(c) *Rehabilitation approval transfers.* 1. When an agency, tribe, or entity learns from the department's background information disclosure form or in any other way that an applicant for regulatory approval, for employment as a caregiver, or for a contract with or permission to reside at an entity has had a rehabilitation review, the agency, tribe, or entity shall request from the rehabilitation review agency or tribe a copy of the rehabilitation review decision. If the rehabilitation review decision was an approval, the agency, tribe or entity shall determine whether the approval may be applied to the regulatory approval, employment as a caregiver, or contract with or residency at an entity that the applicant currently seeks.

2. Except as specified in subd. 3., an agency, entity, or tribe may review and accept a rehabilitation granted to a person by another agency or tribe if the receiving agency or tribe determines both of the following:

a. The crime, act, or offense that required the person to request rehabilitation review is not substantially related to the person's job duties.

b. Any limitations or conditions imposed with the rehabilitation approval continue to be able to be met.

3. No rehabilitation approval granted by a tribe may be transferred outside of the tribe's employment or contracting authority.

4. Before transferring a rehabilitation approval under subd. 1., an agency, tribe, or entity shall verify with the department that the applicant has had a rehabilitation review, and if so, the date and status of that review and whether any reason other than the one the applicant reported on the background information disclosure form exists that requires the applicant to request a rehabilitation review.

5. If the decision of the agency or tribe that conducted the rehabilitation review is to deny approval of transferring the rehabilitation approval, the agency, entity, or tribe shall determine whether the applicant for regulatory approval, for employment as a caregiver, or for contracting with or residency at an entity is eligible to seek another rehabilitation review under sub. (2), and if so, shall inform the person of his or her eligibility.

Note: Examples of circumstances in which approvals may or may not be transferable include the following:

1. An approval to be a foster parent by one county or child-placing agency is not, unless approved by the other county or child-placing agency, transferable to the other county or child-placing agency.

2. An approval by the department for a person to work as a shipping clerk in a hospital or nursing home would be transferable to another entity or job function or activity regulated under ch. 50, Stats., as long as limitations or conditions, if any, imposed with the rehabilitation approval are able to be met.

3. A rehabilitation approval for employment at a children's day care or a child caring institution is not transferable to a hospital or nursing home or vice versa.

4. A rehabilitation approval is not transferable from a group day care center to a family day care center if the department's rehabilitation approval imposed limits or conditions.

5. A rehabilitation approval is transferable from one department-regulated child care residential setting to another as long as any limitations or conditions can be met.

APPENDIX G (continued)
CHAPTER DHS 12
APPENDIX A OFFENSES AFFECTING CAREGIVER ELIGIBILITY
SEPTEMBER, 2000
INTRODUCTION

This document lists Wisconsin crimes and other offenses that the Wisconsin State Legislature, under the Caregiver Law, ss. 48.685 and 50.065, Stats., has determined either require rehabilitation review approval before a person may receive regulatory approval, may work as a caregiver, may reside as a nonclient resident at or contract with an entity, or that act to permanently bar a person from receiving regulatory approval to be a foster parent.

Note: This table reflects changes in the caregiver law made by 1999 Wisconsin Act 9.

If a person has been convicted of a crime in another state or jurisdiction, the entity or regulatory agency must locate on the table below the Wisconsin crime that is identical or most similar to the crime for which the person was convicted and apply the consequence identified. This instruction also applies if the person was convicted in Wisconsin, but the statute number or crime title has been changed or amended. For example, convictions under Chapter 961, the Uniform Controlled Substances Act, were previously convictions under Chapter 161.

Notwithstanding s. 111.335, Stats., ss. 48.685 (5m) and 50.065 (5m), Stats., permit a regulatory agency to deny regulatory approval or an entity to refuse to employ, contract with or permit to reside at the entity a person whom the regulatory agency or entity determines has been convicted of a crime that is “substantially related” to the care of a client. The agency or entity may review a conviction to make that determination when: (a) The person has been convicted in Wisconsin or another state or jurisdiction of any crime that is not listed in this appendix; or (b) The person has been convicted of a crime that is listed in part III. of this appendix for foster care purposes only.

Under the Caregiver Law, current limitations on a person’s professional credentials may limit the person’s eligibility for employment or licensure in a position for which the person must be credentialed by the department of regulation and licensing.

If a Background Information Disclosure form, a caregiver background check, or any other information shows that a person was convicted of any of the offenses immediately below within 5 years before the information was obtained, the department, county department, child welfare agency, school board, or entity, as applicable, shall make every reasonable effort to contact the clerk of courts to obtain a copy of the criminal complaint and judgment of conviction relating to that conviction.
